WE PROUDLY ACCEPT:

WHO ARE WE?

Mercedes Scientific (MSI) is a NATIONAL, privately held laboratory products and equipment distributor. Since 1991, MSI has been dedicated to providing customers with competitive prices on quality products that are selectively sourced, both domestically and internationally – securing the brand names that customers have come to recognize and trust, as well as providing affordable alternatives for consideration. With a robust laboratory product line, MSI also sells and services new and refurbished laboratory equipment through its subsidiary TANNER SCIENTIFIC. MSI takes the customer experience as a top priority. The Sales and Customer Care Representatives teams work to ensure the buying experience is seamless. For 30 years, this family-owned business believes that the work environment should be fun, so it is a dog friendly office for its employees. Special sales and promotions are available all year long and FREE Giveaways are also **available for every order upon request.**

PULSE OXIMETER

The **DigiOx Finger Pulse Oximeter** provides simple, fast and accurate oxygen saturation (SpO2) and pulse rate measurements. Lightweight and compact, the pulse oximeter's design makes it an ideal solution for home, clinical and EMS settings.

FEATURES

- Lightweight, pocket-size solution
- Provides fast and accurate SpO2 and pulse rate measurements
- Multiple-directional display for easy read
- Large LED color display that is easy to read
- Adjustable 10 settings for brightness level
- Simple one button operation
- Automatic power off function to conserve batteries
- Accommodates widest range of finger sizes from pediatric to adult

GRX JB02008	DigiOx Finger Pulse Oximeter	Each
--------------------	------------------------------	------

GRX JB2008

TEMPLE TOUCH THERMOMETER

- Non-invasive temporal temperature measurement using patented conductive technology delivers clinically accurate readings in about six seconds
- Cost-effective design reduces the risk of cross contamination and avoids the need for costly probe covers
- Ideal for the hospital, clinic or physician office
- Features an audible tone when measurement is complete, last reading memory and auto-off function to conserve battery life
- Ultra-fast response is ideal for pediatric and institutional use
- **Temperature Range:** 95°F to 107.6°F \pm .2°F (35°C to 42°C \pm .1°C)
- Uses 2 "AAA" batteries (included)

ADC 427

Adtemp™ 427 Digital Thermometer

Each

SURETEMP® PLUS 690

Welch Allyn SureTemp® Plus 690 Electronic Thermometer enhances a routine task with quick and accurate predictive temperature readings.

VERSATILE & FAST

- Oral, rectal and axillary modes to measure all patient types
- Dedicated button helps you quickly switch between modes
- C/F button easily toggles between Celsius and Fahrenheit
- Monitor mode option helps to measure thermal steady state

EASY & INTUITIVE

- Large LCD display features flashing icons
- Recall button displays last temperature taken
- 60-second timer to support pulse and respiration readings
- Convenient storage for 25 probe covers
- Takes approximately 6,000 readings on (3) AA batteries
- Ergonomic design with rubberized grips
- Optional security wall mount

SAFE & SECURE

- Soft, single-use disposable probe covers help minimize cross-contamination risk between patients
- Interchangeable probe wells are easy to remove and clean when switching between modes
- Two electronic security features to help protect against theft

WEL 01690200

Electronic Thermometer

Each

TYMPANIC IR THERMOMETER

- Measures core temperature instantly, reliably and accurately
- Probe cover FREE design is less costly and more convenient
- Wide Measurement Range of 32.0°F to 212.0°F $\pm .4^{\circ}\text{F}$ or 0.0°C to 100.0°C $\pm .2^{\circ}\text{C}$ depending on scale selection
- Features a large illuminated display, an audible fever alarm, 12-reading memory and automatic shutoff to conserve battery
- **MOST COMPACT TYMPANIC THERMOMETER ON THE MARKET**
- Compact ergonomic design fits comfortably in the operator's hand and the patient's ear
- Complete with lithium battery, storage/travel case, and operating instructions

ADC 421

Adtemp™ 421 Digital Thermometer

Each

ZOLL® AED PRO® DEFIBRILLATOR

The Automated External Defibrillator (AED) is ideal for professional responders to provide the feedback needed to perform optimal CPR. EMS supervisors and command vehicles, firefighters, and bike medics appreciate this portable, lightweight, compact, and durable device.

- Available in semi-automatic or semi-automatic with manual override
- Superior design and rubber over-molds are built to withstand harsh emergency medical environments
- Real CPR Help for rate and depth of chest compressions during CPR using ZOLL's unique one-piece CPR-D-padz®
- See-Thru CPR allows a rescuer to view a patient's underlying ECG rhythm while performing CPR
- Exceptionally resistant to dust and water jets (IP55 Rating); passes the 1.5 meter drop test
- Built-in internal memory and external USB memory technology allows expanded data storage capacity, and maximum flexibility for data management and transfer
- Electrodes and battery compatibility with ZOLL M Series®, E Series® and R Series® professional defibrillators
- ECG monitoring with 3-lead cable and high-quality display
- Unrivalled battery options (long-life disposable or rechargeable)
- Easy unit configuration through ZOLL administration software
- **Includes:** Backlit LCD Screen, ECG Display, Soft Carrying Case, Rugged Over-Molded Outer Housing, Multi-Patient Internal Memory, IrDA Port, Operators Guide, 5-Year Factory Warranty

BLOOD ROCKER

- Widely used in hematology, chemistry, research and bacteriology laboratories for blood sample tubes and small vials
- Quiet, smooth, steady operation and space saving design
- Gentle (precision-controlled) rocking motion assures mixing without damage to fragile cell suspensions
- Features 16-tube capacity, 24 rocking cycles per minute, washable tube pad and rubber cushion pad to prevent test tubes from slipping

LWS MXLBLF716T1

Blood Rocker

Each

CAPACITY: 16 TUBES

TILT: 27°

**SPEED: 24RPM AT 60HZ,
20RPM AT 50HZ**

POWER: 110V / 60HZ (220V / 50HZ)

PLATFORM SIZE: 12"W X 4.5"D

SIZE: 13.5"L X 5.25"W X 4"H

WEIGHT: 4.8LBS

STAINING DISHES

WHEATON™

- Dish and cover are manufactured from soda-lime glass
- Nontarnishable rack withstands most staining solutions and hinged handle allows easy insertion and removal of slides
- Linerless polypropylene white screw cap reduces evaporation

FIS 08813A	Holds 50 Slides Horizontally, Includes: Rack, Cover, Handle	Each
-------------------	---	------

WTN 08813D	Holds 10 Slides Vertically, Cap (For Partially Immersed Slides)	Each
-------------------	---	------

FISHERBRAND™

- Heavy molded glass coplin staining dish holds slides vertically
- Each groove holds 2 standard (1" x 3") slides back-to-back

FIS 08815	Holds 10 Slides, Glass Cover	Each
------------------	------------------------------	------

FIS 08816	Holds 10 Slides, Screw Cap	Each
------------------	----------------------------	------

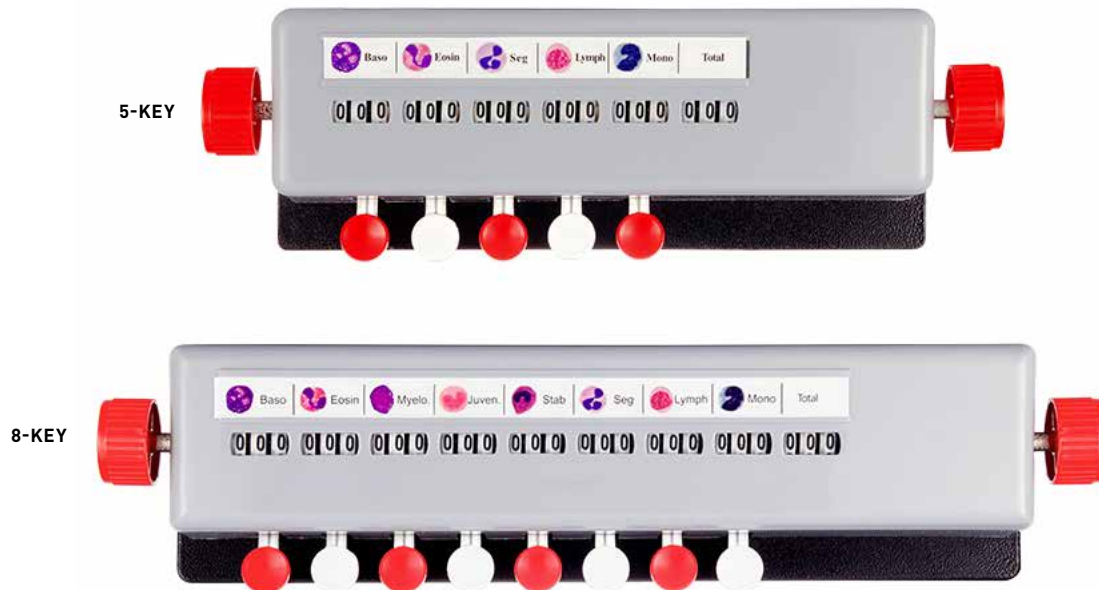

FIS 08817	Holds 16 Slides, Glass Cover	Each
------------------	------------------------------	------

MANUAL DIFFERENTIAL COUNTERS

- Economical, durable, manual counters provide years of use even in the most demanding laboratory settings
- Pictures and names of each cell (**Baso, Eosin, Myelo, Juven, Stab, Seg, Lymph, Mono**) on levered keys for easier identification

LWS CTLDIFM05KY	5-Key Differential Counter	Each
LWS CTLDIFM08KY	8-Key Differential Counter	Each

TRADITIONALLY DIFFERENTIAL COUNTERS HAVE BEEN MANUAL “GEAR AND LEVER” MACHINES, AND MANY LAB TECHS ARE ACCUSTOMED TO THE FEEL OF THE LEVERED KEY!

STAINING JARS

PLASTIC COPLIN JAR

- Holds 10 (1" x 3" / 75 x 25 mm) standard slides back-to-back
- 40mm diameter circular tapered top and domed screw-on cap
- High-density polyethylene construction with internal grooves

GLASS COPLIN JAR

- Made of heavy clear soda lime glass (3" height, 1.2" diameter)
- Vertical spacers holds 10 standard microscope slides back-to-back
- Ground-on glass cover and wide, flat, round base
- Only requires about 50mL of solution and can be used for routine H&E staining, special staining and IHC counterstaining

FIS 194	Plastic Coplin Jar	Each
CAS SD05	Glass Coplin Jar	Each

CAS SD05

Accelerate your Research!

- Outstanding user experience
- Reliable performance and safety
- Supporting your lab – now and in the future

CENTRIFUGE 5910 Ri

The NEW refrigerated **Centrifuge 5910 Ri** combines high capacity and performance in a compact and ergonomic footprint. It comes with an intuitive touchscreen user interface and an advanced temperature management system.

Spin the smart way with your NEW Centrifuge 5910 Ri

- Large 7" VisioNize® touch interface for super-fast parameter settings via unique favorites function
- User management with multiple authorization levels and documentation features supporting GLP/GxP requirements
- Swing-bucket rotors and adapters for tubes and bottles from 0.2 mL to 1,000 mL as well as all types of MTP, PCR or Deepwell Plates
- Fixed-angle rotors for high-speed molecular biology applications in tubes from 0.2 to 250 mL
- High centrifugation speed of up to $22,132 \times g$ (14,000 rpm)
- Aerosol-tight Eppendorf QuickLock® caps and lids for fast and ergonomic lid locking
- Quiet operation to improve your work environment
- Centrifuge lid with soft-touch lid closure
- Temperature range from -11°C to 40°C
- Automatic rotor recognition and imbalance detection for maximum operational safety

EPP 5943000131	Centrifuge 5910 Ri, Refrigerated, Without Rotor (Centrifuge Only)	Each
EPP 5943000106	Centrifuge 5910 Ri, Refrigerated, Rotor FA-6x50, High Speed Solution	Each
EPP 5943000343	Centrifuge 5910 Ri, Refrigerated, Rotor S-4xUniversal, Includes: Universal Buckets & Adapters for 5mL / 15mL / 50mL Conical Tubes and Plates	Each
EPP 5943000246	Centrifuge 5910 Ri, Refrigerated, Rotor S-4xUniversal, Includes: Universal Buckets & Adapters for 5mL / 15mL / 50mL Conical Tubes, 175–250mL Bottles & Plates, Versatility Solution	Each
EPP 5943000114	Centrifuge 5910 Ri, Refrigerated, Big Volume Harvesting Solution, Rotor S-4xUniversal, Includes: Universal Buckets & 1L Adapters (4x), Eppendorf 1L Bottles (4x)	Each
EPP 5943000548	Centrifuge 5910 Ri, Refrigerated, Rotor S-4x750, Includes: Round Buckets & Adapters for 5mL / 15mL / 50mL Conical Tubes	Each

ACCUCOLD® STORAGE

For reliable temperature stability, **Mercedes Scientific** has access to a wide line of purpose-built refrigerators and freezers specifically designed to meet CDC and VFC guidelines for vaccine storage. Available in a range of sizes, these units are tested and featured for convenient use in pharmacies, hospitals, clinics, and other facilities.

Call 800.331.2716 to find the right storage unit for you!

PORTABLE

FIXED SPEED

E8 SERIES CENTRIFUGES

Choose the lowest-priced FIXED-speed model for spinning blood only, or choose the VARIABLE-speed or DIGITAL models for spinning blood, urine, fecals, semen, and other fluids at the correct speeds for proper separations and clear results. The Portable E8 8-place Portafuge is designed for spinning on the go.

- Higher speeds for faster and cleaner blood separations
- Quieter operation for peaceful work environments
- Lower chamber temperatures for cooler test-tube samples
- Auto-calibrating function for precision speeds
- Auto-brake to stop the rotor in less than 30 seconds to save time
- 8-place angled rotor holds 3mL to 15mL size tubes
- Clear view port in lid for using tachometer
- Suction-cupped feet prevent slipping
- Designed, engineered, and assembled at ISO-certified, FDA-registered manufacturing facility in America

LWS E8CU8AD15TP	Digital-Speed Portafuge	Each

DRUCKER MODEL 642E CENTRIFUGE

This compact single-speed centrifuge is designed to provide the ideal pre-analytic sample processing performance recommended by all collection tube manufacturers. Using patented rotor technology, the 642E reduces blood separation processing times by 33% while minimizing use of valuable counter space for the doctor's office or lab. 642E's performance reduces patient redraws by keeping your patient samples cool during processing, providing a high quality and stable gel layer, and maximizing sample integrity.

- World's best-selling clinical laboratory centrifuge
- Two-button operation ensures maximum repeatability
- Single preset for all common chemistry needs
- Designed, built, and supported in the USA

SPECIFICATIONS

Max G-Force: 1,600 x g (RCF)

Max Speed: 3,400 RPM

Weight: 11 lbs (5 kg)

Dimensions: 8.75"H x 14"D x 11.75"W

Max. Acceleration Time: 10 Seconds

Max. Deceleration Time: 20 Seconds

Warranty: 2 years (lifetime on rotor)

DRK 642E

Model 642E Centrifuge

Each

GET THE 642E AT A PRICE THAT FITS ANY BUDGET. THE UNIT ARRIVES READY FOR USE WITH THE HORIZONTAL ROTOR, TUBE HOLDERS AND 2-YEAR WARRANTY INCLUDED IN THE AFFORDABLE PRICE.

CAPACITY: Up to (6) 17 x 100mm tubes

TUBE SIZES: Processes 75-100 mm (3-10 mL) tubes for chemistry, coag, and PPP applications

ELECTRONIC TIMER: Preset to 10 minutes (+5%/-2%), selectable

BRUSHLESS AC MOTOR: No routine maintenance; unique convection-based cooling system and brushless motor ensure years of worry-free operation

QUIET OPERATION: Double-encased motor and the "stability mount" design provides excellent imbalance stability

COOL OPERATION: Unique design of the convection based cooling system protects the samples even under the heaviest workloads

SAFETY LID SWITCH: Centrifuge will not run with the lid open

SMALL FOOTPRINT: Compact design uses approximately 1 square foot of counter space

AUTOMATIC LID LOCK: Centrifuge will not run with the lid open, lid cannot be opened while samples are spinning

POSITIVE LID LATCHING: Firm mechanical latching of the lid prevents the escape of debris

CLEAR SHATTER PROOF LID: Allows for safe sample observation and optical calibrations

REINFORCED GUARD BOWL: Provides maximum safety and durability

REGULATORY APPROVALS: Certified to US, Canadian, and European Safety regulations and standards

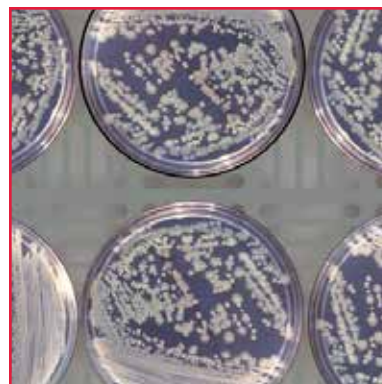

INCUBATORS

DESIGNED, ENGINEERED & ASSEMBLED IN THE USA

- Ideal for pediatric, physician, and hospital labs requiring better temperature accuracy and a small footprint
- Perfect for a variety of applications such as cultures, egg incubation, test kits, fluid bag warming and other microbiological uses
- Digital PID microprocessor controls provide better temperature stability and accuracy
- Convection heat for excellent distribution and uniformity
- LED display shows temperature in Celsius or Fahrenheit
- Anodized aluminum and stainless steel components are corrosion-resistant and easy to clean
- Visual alarm alerts when actual internal temperature exceeds programmed temperature
- **Includes:** Acrylic See-Through Door, Suction-Cupped Rubber Feet, Adjustable Stainless Steel Shelves
- **Temperature Range:** +2°C to 65°C (150°F)

LWS ICL010LD031	10L (0.35 Cubic Feet)	Each
LWS ICL020LD071	20L (0.7 Cubic Feet)	Each
LWS ICL030LD101	30L (1.1 Cubic Feet)	Each

SII SI1100

ROTO-SHAKE GENIE®

- Combines rocking and rotating in one rugged and versatile design
- Magnetic stainless steel platform and clip plate system holds a variety of container at any angle
- Magnetic strips secure bags for completely uniform soaking and washing of membrane-based blot assays
- May be used in cold rooms and incubators between 0-38°C
- Can be easily cleaned or decontaminated
- **Includes:** 1 Clip Plate Each for 10-13mm Tubes, 15-17mm Tubes & 28-30mm Tubes; (4) Magnetic Bag Mounting Strips, Non-Skid Tray

SII SI1100 Roto-Shake Genie, 120V Each

ANALOG DISRUPTOR GENIE®

- Vigorous mechanical cell disruption device
- Unique multi-directional action for simultaneous agitation or vortexing at high-speed producing greater yields in less time
- Dramatically increases the disruption efficiency of disruption beads, glass or zirconia-silica, because of the design of the sample holder
- Simply remove the Micro Tube holder and snap on the Pop-off Cup to get continuous or timed high-speed vortexing of single test tubes
- Rapid hands-free disruption of up to 12 microtubes (1.5 or 2.0mL)
- 0-15 minute auto-off timer or continuous operation
- **Includes:** Universal Microtube Holder (Excludes Tubes), Pop-Off Cup

SII SID238 Analog Disruptor Genie, 120V Each

SII SID238

TRANSFER PIPETS

- Produced from a custom grade of low-density polyethylene (LDPE) makes the pipets easy to grip with gloves
- Disposable, graduated, unbreakable tips are for liquid handling procedures and a great fit for all laboratory applications
- Draw and dispense liquids in controlled, reproducible drop sizes
- Completely disposable means no cross-contamination which is associated with reusable rubber bulbs
- Perfect substitute for breakable glass pipets, which can be a danger to laboratory personnel

TNR 0003	5mL, Graduated up to 1mL, 4mL Bulb, Total Volume: 5mL	500/Box
TNR 0007	7mL, Graduated up to 3mL, 4mL Bulb, Total Volume: 7mL	500/Box

GENERAL PURPOSE PIPET TIPS

- Manufactured in a clean room using state-of-the-art, fully automated production equipment
- Certified free from Human DNA, DNase, RNase, Pyrogens and PCR Inhibitors
- Excellent choice for all routine applications
- All tips are graduated for accurate measurements
- Universal fit design provides an airtight fit on most brands of pipettors
- Produced from medical grade virgin polypropylene (PP)
- Available non-sterile in bags, sterile or non-sterile in racks, and non-sterile in reloading stacks

DIAMOND® RV-PETTE™ PIPETTOR

The **RV-Pette™** provides accurate and reproducible, repetitive pipetting from the single filling of a disposable tip. Use of the RV-Pette™ saves time and reduces the fatigue associated with repetitive pipetting using a standard pipettor.

- Dispenses 29 different volumes between 1µL and 5000µL
- As many as 48 pipetting steps may be carried out without refilling the reservoir tip
- Samples can be dispensed at intervals as fast as 1 second without compromising accuracy or reproducibility
- Slender body fits comfortably in the natural contour of the hand
- Plunger is located on the top of the unit for easy access and reduction of hand strain

SIMPLE TO USE:

- 1) Select the appropriate tip and lock in place.
- 2) Choose the desired volume setting with the click stop adjustment dial and fill the tip with the required volume using the sliding fill lever.
- 3) Depress the plunger to dispense.
- 4) For convenience, a chart showing the volume dispensed for each tip size and dial position is located on the body of the pipette.

- **Includes:** Certificate of Calibration and 1-Year Warranty

GLO 3250 RV-Pette™ Repeat Volume Pipettor Each

DIAMOND® RV-PETTE PRO™ PIPETTOR

The **Diamond® RV-Pette Pro™** and matching RV-Pette Pro™ Dispenser Syringe Tips provide flexibility and accuracy when pipetting in series. Used in combination, the pipettor and syringe tips offer 120 dispensing volume options to meet the demands, protocols and practices for nearly all users. The lightweight ergonomic design makes the RV-PettePro™ the right choice for efficient and comfortable pipetting during repeat dispensing procedures. The pipettor is manufactured to DIN EN ISO 8655 requirements to ensure accuracy and reliability.

- **Simplicity:** One hand adjustment of tip volume and dosing volumes are clearly indicated in a vision pane on the pipettor
- **Flexibility:** Accommodates 12 tip sizes and has 10 adjustments for 120 dispensing volume options
- **Compatibility:** Designed for Diamond® RV-Pette PRO™ dispenser tips, but are also compatible with Eppendorf® Combitips®, Combitips Plus® and Combitips Advanced®
- **Reliability:** Maintenance free design requires no batteries or charging and quality materials are resistant to most chemicals

GLO 3917 RV-PettePRO™ Repeat Volume Pipettor Each

DIAMOND PRO™ PIPETTERS

The **Diamond PRO™ Pipettor** is designed with a thermo plastic elastomer grip that minimizes fatigue of hands and fingers. The unique padding not only reduces thumb stress, but also minimizes the transfer of body heat to the pipette, resulting in consistent accuracy. All Diamond Pro™ pipettors come with a certificate of calibration, a recalibration tool kit and a one year warranty. They are calibrated in an ISO 17025 facility.

- High accuracy and precision guaranteed
- Streamlined tip ejector designed for access to narrow necked containers and tubes
- Autoclavable tip cone and lower section assembly
- Ergonomic, lightweight and soft plunger movement provides added comfort and minimizes fatigue
- Two step plunger operation allows the user to perform both forward and reverse pipetting techniques
- Excellence and precision for all your liquid handling procedures
- Color-coded for easy identification

GLO 33115000	1000-5000µL, Green	Each

UNIVERSAL SAFETY PIPET FILLER BULB

- Silicone conical adapter creates a tight seal without twisting
- Pipet will never come in contact with the hard plastic so eliminating the risk of cracking and chipping
- Use the supplied elastic band for hanging on reagent bottles or wrist
- For use with standard size pipets up to 25mL in capacity

GLO 1672 Synthetic Rubber, Red/White Each

GLO 1672

FISHERBRAND™ REUSABLE GLASS SHORT-STEM FUNNELS

- Manufactured from borosilicate glass
- High resistance to chemical attack, mechanical and thermal shock
- Features heavy uniform walls, fire-polished stems and molded rims
- Formed to a 58° angle for faster, more effective filtering
- Cone is suspended by its uppermost edge, leaving area for filtration
- Designed from ASTM Specification, Type I, Class A requirements

FIS FB60158100 Bowl Capacity: 225mL 6/Pack

FIS FB60158100

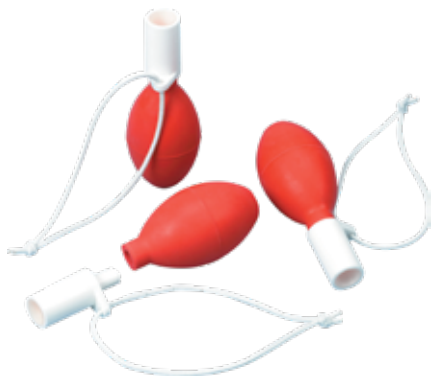

DISPOSABLE FUNNELS

- Economical, disposable funnels are available in transparent polystyrene or translucent polypropylene
- Lightweight with reinforced rims and inside fluting
- **Polypropylene:** tolerates strong acids, alkalis and organic solvents
- **Polystyrene:** suitable for aqueous solutions, weak acids and alkalis
- Heat-resistant and withstand temperatures up to 121°C
- Polypropylene funnels are autoclavable
- Tapered at a 60° angle
- **Packaged 100/Pack (25/Sleeve, 4 Sleeves/Pack)**

GLO 830X

ITEM #	FUNNEL SIZE	MATERIAL	TOP ID	HEIGHT	STEM LENGTH	STEM OPENING	FILTER PAPER
GLO 8301	55mm	Polystyrene (PS)	55mm	69mm	25mm	4.3mm	11cm
GLO 8302	65mm	Polystyrene (PS)	65mm	78mm	30mm	4.3mm	12.5cm

GLO 8304	65mm	Polypropylene (PP)	65mm	78mm	30mm	4.3mm	12.5cm

SAFETY BULB PIPET FILLER

- Features a white ABS attachment containing a silicone conical adapter that seals around pipettes without twisting
- Pipet does not contact hard plastic, which reduces the risk of cracking and chipping
- Elastic band for hanging on reagent bottle or wrist
- Filler fits standard size pipets

HEA HD20623

Red Natural Rubber

3/Pack

SHORT FORM MEASURING JUGS

- Made of high-quality, heat and chemical resistant polypropylene
- Non-drip spout and handle with thumb grips for easy pouring
- Transparent with screen printed graduations and specifications
- Autoclavable and microwavable with superior chemical durability and heat tolerance
- Designed for use in professional laboratories, but is an ideal choice for science classrooms and household use

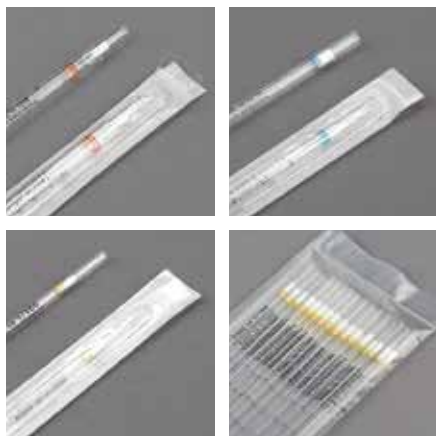

EIS CH0357A	100 x 10mL	Each
EIS CH0357B	250 x 25mL	Each
EIS CH0357C	600 x 50mL	Each
EIS CH0357D	1,000 x 50mL	Each
EIS CH0357E	2,000 x 100mL	Each

TPX PLASTIC MEASURING JUGS

- Made of TPX plastic with superior chemical durability
- Spout for easy pouring and handle with thumb grip for stability
- Excellent resistance to strong acids, alcohols and bases
- Excellent optical clarity and easy to read, screen printed graduations
- Can withstand temperatures up to 145°C
- Autoclave, microwave and dishwasher safe
- Designed for use in professional laboratories, but is an ideal choice for science classrooms and household use

EIS CH0357I	100 x 10mL	Each
EIS CH0357J	250 x 25mL	Each
EIS CH0357K	600 x 50mL	Each
EIS CH0357L	1,000 x 50mL	Each
EIS CH0357M	2,000 x 100mL	Each

PLASTIC SEROLOGICAL PIPETS

Globe Scientific's plastic serological pipettes are produced under the strictest protocols and offer the highest degree of accuracy.

Available in 1mL, 2mL, 5mL, 10mL, 25mL and 50mL sizes.

- Produced from crystal clear polystyrene (PS)
- Color-coded for easy volume identification
- DNase-free, RNase-free, Pyrogen-free and non-cytotoxic
- Calibration is certified for accuracy and calibrated to deliver
- Aerosol barrier filter plug prevents prevents both liquid and aerosols from contaminating the pipettors
- Reverse and negative graduations
- Fits all major brands of pipette controllers
- Sterilized by gamma irradiation
- Individually wrapped serological pipets are packaged in convenient dispenser boxes
- Heavy-duty corrugated carton protects pipets from damage
- Designed with anti-drip tips
- Accuracy: $\pm 2\%$ at full volume

EIS CH0589

EIS CH0590A

EIS CH0590B

WOODEN PIPET STANDS

EIS CH0589

- Wooden, polished rack holds up to 12 pipets
- Features 12 holes measuring 12mm in diameter
- Rack holds pipettes horizontally, allowing item to fully dry
- **Dimensions:** 8.75"W x 3.75"L x 8.75"H

EIS CH0590A

- Wooden, polished rack holds up to 24 serological pipets
- Features holes measuring 9mm, 12mm and 20mm in diameter to accommodate an assortment of pipette sizes
- Rack holds pipettes straight and vertical, allowing liquids to drain
- **Dimensions:** 15.5"W x 3.25"L x 16.25"H, fits in most lab spaces

EIS CH0590B

- Wooden, unpolished rack designed holds up to 12 pipets
- Features a variety of slots to accommodate an assortment of pipet sizes: (4) 20mm, (2) 14mm, (2) 12.5mm and (4) 10mm slots
- Fits pipettes with diameters ranging from 0.9 to 2 centimeters
- Rack holds pipets vertical, at a slight angle, allowing liquids to drain and pipets to dry
- **Dimensions:** 12"W x 5.75"L (when legs are extended) x 14.75"H

EIS CH0589	Holds 12 Pipets Horizontally	Each
EIS CH0590A	Holds 24 Pipets Vertically	Each
EIS CH0590B	Holds 10 Pipets Vertically	Each

SEROLOGICAL PIPETS

- Bi-directional (positive and negative) graduations are printed in bold easy-to-read ink
- Premium material barrier plug
- Color-coded stripes enable quick volume identification
- Printed indicator arrow for quickly locating negative graduations when using a pipet controller
- 25 and 50mL pipets feature an anti-drip tip for accurate delivery

STERILE, INDIVIDUALLY WRAPPED

SELF VENTING WASH BOTTLES

- Made of low density polyethylene (LDPE) for superior quality and strength
- Printed with Innovative Flex Ink that won't fade, crack or peel
- Easy filling with wide mouth and a color-coded screw cap for easy identification
- Each bottle is color-coded to prevent cross contamination
- Self venting design eliminates leaks and dripping
- White opaque bottle protects contents from light
- Plastic is very responsive with smooth bounce back that won't get stiff over time
- Easy to control squeeze for dispensing
- Each bottle is labelled with easy-to-read chemical information as well as hazard, safety, and first aid precautionary statements

2-COLOR WASH BOTTLES

SAFETY LABELED, WIDE-MOUTH

- Translucent, low-density polyethylene (LDPE) solvent-resistant wash bottles feature color-coded polypropylene closures for easy identification
- Wide mouth (53mm / 2") for easy refilling

- Imprinted with Department of Transportation (DOT) and National Fire Protection Association (NFPA) codes and symbols, Chemical Abstract Service (CAS) number, protective equipment symbols and target organ information, making your workplace a safer place
- Compliant with OSHA requirements outlined in Hazard Communication Standard 29 CFR 1910.1200

RECTANGULAR CARBOYS (HDPE)

- Store, mix and dispense bulk quantities of liquids, solvents and cleaning solutions in four available sizes
- Standardized industrial packaging design can be used in industrial packaging or in everyday laboratory practices
- Features comfortable handles and tamper evident, secure seal caps
- Conform to UN regulations on transportation of dangerous liquids (5, 10 and 20 liter sizes only)

GLO 601780	2L (0.5 GL)	48/Case
GLO 601781	5L (1.3 GL)	30/Case

PARAFILM® WRAPPING FILM

- Minimal moisture loss and offers excellent barrier protection
- Thermoplastic flexible plastic for a variety of clinical applications
- Waterproof, moisture-proof film prevents sample evaporation and contamination while protecting anhydrous materials
- Fold repeatedly and twist around sharp surface without rupturing
- Increases approximately 200% when stretched lengthwise at 70°F
- Partially returns to original length when tension is removed
- Becomes more flexible and softer as temperature increases
- Ideal for working with culture media
- Rolls are interlined with paper to prevent adhering
- Packaged in cardboard dispensing cartons

FIS 1337416	PM992, 2" (5cm) x 250 ft	Roll
FIS 1337410	PM996, 4" (10cm) x 125 ft	Roll
FIS 1337412	PM999, 4" (10cm) x 250 ft	Roll

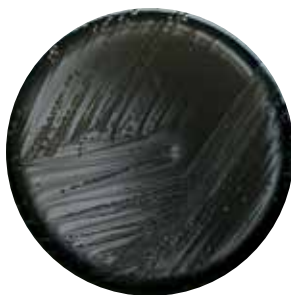

MICROBIOLOGY

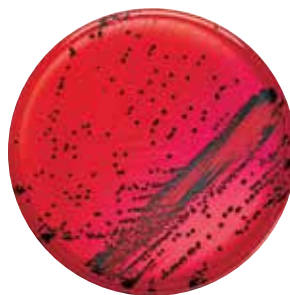

Mercedes Scientific offers **BD® BBL™ Prepared Plated Media** of the superior quality and performance to microbiology laboratories. This extensive range of proprietary formulations help customers more effectively differentiate and isolate microorganisms from samples or specimens. Ready for immediate use, items are routinely available in several types of petri-style dishes, containing a variety of media.

- Enrichment/Nonselective
- Anaerobe/Mycology/Mycobacteriology
- Selective/Differential Media
- Susceptibility Media

GRAVITY CONVECTION OVENS

- Used for part drying, baking, curing, sterilizing, evaporating, heat treating, annealing and testing
- Models have temperature range to 232°C (450°F)
- Heavy steel double-wall construction and scratch-resistant hammer finish create a durable, compact design
- Corrosion-resistant aluminized interior while exterior insulates workspace with one inch of high-density mineral wool
- Control panel is equipped with an illuminated ON-OFF rocker switch and a heat/cycle pilot light
- Automatic hydraulic or a bi-metal thermostat controls temperature
- Perforated heat shield greatly improves temperature uniformity by absorbing radiant heat and distributing it more evenly
- Energy-efficient, low-watt density incoloy sheathed elements are engineered for quick run-up and recovery times

SIM D21018A

SIM D21018B

ABSORBENT PAD PETRI DISHES

- Made of polystyrene, and sterile
- Ideal for culturing micro-organisms on agar or broth-based media
- Designed to accommodate 47mm diameter membrane filters
- Stackable with squared off edges on both the top and bottom providing convenient grips for one-handed opening
- Snug-fitting top ensures that neither the absorbent pad nor the agar media will dry out during incubation
- Frosted area on top of the lid permits labeling

SIM D21018A	50 x 9mm, With Pads	500/Case
SIM D21018B	50 x 9mm, No Pads	500/Case

SIM D21016

SQUARE PETRI DISH

WITH GRID

- Made of polystyrene, free from optical distortion, and sterile
- Each 13mm grid is marked numerically in one direction and alphabetically in the other direction
- Ideal for phage typing, susceptibility testing, plate counts, and probe assays
- Four venting ribs in the underside of the lid prevent condensation build-up
- Commonly referred to as a 100 mm x 15 mm dish but actual dimensions are 90 mm x 15 mm

SIM D21016	90 x 15mm (110mL)	500/Case
-------------------	-------------------	----------

SIM D21017

SIM D21017D

CONTACT PLATES

- Made of polystyrene, free from optical distortion, and sterile
- 10x10mm grid with numbered and lettered squares facilitates counting and locates colonies
- **D21017D**: convex bottom saves on culture medium

SIM D21017	60 x 15mm, Flat Bottom	500/Case
SIM D21017D	60 x 15mm, Convex Bottom	500/Case

STERILE PETRI DISHES

- For use in routine procedures and with automated equipment
- Economical, optically clear dishes are precision-molded from biomedical grade polystyrene so cultures are clearly visible without distortion
- Packaged in heavy-wall polyethylene sleeves
- Not for tissue culture application

SIM D2107WL

SIM D21014

SIM D2108

D2107: Commonly referred to as a 100 x 20 mm dish for unimpaird observation of specimen growth with raised straight ridge around top for stable stacking

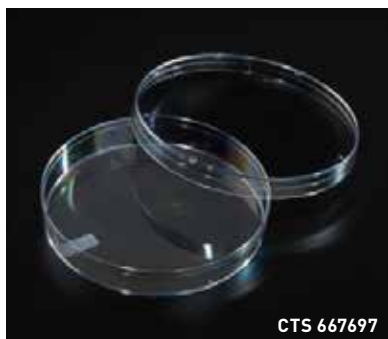

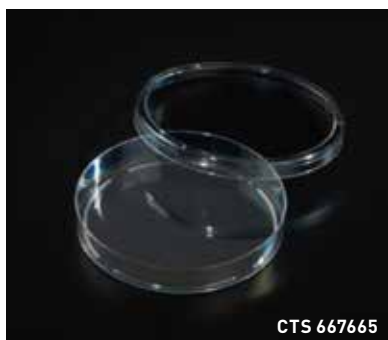

D2107WL: Commonly referred to as a 100 x 20 mm dish; three venting ribs into the underside of the lid to prevent condensation build-up

D2108: Commonly referred to as a 100 x 25 mm dish; accommodates deeper fills for longer culture periods; used for fungal cultures, plant propagation; three venting ribs into the underside of the lid to prevent condensation build-up

D2108R: Commonly referred to as a 100 x 25 mm dish; similar to SIM D2108 but with a non-vented lid and with a raised straight ridge around top for stable stacking

D21014: Commonly referred to as a 50 x 9 mm dish; box type dish for classroom studies, water studies, culturing of mycobacteria, aerosol testing, membrane filter and immunodiffusion techniques; tight lid prevents sample dehydration

SIM D2107	90 x 20mm, 100mL, Lid	500/Case
SIM D2107WL	90 x 20mm, 100mL, Vent Lid	500/Case
SIM D2108R	90 x 25mm, 125mL, Lid	500/Case
SIM D2108	90 x 25mm, 125mL, Vent Lid	500/Case
SIM D21014	50 x 9mm, 12mL	500/Case

PETRI DISHES

STERILE STANDARD PETRI DISHES

- Manufactured in high capacity automated production lines resulting in high quality, value priced products
- Ventilation ribs reduce condensation and permit air circulation
- Consistent flatness allows for even media distribution
- **Slideable Dishes:** Partial edge ring on base allows a single dish to be slid from a large stack enhancing stability when stacked
- **Stackable Dishes:** Lids contain stacking rings for increased stability
- **Slippable Dishes:** Designed for automated filling and streaking systems, features side arrows and ISO Mark Target for automation

MER 667665	60mm x 15mm	500/Case
MER 667694	100mm x 15mm, Slideable	500/Case
CTS 667695	100mm x 15mm, Stackable	500/Case
CTS 667697	100mm x 15mm, Slippable	500/Case

STERILE COMPARTMENT PETRI DISHES

- For simultaneous studies of organisms in a common environment
- Molded dividers create completely separate compartments while also allowing airflow
- Ridge on bottom dish allows easy handling and stacking
- Lids contain molded spacers to allow gas exchange

CTS 667682	100 x 15mm, 2 Compartments	500/Case
CTS 667683	100 x 15mm, 3 Compartments	500/Case
CTS 667684	100 x 15mm, 4 Compartments	500/Case

INOCULATION LOOPS

POLYSTYRENE, RIGID

- Strong, rigid feel provides comfortable, stable and uniform streaking
- ALL loops are sterilized by gamma radiation
- Enclosed in peel-apart packages or individually wrapped
- Available in 1 μ L, 10 μ L or 10/1 μ L configurations
- Each case includes a Certificate of Calibration

GLO 2810	10 μ L & 1 μ L Combo, Sterile, White, 20/Pack, 25 Pack/Case	500/Case
GLO 2811	1 μ L w/Needle, Sterile, Blue, 20/Pack, 25 Pack/Case	500/Case
GLO 2815	10 μ L w/Needle, Sterile, Yellow, 20/Pack, 25 Pack/Case	500/Case
GLO 2850	10 μ L & 1 μ L Combo, Sterile, White, Individually Wrapped	500/Case
GLO 2851	1 μ L w/Needle, Sterile, Blue, Individually Wrapped	500/Case
GLO 2855	10 μ L w/Needle, Sterile, Yellow, Individually Wrapped	500/Case
GLO 2860	10 μ L & 1 μ L Combo, Sterile, White, 10/Pack, 50 Pack/Case	500/Case
GLO 2861	1 μ L w/Needle, Sterile, Blue, 10/Pack, 50 Pack/Case	500/Case
GLO 2865	10 μ L w/Needle, Sterile, Yellow, 10/Pack, 50 Pack/Case	500/Case

POLYPROPYLENE, FLEXIBLE

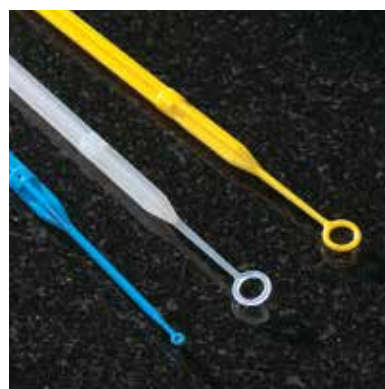

- Loop and needle ends are more bendable than "rigid" loops
- Smooth and flexible to facilitate uniform streaking of culture media
- ETO sterilized and packed 20 loops per peel-pack

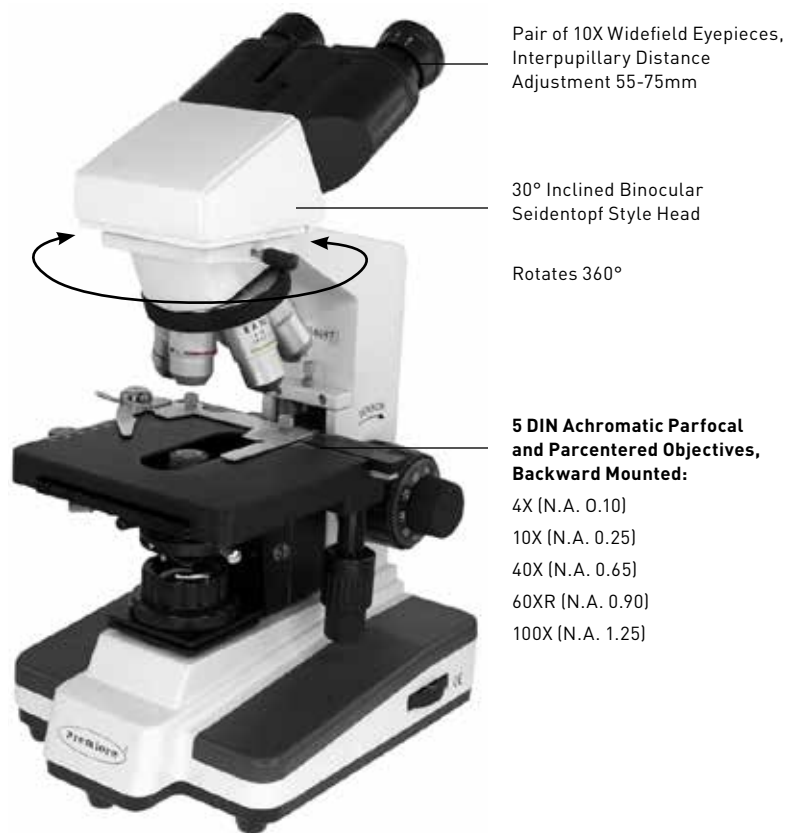

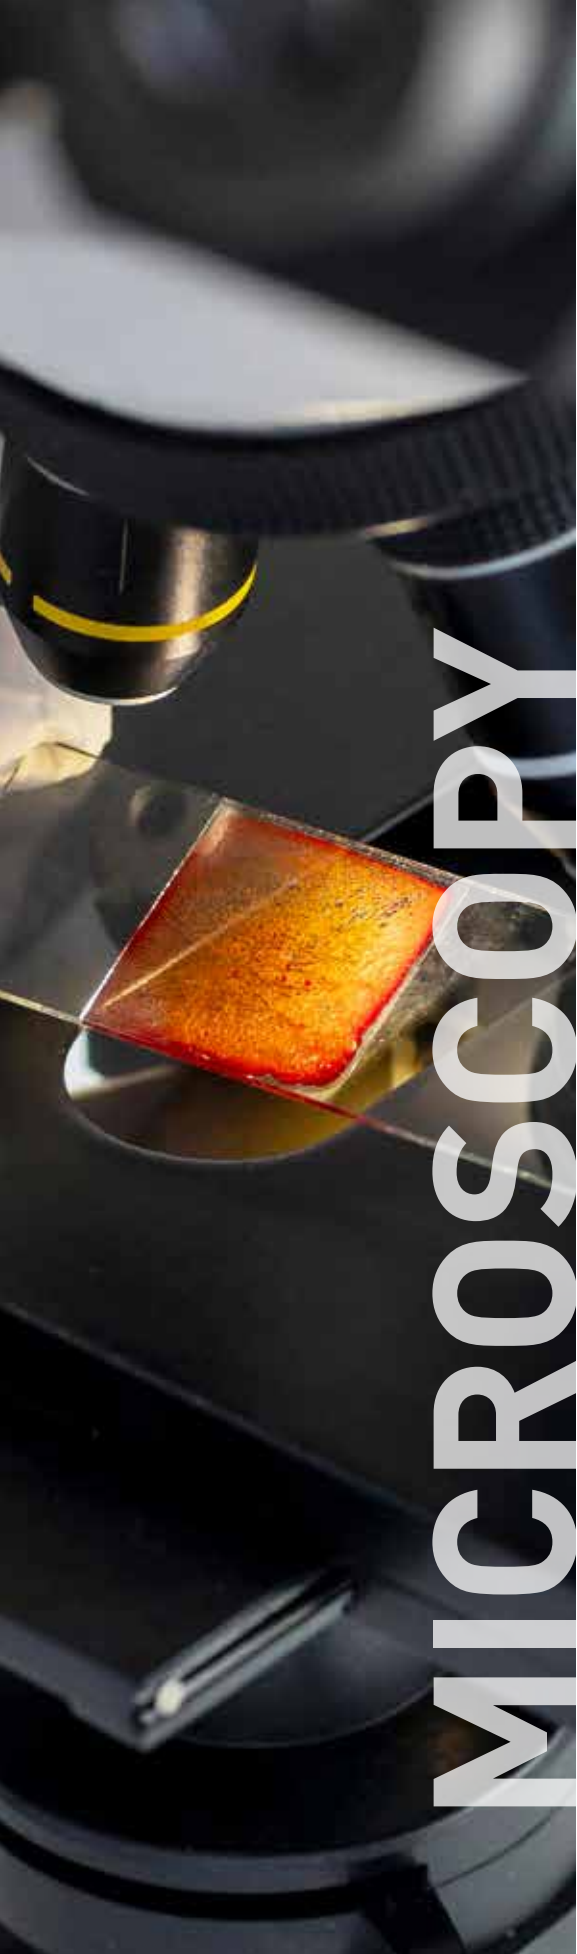

GLO 2801	1 μ L w/Needle, Natural, Sterile	1,000/Case
GLO 2805	10 μ L w/Needle, Blue, Sterile	1,000/Case

INOCULATING LOOPS (STERILE)

- Flexible for easy access to small volume tubes and dishes
- Color-coded for easy identification
- Gentle on delicate agar or other surfaces

CTS 229610	10 μ L, Blue, Bulk Pack	2,000/Case
CTS 229612	10 μ L, Blue, Individual Pack	600/Case

PROFESSIONAL MICROSCOPE

- For extensive lab use in today's clinical and research setting
- 5 objectives with interchangeable condenser system applies to bright/dark field, phase contrast and polarized light techniques
- Lower position of mechanical stage knob offers comfort for extended use
- 5 DIN Achromatic Parfocal and Parcentered Objectives, Backward Mounted: 4X (N.A. 0.10), 10X (N.A. 0.25), 40X (N.A. 0.65), 60XR (N.A. 0.90), 100X (N.A. 1.25)
- **MAGNIFICATIONS: 40X TO 1000X**
- Focusing stop to prevent objectives and slides from damage
- 140mm x 135mm graduated mechanical stage (range of travel 40mm x 80mm) with lower knobs of coaxial drive
- Spring loaded slide holder
- Abbe condenser NA 1.25 with rack and pinion adjustment
- Iris diaphragm with blue filter
- Field diaphragm offers more light control
- Coaxial coarse and fine focusing tension controls
- **Includes:** Detachable (UL Approved) Power Cord, Spare Bulb, Fuse, Immersion Oil, Vinyl Dust Cover and Rubber Eyeguards

EKI 605380Z 8oz Gram Stain Kit Bottles Kit

EKI 7164125ML

EKI 4815125ML

METHYLENE BLUE SOLUTION

1% W/V IN ALCOHOL

- Stain blood films and smears used in cytology, RNA or DNA for viewing under the microscope or on hybridization membranes

EKI 7164125ML Methylene Blue Solution 125mL

IMMERSION OIL

- For use with immersion objectives between the specimen and microscope lens to eliminate light deflection and interferences
- Clear, colorless and safe to use with valuable optics equipment

EKI 4815125ML Type A, Low Viscosity 12 125mL

EKI 4815500ML Type A, Low Viscosity 5 500mL

HEMACYTOMETER

- Specially designed for counting erythrocytes and leukocytes
- Double rulings are visible through a wide range of illumination
- Fused rhodium on glass provides distinct lines
- Neubauer rulings are 0.1mm below cover glass
- H-shaped moat offers two counting areas
- Features high light transmission, brightly illuminated line and two special counting chamber cover glasses

LWS CTLHEMMGLDR Hemacytometer Each

OPTICAL LENS PAPER

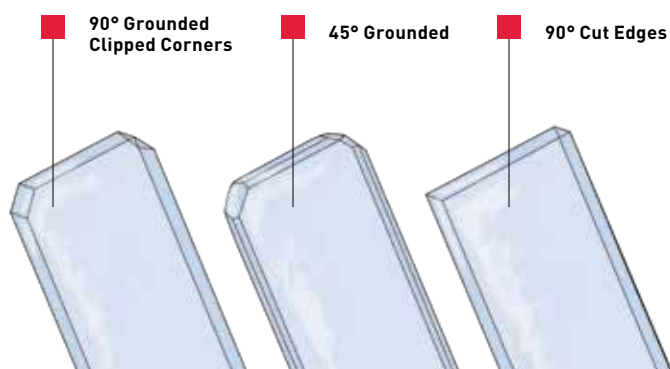

- Suitable for cleaning glass lenses on cameras, microscopes and other optical instruments
- Lint-free sheets are glued and bound in a booklet for easy removal
- Soft, silk-like paper does not collect dust or become greasy

CAS 5220 4" x 6", 50-Sheet Booklet 25/Pack

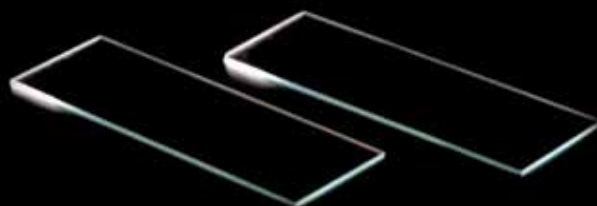

MICROSCOPE SLIDES

- Pathological and cytological applications in diagnostics and biological-medical research of cells and tissues
- Imported from one of the finest glass manufacturing facilities in Germany, **Knittel™**
- Exceptional clarity and cleanliness
- Packaged in thick foil or “tropical packaging” to protect from humidity even in very warm climates
- Slides are packaged **72 per box, 20 boxes per case, 10 gross per case (1,440 slides)** unless noted

COVERGLASS

- Manufactured of a water-white colorless borosilicate glass resulting in an optimum hydrolytic resistance
- Performs exceptionally well on automated glass coverslippers and is Leica® recommended
- Very fine glass particles powder the surface to prevent sticking
- **Thickness: #1 = 0.13-0.17mm, #1.5 = 0.16-0.19mm**

ROUND

DIFF-SAFE® BLOOD DISPENSER

- Eliminates the need to remove the stopper from a tube of blood when making a smear
- Timely answer to heightened concerns about the release of airborne pathogens in the hematology lab
- Cannula inserts easily through a blood tube's rubber stopper, press onto slide to release a consistent blood drop every time
- Elimination of sticks or transfer pipets saves time and money
- Eliminate the use of messy sticks which are no longer needed in the numerous labs using clot-detecting cell counters
- Compatible with BD Vacutainer® tubes with Hemogard™ closures

ALP D101	Diff-Safe® Blood Dispenser	1,000/Box
-----------------	----------------------------	-----------

PLASTIC 5-PLACE SLIDE MAILERS

- Ideal for secure shipping, storing, or staining slides
- Disposable, polypropylene containers hold five standard slides
- Inside wall features slotted channels to keep slides separated and to make removal easier
- Lid closes securely to keep slides safe
- Assorted Colors: Red, Yellow, Blue, Purple, Orange

HEA HD15982	Side Opening, Natural	25/Pack
HEA HD15986	End Opening, Natural	25/Pack
HEA HD15983G	End Opening, Assorted	25/Pack

SINGLE DISPENSING WITH ONE STROKE OF LEVER

STAINLESS STEEL SLIDE DISPENSER

- Holds up to 54 standard 3" x 1" microscope slides
- Sterilizable, stainless steel benchtop model
- Adjustable to accommodate slides of different thickness
- Rubber cushion bottom prevents scratching and slipping
- Protects slides from dust and cross-contamination

BLK 1415	Stainless Steel, 3"W x 5"D x 4"H	Each
-----------------	----------------------------------	------

CARDBOARD SLIDE STORAGE

The cardboard slide folders offer a convenient solution for safely working, transporting and short-term storing of slides.

- Easily organize slides with the index on the front cover that corresponds with the number grid inside
- Recessed compartments and inside covers protect specimens
- Front protection flaps are attached with durable tape for repeated use, slides cannot be touched when the cover is closed to reduce contamination
- Flaps fold flat under the slide holder to save space when in use
- Thumb cut in slide compartments enables easy removal of slides with slight pressure at one end
- Compartment holder is made from a double layer of densely pressed cardboard while cover is a single layer cardboard
- Multiple colors for increased coding and organization

BD® ECLIPSE™ NEEDLES

- Leading brand of hypodermic needle technology in the U.S.
- Bevel-oriented needle facilitates low-angle injections
- Pivoting-shield needle for increased safety during activation
- Single finger stroke activation: no hard surface required
- Wide-textured finger pad provides a safe activation area for the thumb and forefinger
- Safety cover is designed to protect healthcare workers from accidental needlestick injuries
- Audible click indicates safety activation
- Needle remains locked inside activated cover
- Requires minimal change in injection technique
- Standard, color-coded hub fits all Luer-Lock syringes
- BD PrecisionGlide™ technology designed for patient comfort

PRA P250600

BULB IRRIGATION SYRINGES

- Contoured finger grips and pliable bulb with textured surface provide stable grip and allow maximum control of drawn or expelled fluids
- Clear and easy-to-read graduations are in 5cc (mL) increments
- Sterile, packaged in poly pouch and latex-free

PRA P250600 60cc, Bulb Irrigation Syringe, Catheter Tip, Tip Protector 50/Case

PRA P250610

PRA P250615

PISTON IRRIGATION SYRINGES

- Ideal for carefully irrigating feeding tubes and adding liquid medication to existing gastrostomy tubes
- Finger rests help provide control
- Precision crafted rubber O-ring ensures a positive seal every time the syringe is drawn
- 60cc capacity barrel with graduations in oz and cc
- Comes with small tip adapter and tip protector
- Packaged in a resealable IV pole bag and latex-free

PRA P250610 60cc, Piston Irrigation Syringe, Flat Top, Catheter Tip 30/Case

PRA P250615 60cc, Piston Irrigation Syringe, Thumb Ring, Catheter Tip 30/Case

SECURETOUCH® SYRINGE/NEEDLE

COMBO LUER-LOCK TIP, 3ML

- Sterile, non-toxic, non-pyrogenic, latex-free
- One-handed, simple finger stroke activation
- Protective arm keeps fingers behind the needle
- Audible “click” as well as tactile feel and a visual indicator confirm safety mechanism engagement
- Needle remains locked inside activated cover
- Safety shield can be pushed back comparative to the needle allowing a clear view of the injection site

BLUWING® BUTTERFLIES

SAFETY BLOOD COLLECTION SET WITH LUER ADAPTER

- High quality blood collection processing and control
- Provides easy access to the peripheral vascular system
- **STERILIZED WITH ETHYLENE OXIDE**
- Small, semi-hard, reliable safety house for holding the cannula sharp point and adding comfort to patients
- Sharper needle for easier handling
- **SINGLE USE ONLY:** retraction system prevents reuse
- Soft, flexible and kink-resistant elastic 12" tubing
- Lock needle by drawing back the tube after use by one hand
- **NON-TOXIC & NON-PYROGENIC**

MER 1921	21G x 3/4", Green	50/Box
MER 1923	23G x 3/4", Blue	50/Box
MER 1925	25G x 3/4", Orange	50/Box

BLUWING® ADVANCED BUTTERFLIES

MULTI-SAMPLE BLOOD COLLECTION SET WITH LUER ADAPTER

- Needle for blood drawing with luer adapter for vacuum test tubes
- **SINGLE USE ONLY, DO NOT RESTERILIZE**
- Sterile, **NON-TOXIC & NON-PYROGENIC**
- Use immediately after removal of protective cap
- Does not contain natural rubber latex

MER 2021	21G x 3/4", Green	50/Box
MER 2023	23G x 3/4", Blue	50/Box
MER 2025	25G x 3/4", Orange	50/Box

BD VACUTAINER® ECLIPSE™

- Safety-engineered, multi-sample blood collection needle collects blood easily while reducing the possibility of needlestick injuries
- Safety shield allows for one-handed activation to cover the needle immediately upon withdrawal from the vein and confirms proper activation with an audible click
- Textured thumb pad allows for easy, single-handed activation immediately after exiting the venipuncture site
- Always positioned bevel-up toward the safety shield, eliminating the need to reposition the bevel orientation

BEC 368607	21G x 1.25" Needle	48/Box
BEC 368608	22G x 1.25" Needle	48/Box

BD VACUTAINER® ONE-USE HOLDER

- **Compatible with the BD Vacutainer® Blood Collection System:**
 - BD Vacutainer® Eclipse™ Blood Collection Needles
 - BD Vacutainer® Safety-Lok™ Blood Collection Sets
 - BD Vacutainer® Push Button Blood Collection Sets
 - BD Vacutainer® Multiple Sample Luer Adapters

BEC 364815	One-Use Holder	1,000/Case
-------------------	----------------	------------

BD VACUTAINER® BLOOD TRANSFER DEVICE

The use of a needle to transfer venous blood from a syringe to a blood collection tube or blood culture bottle is both a dangerous procedure and an OSHA-prohibited practice. The BD Vacutainer® Blood Transfer Device was designed with healthcare workers' safety in mind.

- Single-use device reduces the risk of transfer-related injuries
- Maintains specimen integrity required for accurate disease diagnosis

BEC 36488000	Blood Transfer Device	200/Case
---------------------	-----------------------	----------

SAFETY BLOOD COLLECTION SETS + LUER ADAPTER

The **Safety Blood Collection Set** was developed especially for patients with difficult vein conditions, but is also suitable for any other blood collection situation, as it offers the patient a gentle collection comfort. This version of the SBC set has a Luer adapter and can be used with a holder such as our standard tube holder or blood culture holder.

- Sterile winged needle intended for single use is connected to flexible 12" tubing with a luer adapter
- High level of safety by manually activating the protective mechanism while the needle is still inside the vein
- Correct activation by the user is indicated by a clearly audible click
- Provides the best possible protection against needlestick injuries
- Visual control of the puncture through a transparent viewing window also increases the puncture safety
- Can be used for blood collection or for infusions for up to five hours
- Ergonomically and individually packed, making it easy to open and causing little waste
- Viewing window between the needle and the tube shows whether the puncture was successful
- Simple activation of the safety mechanism

GRE 450095	21G x 3/4", Green	50/Box
GRE 450096	23G x 3/4", Blue	50/Box
GRE 450099	25G x 3/4", Orange	50/Box

SAF-T WING® BLOOD COLLECTION & INFUSION SET

- Handles delicate venous blood draws, utilizing a safety feature activated with a simple one-handed or two-handed technique
- Clamp minimizes blood leakage from tubing upon disposal
- Saf-T Holder® device comes with the back-end needle and luer permanently attached to the holder to reduce potential exposures and holder re-use, compliant with OSHA directives
- Saf-T Holder® device with permanently attached back-end needle and Luer lock for end-to-end safety
- Optional slide clamp helps switch from tube draw to syringe draw

POR 982112	21G x 3/4", 12" Tubing	50/Box

POR 982512	25G x 3/4", 12" Tubing	50/Box

BD VACUTAINER® SAFETY-LOK™ SAFETY BLOOD COLLECTION SETS

- Safety mechanism can be activated immediately after blood draw and reduce needlestick injuries to patients or hospital personnel
- Slim, easy-to-handle design enhances control and flexibility
- Blood flashback is seen clearly through translucent shield
- Minimized coiling of tubing facilitates handling
- Large wing size permits improved positioning during use
- Protective shield is designed to help your institution meet current federal OSHA safety standards for engineering controls

WINGED BLOOD COLLECTION SETS

- Latex-free for patients, practitioners and end-users
- Superior needle sharpness

K-SHIELD ADVANTAGE® SAFETY WINGED

- Provides a safe collection environment for clinicians and patients
- Fast and simple one-step activation with an "audible" click
- Integrated safety device eliminates extra steps for disposal
- Needle point is immediately covered upon removal from venipuncture site to ensure confidence in safety

KAW DBMA21G	21G x 3/4", Green	50/Box
KAW DBMA23G	23G x 3/4", Light Blue	50/Box
KAW DBMA25G	25G x 3/4", Dark Blue	50/Box

STANDARD WINGED

- Low cost winged collection set with multiple sample luer adapter
- Self-sealing synthetic needle sheath
- Flexible wings with textured surface for secure grip
- Easy-grip hub fits tube holders with anti-stick devices

KAW DBM121G	21G x 3/4", Green	50/Box

JELCO® MULTI-SAMPLE BLOOD COLLECTION NEEDLES

- Compatible with Venipuncture Needle-Pro® Safety Devices
- Color-coded caps and hubs to rapidly identify needle gauge size
- Available in 20g, 21g, and 22g in lengths 1" and 1.5"

POR 80201	20G x 1", Yellow	100/Box
POR 80205	20G x 1.5", Yellow	100/Box
POR 80211	21G x 1", Green	100/Box
POR 80215	21G x 1.5", Green	100/Box
POR 80221	22G x 1", Black	100/Box
POR 80225	22G x 1.5", Black	100/Box

MULTIPLE USE DRAWING NEEDLES

- Primarily used for routine blood collection (sterile, single-use)
- Needle shield is colour-coded to simplify visual recognition of the individual needle gauges
- Made from stainless steel and fitted with a safety valve at one end
- Perforated label not only serves to simplify identification, but also acts as a seal of integrity

GRE 450047	18G x 1", Pink	100/Box
GRE 450071	22G x 1", Black	100/Box

GRE 450075	22G x 1½", Black	100/Box
GRE 450076	21G x 1½", Green	100/Box

QUICK RELEASE NEEDLE HOLDER

- Multi-use blood collection tube holder features an innovative quick-release mechanism to safely remove contaminated sharps
- May be used with standard blood collection devices
- Internal blunting technology which is integral to the needle itself
- Recommended for up to 100 uses and offers significant savings over single use disposable blood collection tube holders
- Blunts while in the patient's vein, eliminating exposure during the first few critical moments
- Push button to release needle for disposal

CME 4550	Quick Release Needle Holder	50/Box
-----------------	-----------------------------	--------

VENIPUNCTURE NEEDLE-PRO®

- Safety device is designed to protect clinicians from exposure to contaminated blood collection needles
- Holder-based safety device provides protection on both ends, minimizes back-end exposures by preventing needle removal, and prevents holder re-use, compliant with OSHA directives
- Meets NIOSH/CDC recommendations for safety devices
 - The safety feature is an integral part of the device.
 - The safety feature engages with a single-handed technique.
 - The clinician's hands and fingers remain behind the exposed sharp at all times.
 - The clinician can easily tell whether the safety feature is activated.
 - The needle is securely locked inside the safety device and remains protective through disposal.
- Safety device engages the blood draw needle upon activation
- Compatible with Jelco® blood collection needles

VACUETTE® BLOOD COLLECTION TUBES

The innovative **VACUETTE® Blood Collection Tubes** made out of virtually unbreakable PET plastic have set the standard on today's market. They provide improved safety and hygiene during specimen collection procedures with the advantage of being as clear as glass. Most **VACUETTE® Blood Collection Tubes** contain chemical additives which, in combination with the precisely coordinated vacuum, guarantee the correct mixing ratio to the drawn blood.

- Packaged 50/Rack, 1200/Case

THERASAFE™

- Considered the only FDA approved device specifically designed for Therapeutic Phlebotomy procedures
- Therapeutic phlebotomy sets designed for convenience and safety during therapeutic phlebotomy procedures
- Passive needle protective device is activated prior to removal, safely improving patient comfort and eliminating needlesticks
- Reflux valve inside phlebotomy collection bag lowers risk of air being transferred up patient's access line
- Built-in split septum neutral valve for either sampling or infusion
- Large graduations make the volume levels easy to read
- Phlebotomy bag conveniently placed on a custom stand to establish an easy visual of the collection volume during the entire procedure
- Stand improves the aesthetic method of supporting the bag

CME CMPH17X1B	Phlebotomy Bag, 500mL, 17G x 1" Safety Needle with Needleless Y-Adaptor	50/Box
CME CMPH17X1BH	Phlebotomy Bag, 500mL, 17G x 1" Safety Needle, Blood Collection Tube Holder with Needleless Y-Adaptor	50/Box
CME FS172530BC	Safety Needle, Fixed Wing, Female Luer Lock, 17G x 1"	50/Box
CME CMPH1	Phlebotomy Bag Stand, Stainless Steel, 7"W x 10"H	Each

BD VACUTAINER® STRETCH LATEX-FREE TOURNIQUET

- Reduces the danger of blood cross-contamination
- Safeguards patients or users from potentially dangerous allergens
- Compact shape fits conveniently on phlebotomy tray
- Perforated design allows for easy, one-at-a-time dispensing that facilitates a single-use policy

BEC 367203 Stretch Latex-Free Tourniquet 25/Box

TEC 4408

TOURNIQUETS

- Elastic straps used to help restrict blood flow
- Disposable to reduce cross contamination and infections between patients and healthcare providers
- Tear resistant, non-sterile, textured for non-slip performance
- Easily tied and untied, individually rolled and banded

PRA P929900 1" x 18", White, Non-Latex 100/Bag

LATEX

- 100% natural latex used for constricting or compression
- Low powder content, high tensile and tear strength

NON-LATEX

- Used for constricting or compression
- Feels like latex, hypoallergenic and superior strength

TEC 4408 1" x 18", Blue, Non-Latex 500/Case

TEC 4409 1" x 18", White, Latex 100/Box

ACCU-CHEK® SAFE-T-PRO™ LANCETS

- 3 adjustable depth settings (1.3, 1.8 and 2.3 millimeters) allow the sampling of blood according to the skin condition of the patient
- Each depth setting clicks into place and cannot slip out of position once selected
- Use with adults, children under 1 year and neonates
- Safe-T-technology ensures that the needle is always safely stored in the housing, preventing accidental needle sticks
- Automatic needle retraction after single use eliminates risk of injury and cross contamination

ROC 951 23G x 1.8mm, T-Shape 200/Box

ADHESIVE BANDAGES

- Long lasting adhesive for **ALL** plastic, sheer and fabric options
- Stick free pad's island-design seals out contaminants while also cushioning and protecting wounds
- Contour well to the body adding comfort while also staying safe

3M™ SURGICAL TAPE

MICROPORE™

- Hypoallergenic paper tape is gentle to the skin yet adheres well and leaves minimal adhesive residue upon removal
- Highly breathable, conformable, and latex-free
- Reliably secures small to medium dressings and devices especially on damp skin, lightweight tubing, and ostomy appliances

THR 15300	0.5" x 10yds, White	24/Box
THR 15301	1" x 10yds, White	12/Box
THR 15302	2" x 10yds, White	6/Box
THR 15303	3" x 10yds, White	4/Box

TRANSPORE™

- Clear, porous, plastic tape tears easily and works reliably
- Transparent, perforated, water-resistant and latex-free
- Easy, straight, bi-directional tear and easy to handle with gloves
- Secures tubing and devices (catheters, I.V. tubing), anchors bulky dressings, and used when tape width must be customized

THR 15271	1" x 10yds, White	12/Box
THR 15272	2" x 10yds, White	6/Box
THR 15273	3" x 10yds, White	4/Box

DURAPORE™

- Durable, no-stretch silk-like cloth tape adheres well to dry skin
- High strength, versatile and conformable
- Convenient bi-directional tear allows easy tailoring
- Hypoallergenic and not made with natural rubber latex
- Perfect for securing tubing and devices, anchoring bulky dressings, immobilizing fingers and toes, and stabilizing small splints

THR 15381	1" x 10yds, White	12/Box
THR 15382	2" x 10yds, White	6/Box
THR 15383	3" x 10yds, White	4/Box

SURGICAL TAPE

PAPER TAPE

- General purpose tape perfect for fragile skin
- Ideal for securing tubing, ostomy pouches and facial dressings
- Tears easily for convenient application
- Highly porous for maximum breathability and latex-free

PRA P151005	0.5" x 10yds	24/Box
PRA P151010	1" x 10yds	12/Box
PRA P151020	2" x 10yds	6/Box
PRA P151030	3" x 10yds	4/Box

PAPER

TRANSPARENT TAPE

- Ideal for securing I.V. tubing and catheters, primary wound dressings, tubing and drainage lines
- Micro perforation allows for bidirectional tearing and stretching
- Highly porous for breathability, water-resistant and latex-free
- Easy to tear and stretch

PRA P152005	0.5" x 10yds	24/Box
PRA P152010	1" x 10yds	12/Box
PRA P152020	2" x 10yds	6/Box
PRA P152030	3" x 10yds	4/Box

TRANSPARENT

CLOTH TAPE

- Strong woven construction makes this durable tape ideal for securing wound dressings, tubing and drainage lines
- Tears easily for convenient application
- Moderate stretching ability accommodates movement and swelling
- Breathable and latex-free

POINT-OF-CARE

TANNER SCIENTIFIC® HCG

PREGNANCY URINE/SERUM COMBO TEST

- Rapid chromatographic immunoassay for the visual, qualitative detection of human chorionic gonadotropin (hCG) in serum or urine specimen to help in the early determination of pregnancy
- **URINE RESULTS IN 3 MINUTES, SERUM RESULTS IN 5 MINUTES**
- Utilizes monoclonal antibody reagents to detect selective elevated hCG levels in serum or urine specimen at 20mIU/mL sensitivity
- Immunological specificity virtually eliminates cross reactivity interference from the structurally related glycoprotein hormones hFSH, LH and hTSG at psychological levels

TNR HCGCOMBO

hCG Urine/Serum Combo Test

50/Box

TANNER SCIENTIFIC® IFOB

IMMUNOCHEMICAL FECAL OCCULT BLOOD TEST

- Chromatographic immunoassay for the qualitative detection of human occult blood in fecal specimens
- Aids in the diagnosis of gastrointestinal disorders such as: diverticulitis, colitis, polyps, and colorectal cancer
- **RESULTS IN 5-10 MINUTES**
- No need to send fecal samples to the laboratory
- Accuracy of the test is not affected by the diet of the patients unlike the traditional guaiac-based methods
- Suitable for use in laboratories, hospitals, private practices and physician's offices as well as for home use
- **KIT INCLUDES:** 36 Test Cassettes, 36 Buffer Tubes

TNR IFOB36

iFOB One-Step Rapid Test

36/Box

URICULT® URINE CULTURE SYSTEM

THE PREFERRED IN-OFFICE URINE CULTURE SYSTEM

- Culture based dipslide method for the diagnosis of urinary tract infections (UTI) by detecting microbes in urine samples
- Can be performed at the point of care, or the slides can be used as convenient transport media for cultured samples
- **Simple Procedure: Dip - Incubate - Read Results**
- Quick and convenient result within 24 hours
- Simple CLIA compliance for reporting colony count

LIX 1000	CLED/EMB	10/Kit
LIX 1002	CLED-Polymyxin/EMB	10/Kit
LIX 1003	CLED-Polymyxin/MacConkey	10/Kit

ESR: SEDI-RATE™ WESTERGREN SYSTEM

- Offers a simple, safe, economical and highly accurate method for performing Westergren determinations
- Shatter-proof plastic components uses closed system for safety
- Polystyrene graduated pipette features a unique fibrous plug located at the zero mark specifically designed to be a self-sealing aerosol barrier that stops hazardous substances from escaping
- Polypropylene vial features a patented self-sealing stopper easily pierced with a transfer pipette or piercing funnel and supplied pre-filled with 0.25mL of 3.8% trisodium citrate diluent
- Simply add 1mL of EDTA-treated blood to complete the 1 to 4 ratio as required by the Westergren method

GLO 3469	ESR: Sedi-Rate Westergren System, Pipettes and Citrate Vials, 100 Tests	100/Box
-----------------	---	---------

QUIDEL® QUICKVUE® CHLAMYDIA

- Qualitative detection of chlamydia directly from endocervical swab and cytology brush specimens
- **CLIA Moderate**
- Aids in the presumptive diagnosis of chlamydial infection
- Rapid test is easy to perform and interpret using only two reagents and 3 drops of extracted sample
- Offers high sensitivity and specificity in all patient populations
- Built-in controls confirm the test has performed properly
- **RESULTS IN 12 MINUTES OR LESS**

QUI B006

QuickVue® Chlamydia Test

25/Box

QUIDEL® QUICKVUE® H. PYLORI

- Detects IgG antibodies specific to Helicobacter pylori in human serum, plasma or whole blood
- Utilizes a convenient, non-invasive, and easy to perform test methodology to aid in the diagnosis of H. pylori
- Simple, one-step procedure uses 1 capillary tube or 2 hanging drops of whole blood (**CLIA Waived**), or 1 drop of serum or plasma (50uL) can also be used (**CLIA Moderate**)
- **RESULTS IN 5 MINUTES OR LESS**

QUI 0W009

QuickVue® Rapid H. pylori Test

10/Box

QUI 0W010

QuickVue® Rapid H. pylori Test

30/Box

PYLO PLUS® RUT

ULTRA RAPID UREASE TEST FOR H. PYLORI

- Detects H.pylori infections in gastric mucosal biopsies
- **Rapid Results:** Positive in as little as 1 minute, negative in 1 hour
- **Accurate:** 99% sensitivity and 97% specificity as shown in major US studies comparing PyloPlus® to Histology and other R.U.T.'s
- **Dry Test:** No incubation or reagents required, simply place the biopsy in the test well, close and wait for the results
- **Simple & Convenient:** Can be performed in any CLIA Waived endoscopy unit by nurses or technicians with minimal training
- **Cost Effective:** Very low cost per test
- **No Refrigeration Required:** Can be stored at room temperature for over 2 years, no need to keep temperature logs

PYL PYL050

PyloPlus® Rapid H. pylori Test

50/Box

HIV-1/2

HCV

ORAQUICK® HCV RAPID ANTIBODY

- Simple platform delivers accurate testing results in 20 minutes
- **CLIA Waived** and **FDA Approved** for detecting HCV antibodies in fingerstick and venipuncture whole blood
- **Clinically Proven Performance:** greater than 98% accuracy
- Test in physician offices, labs, clinics and public health settings

ORS 10010180	HCV Rapid Antibody Test	100/Box
ORS 10010181	HCV Rapid Antibody Test	25/Box
ORS 10010182	HCV Rapid Control Kit	3/Box

ORAQUICK ADVANCE® RAPID HIV-1/2

- **FAST:** Detects antibodies to HIV-1 and HIV-2 in 20 minutes
- **FLEXIBLE:** Approved for oral fluid, plasma, fingerstick or venipuncture whole blood specimens in clinical settings
- **CLIA Waived** (Oral Fluid/Fingerstick/Venipuncture Whole Blood)
- **Moderately Complex** (Plasma)

QUIDEL® QUICKVUE® STREP A TESTS

- Two-color results give clear readability and proven accuracy
- Internal and external controls included for quality control
- Clear and simple illustrations to guide the test procedure
- **RESULTS IN 5 MINUTES**

STREP A: Detects Group A Streptococcal antigen directly from throat swabs and beta-hemolytic colonies on blood agar plates

IN-LINE® STREP A: Unique in-line extraction to detect Group A Streptococcal antigen directly from patient throat swab specimens

DIPSTICK STREP A: Detects Group A Streptococcal antigen directly from patient throat swab specimens, or confirmation of presumptive Group A Streptococcal colonies recovered from culture and is used as an aid in the diagnosis of Group A Streptococcal infection

BD VERITOR® SYSTEM FLU A+B

FOR RAPID DETECTION OF FLU A+B CLIA-WAIVED KIT

- Rapid diagnostic test designed for the accurate, reliable detection of Influenza A + B nucleoprotein antigens from a nasopharyngeal wash, aspirate and swab in transport media samples from patients
- **BD Veritor™ Plus System Analyzer (SOLD SEPARATELY)**
- Advanced particle technology for enhanced sensitivity
- **Kit Includes:** BD Veritor™ System Flu A+B Tests, Sample Collection Swabs, BD Veritor™ System Flu A+B Extraction Reagent, Tube Tray, BD Veritor™ System Flu A+B Positive and Negative Control Swabs
- **RESULTS IN LESS THAN 11 MINUTES**

BEC 256045

BD Veritor® System Flu A+B

30/Kit

BIOSIGN® FLU A+B

- Rapid qualitative test detects Influenza Type A and Type B antigens directly from nasal swab, nasopharyngeal swab and nasal aspirate/wash specimens
- **CLIA Waived for Swab Specimens**
- Innovative flip design with onboard sample extraction
- Pre-measured developer solution capsule for increased accuracy and ease of use
- Flocked nasal swabs for improved patient comfort and superior specimen collection
- **RESULTS IN 10-15 MINUTES**

GER BSP510-25

BioSign® Flu A+B Test

25/Box

BINAXNOW™ RSV

- Rapid immunochromatographic assay used to detect Respiratory Syncytial Virus (RSV) fusion protein antigen in nasal wash and nasopharyngeal (NP) swab specimens from symptomatic patients
- **CLIA Waived**
- Aid in the diagnosis of RSV infections in patients under the age of 5
- **Kit Includes:** Test Cards, Transfer Pipettes, Negative Control Swab, Positive Control Swab (Inactivated RSV), Elution Solution, NP Patient Swabs (Only in CLIA Waived Kits), Product Insert, Procedural Card
- **RESULTS IN 15 MINUTES**

BIN 430100

QUIDEL® QUICKVUE® INFLUENZA A+B

- Detects and differentiates Influenza Type A and Type B antigens directly from nasal swab and nasopharyngeal swab specimens
- **CLIA Waived & Class II Compliant**
- 3 steps, 1 reagent, 90 seconds hands-on time
- Most patients tested can be diagnosed and treated in one visit
- Kit contains everything needed to perform the test, including foam-tipped nasal swabs and positive and negative controls
- **RESULTS IN 10 MINUTES OR LESS**

OSOM® ULTRA FLU A&B

- Rapid qualitative test that detects Influenza Type A and Type B nucleoprotein antigens directly from nasopharyngeal swab, nasal swab and nasopharyngeal aspirate/wash specimens obtained from patients with signs of respiratory infection
- **CLIA Waived (Swab), CLIA Moderate (Nasal Aspirate/Wash)**
- Simple 5 step CLIA-waived procedure with pre-measured extraction buffer for swab samples
- Accurate, differentiated interpretation of results in 10-15 minutes to test and treat patients in one office visit
- **RESULTS IN 10-15 MINUTES**

GEN 1006	OSOM® Ultra Flu A&B Test	25/Box
-----------------	--------------------------	--------

OSOM® MONO

- For the qualitative detection of infectious mononucleosis heterophilic antibodies in serum, plasma or whole blood
- **CLIA Waived (Whole Blood), CLIA Moderate (Serum, Plasma)**
- > 99% sensitivity; 96% specificity
- **NO AGE LIMITATION**
- Easy-to-read two color results
- 2 additional test sticks for external Quality Control (QC)
- **RESULTS IN 5 MINUTES**

FRENDS™ SYSTEM

RAPID QUANTITATIVE IMMUNOASSAY ANALYZER

- Quantitative immunoassay analyzing instrument that utilizes disposable cartridges to provide in vitro diagnostics results
- Fully automated system with a touch screen user interface is compact, portable and requires only a small sample volume
- POC testing uses microfluidic and immunofluorescence technology
- System QC and software updates are just a click away
- FDA 510(k) clearance gives a high correlation and accurate results
- Stores up to 1,000 test results, users can transfer the data easily to PC through USB and print out results with a printer provided
- QC cartridges quickly check the integrity of the system, code chip significantly reduces possible errors in between test values and LOT variation resulting in more accurate results

**CLIA
WAIVED**

SIEMENS® DCA VANTAGE® ANALYZER

The DCA Vantage® Analyzer is a multi-parameter, point-of-care analyzer for monitoring glycemic control in patients with diabetes and detecting early kidney disease.

- CLIA Waived HbA1c test is IFCC and NGSP-Certified
- **1µl finger stick without fasting – HbA1c results in 6 minutes**
- **Random urine sample provides A:C ratio in 7 minutes**
- Minimize the need for follow-up visits with a full spectrum of results: HbA1c, Albumin, Creatinine, Albumin-to-Creatinine Ratio Results
- Requires no sample or reagent preparation prior to testing
- New 2-D bar-code scanner helps prevent transcription errors, improve patient safety, and increase productivity
- Robust reagent cartridges designed to minimize pre-analytical errors associated with sample and reagent handling
- Power functionality enables POC coordinators to better manage diabetes testing in decentralized settings
- Clinically proven to correlate with lab methods

SIE 5075US	DCA Vantage® Analyzer	Each
SIE 5035C	DCA HbA1C Tests	10/Kit
SIE 6011A	DCA Microalbumin/Creatinine Tests	10/Kit
SIE 5068A	DCA HbA1c Controls	4/Kit
SIE 6012A	DCA Microalbumin/Creatinine Controls	4/Kit

EASY TO USE AND IMPLEMENT

- Plug and play installation
- Simple, one-step calibration scan with every new lot
- Guided user interface with step-by-step testing instructions
- Hassle-free maintenance

IMPROVE PATIENT OUTCOMES AND OPERATIONAL COSTS

- Increase patient satisfaction when testing during office visit
- Helps lower HbA1c levels over time
- Reduce costs associated with post-visit testing
- Satisfy HbA1c and kidney check HEDIS quality measures

FAILSAFE MEASURES FOR AUDIT RISK MITIGATION

- QC lockout prevents patient testing if QC not tested or fails
- Prevent unauthorized users from testing and accessing confidential patient information
- Eliminate transcription errors with barcode data entry and automatic transmission of results
- Link patient results to operators and material lot information (audit-ready)
- Customizable operator-specific system access mode

CARDIOCHEK® P•A

FOR FAST, ACCURATE LIPID RESULTS

CardioChek PA is a cost-efficient, user-friendly diagnostic point-of-care analyzer that accurately determines multiple patient values.

- **FAST:** Results in less than 2 minutes
- **QUALITY: CLIA Waived, FDA Approved**
Meets National Cholesterol Education Program (NCEP) Guidelines
- **ECONOMICAL:** Compact, lightweight and easy to store
- **PORTABLE:** Handheld, battery-operated
- **FLEXIBLE:** Measures total cholesterol, HDL cholesterol, triglycerides, and glucose; also calculates LDL, TC/HDL ratio
- **PATIENT-FRIENDLY:** Small sample (fingerstick) 15-40µL
- **HIGH ROI:** Rapid throughput and low waste, minimal start-up cost

POL 1708 Cardiochek® P•A Analyzer Each

PTS PANELS® TEST STRIPS

Customize your diagnostic offerings with a variety of PTS Panels® test strips for use with the CardioChek® P•A analyzer. The test strips offer an easy, efficient method for point-of-care diagnostic testing and Health and Wellness Screening.

POL 1710	Lipid	15/Box

Insert microcuvette into analyzer

3

Result appears in 30–60 seconds

HEMOPOINT® H2 HEMOGLOBIN & HEMATOCRIT ANALYZER

FAST RESULTS: accurate results for both hemoglobin and hematocrit tests in as little as 30 seconds

CLIA WAIVED: minimizes chance of user error and training costs

SMALL SAMPLE SIZE: Requires only 8µL of blood from a finger stick which is less invasive compared to tests with higher volume needs

TRULY PORTABLE DEVICE: Integrated rechargeable battery with up to 100 hours life per charge

MEMORY/DATA STORAGE: Recall the last 4,000 results, including the time and date of result and patient type

SOFT LOAD CUVETTE HOLDER: Prevents optics contamination and reduces need for cleaning

BACKLIT, INTUITIVE TOUCHSCREEN: Displays results, time, and status of the unit's rechargeable battery

Includes: HemoPoint® H2 Analyzer, Control Cuvette, Optics Cleaner, Power Adaptor, User Manual, Quick Reference Guide, Wall Chart

A1CNow+® PROFESSIONAL SYSTEM

The A1CNow+® system provides healthcare professionals with a fast and easy way of getting accurate HbA1c results with just a fingerstick. This innovative technology enables clinicians to communicate with patients about how to manage their diabetes in minutes, not days.

- **RESULTS IN 5 MINUTES**
- **FDA APPROVED & IFCC TRACEABLE**
- Lab quality results at the point of care
- **Fingerstick:** Small (5µL) blood sample
- **Portable:** use in multiple exam rooms
- **Simple Procedure:** minimal training required
- Demonstrates accuracy equivalent to clinical laboratory analyzers
- National Glycohemoglobin Standardization Program Certified
- Available in 10-count and 20-count test configurations

GLUCOCARD® VITAL™

BLOOD GLUCOSE MONITORING SYSTEM

- Fast, accurate and easy-to-use glucose oxidase system
- Small (0.5µL) sample size in the GO-based test strip platform gives accurate (plasma referenced) results in as little as 7 seconds
- Auto coded meter features 250-test memory, records 14-day and 30-day averaging, date and time stamp, and is downloadable
- Intended for the quantitative measurement of glucose in fresh capillary whole blood samples drawn from the fingertips or palm

ARK 761100	Glucocard® Vital™ Full Kit Includes:	Each
	Meter, (10) Test Strips, (10) Lancets, Lancing Device, (1) Control Solution, Carrying Case, Quick Reference Guide, User Manual, Log Book

ARK 760050

GLUCOSE TEST STRIPS

- Easy to handle, highly accurate and meant for in vitro diagnostic use
- Good for up to three months after opening
- Biosensor technology ensures precise results
- Convenient, compact storage bottle
- Specially designed for use with Glucocard Vital Blood Glucose Meter Kit

COAG-SENSE® PT/INR SYSTEM

• RESULTS IN LESS THAN ONE MINUTE!

- Small sample size - just one 10 µL drop of blood
- Proven direct mechanical clot detection technology
- Reduces the possibility of interference from blood constituents not involved in clot formation
- Offers rapid testing time, simplicity, and analytical results that correlate well with the leading methods of PT determination
- Portable small size offers state-of-the-art features including Wi-Fi, Bluetooth®, Near Field Communication (NFC), and an easy to read color touchscreen
- Designed for use in physician's offices, laboratories, and patient home testing settings

Coag-Sense® PT/INR Professional System Kit Includes:

PT2 Pro Meter, Pro User's Manual, Pro Quick Reference Guide, (8) Auto Single Use 21G Lancets, AC Wall Adapter, Carrying Case, (54) Sample Transfer Tubes with Plungers, 1-Year Warranty

Coag-Sense® Test Strip Kit Includes: (50) Patient Test Strips, (2) High Control & (2) Low Control Strips, (1) Control Activation Solution Vial, (54) Sample Transfer Tubes, Package Insert

COAGUCHEK® XS SYSTEM

• RESULTS IN 1 MINUTE

- Small, handheld, battery-powered meter is ideal for low-volume to mid-volume office settings
- Convenient, portable and user-friendly instrument for monitoring warfarin therapy
- Features two-button operation, automatic power-on and a large, easy-to-read display
- Determines the INR (International Normalized Ratio) value from a drop of capillary whole blood – simple, precise and reliable
- Built-in quality control checks each and every strip automatically
- Simple fingerstick test uses a small drop (8µL) of blood sample
- Reduces heparin interference for more accurate results
- Technology reduces heparin interference for more accurate results
- Patients can use it for self-monitoring at home or while on vacation

WYPALL® WIPERS

L40 ALL-PURPOSE TOWELS

- Made of bonded cellulose using DRC (double re-creped) technology for strength, softness and absorbency
- Absorbs liquids, lubricants and oils lightning-fast
- Disposable cleaning and drying towels are outstanding general-purpose towels
- Plush, touchable outer layer is tough on grease and oil yet soft enough for use on face and hands

X60 CLOTHS

- Absorb more than two times as much water as rags for cleaning performance in light duty tasks
- Contains no adhesives or binders, yet they hold together and don't leave residue behind
- White commercial paper towel is perforated for easy tearing
- Ideal for applying thinners and solvents as well as removing lubricants, grease, soil and adhesives
- Sturdy enough for multiple usage
- Absorbing power of HydroKnit technology (for superior absorbency) to a lighter-weight cloth

X50 CLOTHS

- Economical extended use cloth combines versatile performance with value design for light-duty tasks
- HydroKnit technology provides strength and durability and keeps them strong when wet, even for multiple uses
- 1/4 fold format is designed for space-saving convenience

X80 EXTENDED USE CLOTHS

- Made of soft pulp fibers, bonded to a polypropylene base sheet for absorbency and durability
- Suitable for removing dirt, oil, grime and solvents more effectively than textile shop rags while remaining resistant to harsh cleaning agents
- Reinforced for strength when wet and dry
- Use on heavy-duty machine and machine parts, wiping metal shavings, prepping surfaces with solvents and cleaning rough surfaces
- Proprietary HydroKnit technology is fast absorbing to wick away moisture
- Safer alternative to laundered rental shop towels or cloth rags, which can harbor dangerous chemicals like lead

ABSORBENT PADS

Bio-Screen® Biohazard Wipes & Liners serve multiple purposes:

- Wipe and clean pipettes, probes, slide prep devices, equipment, etc
- Cleaning up small or large spills
- Prevent splashing when popping caps on blood and specimen tubes
- Contain leaks and protect bench tops when lining counters and trays
- **PLEASE NOTE:** Non-Sterile and are NOT for use on patients

ORANGE BARRIER SIDE

- Blocks soak through of blood, body fluids and chemicals
- Inhibits subsequent transmission of microbes to equipment
- Bright orange bio-hazard warning color, non-slip
- Rated by an independent testing lab as an effective microbial barrier
- Impermeable to strong solvents including xylene and xylene substitutes, acetone, ketones, alcohol, formalin

WHITE ABSORBENT SIDE

- Low-linting and much more absorbent than gauze or paper wipes
- High wet strength for quick pick-up

POXYGRID® BENCH-TOP BIOHAZARD BAG HOLDER KIT

AUTOCCLAVABLE BIOHAZARD BAGS

- Bright red, autoclavable bags feature one long flap for easy opening
- Printed with the biohazard symbol and sterilization indicator patch
- Made of high molecular weight, high-density (HMHD) polyethylene
- Steam autoclavable at 121°C (250°F)
- Use as a biohazard material handler: small size allows the bag to be inverted over your hand to safely pick up waste
- For a space-saving disposal unit in fume hoods or on bench tops
- Pass ASTM 1922 Tear Resistance and ASTM 1709 Dart Impact Tests

WIRE FRAME STAND

- Economical and convenient, this benchtop disposal system is perfect for collecting pipet tips, microcentrifuge tubes, etc. during daily use
- Rectangular steel wire frame holds a polyethylene bag (8.5" x 11")
- Coated in easy to clean, durable, orange color epoxy
- Reusable, autoclavable
- Can be cleaned by hand or in automated dish washers

POLYPROPYLENE COVER

- Snug fitting polypropylene plastic cover helps hold the bag securely
- Provides compliance with regulations that require a cover on any container used to store, transport, or ship biohazardous waste

BIOHAZARD & BROKEN GLASS WASTE CONTAINERS

Broken Glass Keeper™

- Decrease the risk of injury from non-biohazardous broken glass and other sharp objects
- Floor Model is made of sturdy corrugated container and lined with a clear, thick plastic bag
- Bench-Top Model is made of sturdy paperboard, designed for use at your workstation with plastic lining able to contain moderate liquid amounts
- Unique Reclose-A-Lid / Remove-A-Lid™ reduces odor and waste visibility; wide-mouth opening for large items; separate top flap seals the lid when the container is filled

Biohazard Keeper™

- Dispose of non-sharp biohazardous lab waste including petri dishes, tests tubes, pipet tips, specimen cups, etc
- Floor Model is made of sturdy corrugated paperboard with a 2 mil leak-resistant red plastic liner, and a unique wide-mouth Reclose-A / Remove-A-Lid™ cover
- Bench-Top Model is plastic-lined to hold a moderate amount of liquid, printed with orange biohazard symbols and self-locking top keeps contents safely enclosed

Safe-Keeper™

- Collect biohazardous waste right at your workstation without cluttering up your bench top
- Dispose of capillary tubes, pipet tips, swabs, stir rods, and other contaminated items safely and economically
- Made of sturdy plastic-lined paperboard
- Unique solid bottom keeps contents from leaking
- Can be autoclaved or incinerated when filled
- Hook-Up™ self adhesive hook can hang Safe-Keeper™ on the wall or a shelf, keeping your bench top clear

Pipet-Keeper™

- Collect long contaminated items right at workstation
- Sturdy paperboard with orange biohazard symbols
- Interlocking, reclosable top is easy to use whether you are right or left handed
- Plastic lining avoids soak-through with webbed corners to hold moderate amounts of liquid
- Autoclave contaminated materials inside the container and dispose per your local, state or federal regulations

FLAMMABLE STORAGE CABINETS

- Safely contains hazardous chemicals to reduce the risk of fire
- Sturdy all-welded double wall steel construction
- Adjustable louvers support shelves and deep leak-proof base
- Electrical ground helps eliminate an electro-static discharge
- Recessed lockable paddle latch and 3-point locking system
- Bunged air vents with flame arrestors on both sides for ventilation
- Safety yellow, powder coat finish

OPTI-KLENS EMERGENCY EYE & FACE WASH FOUNTAINS

These chrome-plated, solid brass eyewash units easily install on any existing sink or basin faucet as a permanent eye wash fountain with unlimited water supply in an emergency, unlike portable models.

- **NO PLUMBING REQUIRED**
- Two of the most common adapters are packed with the unit
- Eliminator valve presets faucet water temperature and remain on, activate water flow by use of push through plunger for sink use
- Meets ANSI and OSHA standards

OPTI-KLENS I

- Mounts behind the faucet spout
- Frees both hands to hold eyes open to the flow of water
- Delivers more than twice the required water flow
- Will function properly with as little as 15 lbs of water pressure
- Restricted to reduce high water pressure to prevent injuries

OPTI-KLENS II

- Unit mounts to the spout with two spray nozzles curving upwards
- Frees both hands to hold eyes open to water flow in an emergency
- Delivers more than 3 gallons of water per minute

STAPH

ASI® SEROLOGY TEST KITS

Serology tests have a wide variety of uses including diagnostics on infections, rheumatic illnesses and checking of blood types. These tests work by testing antibodies in plasma serum which are formed as the body's response to infection.

ASO (Antistreptolysin-O)

CRP (C-Reactive Protein)

MONO (Mononucleosis)

RF (Rheumatoid Factor)

RPR (Rapid Plasma Reagin)

RUBELLA (German Measles)

SICKLE CELL (Hb-S)

SLE (Systemic Lupus Erythematosus)

STAPH (Staphslide Latex)

VDRL (Venereal Disease Research Lab)

BIOKIT® RAPID TESTS

Product line is designed for use as a simple screening test when a preliminary screening result is required, including tests based on latex agglutination, hemagglutination, charcoal flocculation and membrane immunochromatography.

FAST & EFFICIENT

- Easy-to-use and easy-to-interpret
- No additional equipment needed
- Controls and calibrators included in reagent kits
- Qualitative and semi-quantitative results

HIGHLY ACCURATE

- High sensitivity and specificity
- High stability and reproducibility

BIO 30001001	MONOGEN Latex agglutination test on slide for the qualitative and semiquantitative determination of specific Infectious Mononucleosis heterophile antibodies in serum or plasma Assay Time: 3 minutes	50 Tests
BIO 30001002	MONOGEN Latex agglutination test on slide for the qualitative and semiquantitative determination of specific Infectious Mononucleosis heterophile antibodies in serum or plasma Assay Time: 3 minutes	150 Tests

TANNER SCIENTIFIC® SINGLE SPECIMEN COLLECTION KIT

- **Kit Includes:** 3oz (90mL) Sterile Cup with Temperature Strip, Evidence Seal, Transport Bag with Absorbent Material
- Collects, stores and transports urine samples
- All specimen collection kits are individually packaged
- Can be used in conjunction with on-site testing products or remote site collection
- Sterile polypropylene cup with low-density polyethylene lid
- Transport bag features two sealable, tamper evident pockets and absorbent pad

TNR HXK44

SPECIMEN COLLECTION

ABSORBENT SHEETS

ABSORBENT POUCHES

Options Include a Zipper Lock with TWO Keys and a Steel-Reinforced Security Strap to assure lock box safety during use.

ABSORBENT SHEETS

- Tissue-based papers are impregnated with super-absorbent polymers to absorb liquids that may escape during transport
- Complies with IATA regulations governing specimen transport

THY 10300	3" x 4" Sheets	1,000/Case
THY 10306	3" x 6" Sheets	1,000/Case
THY 10307	6" x 6" Sheets	500/Case
THY 10312	12" x 12" Sheets	500/Case

AQUI-PAK™ ABSORBENT POUCHES

- For the safe transport of laboratory specimen tubes by keeping the tubes separate and providing cushioning to reduce breakage
- Consists of a multi-layered polymeric material that has extremely high absorption properties
- Ideal for Biological Substance Category B or Exempt Animal and Human Specimen Packaging
- Simply place the tubes in the provided bays and insert the Aquipak™ into secondary packaging
- Best used in combination with a specimen bag or canister to comply with DOT and IATA shipping regulations

THY 10335	2-Bay Aquipak™	1,800/Case
THY 10314	4-Bay Aquipak™	300/Pack
THY 10316	6-Bay Aquipak™	300/Pack

DURAMARK® FABRIC LOCK BOXES

- Include a zipper closure, a mesh envelope for gel packs, and an adjustable strap for ease of courier handling during pickup
- **Standard Color:** Royal Blue Regency
- **Standard Printing:** Silver Text with Red Biohazard Symbol
- **Available in 2 Sizes:** Small (9"x8"x7") and Large (11"x9"x7")

TANNER SCIENTIFIC® SPECIMEN CUPS

- Shatterproof, leakproof, and odor resistant design
- Excellent for biological sample collection and transport
- Manufactured from high-quality transparent polypropylene for optimum specimen viewing, and equipped with orange lids
- Tamper-evident seal ensures sterility of sample **(STERILE ONLY)**
- Patient ID label for writing sample information **(STERILE ONLY)**
- Temperature strip helps verify integrity of urine samples
- Graduated with readings in ounces (oz) and milliliters (mL)

TNR HXK261	3oz, Non-Sterile	400/Case
TNR HXK262	3oz, Sterile	400/Case

TNR HXK352	4oz, Sterile	400/Case

DUAL-CLICK CUPS

- Leak-resistant **Dual Click-Tite Cap** features **TWO** audible and tactile "**clicks**" to ensure a secure seal
- Tamper-evident label for added security and safety
- Made from virgin medical grade polypropylene construction
- 95kPa pressure compliance ensures safe air transportation
- Stackable, graduated and includes top and bottom knurls to grip

TNR HXK233	3oz (90mL), Sterile, Temp Strip, Dual Click-Tite Cap (Orange)	400/Case
-------------------	---	----------

TANNER SCIENTIFIC® VAC LID CUPS

- Integrated vacuum transfer device easily, safely and quickly collects urine from tube to cup without exposure to the specimen
- Manufactured from high-quality transparent polypropylene for optimum specimen viewing
- Ideal for transferring urine from a drug test cup to a transport vial
- Closed system helps prevent contamination and leakage, which positively impacts work environments and conditions
- Save on urine transfer time and storage space
- Lowers shipping, waste disposal and overall lab costs
- Includes patient ID label and tamper evident seal
- **NOTE: Urine Tubes Sold Separately**

FECAL COLLECTION CONTAINERS

- Ideal for the collection and transport of fecal specimens
- Self-standing containers feature attached screw caps with spoons
- Available in transparent polystyrene (PS) with polypropylene (PP) caps or opaque polypropylene (PP) with polyethylene (PE) caps
- Come completely assembled and are ready-to-use
- Non-graduated and non-sterile
- Warning label contains updated hazard information to comply with new regulations

GLO 109117	30mL, PS, Conical Bottom	500/Case
GLO 109120	30mL, PP, Conical Bottom	500/Case

COMMODO COLLECTION SYSTEM

SPECIMEN COLLECTOR PAN

- Manufactured from white translucent plastic
- Reinforced with ribbing for durability
- Fits any standard size commode
- Placed over the toilet to capture stool and urine samples
- Offers efficient collection from both male and female patients
- Black graduated markings in ounces and milliliters

ANX TBD	900mL, Non-Sterile, Latex-Free	100/Case
----------------	--------------------------------	----------

LABORATORY LOCK BOXES

- Keep lab specimens on-site documents, or other items until pick up by an authorized individual or courier
- Made from 20 gauge galvanized steel for extended life
- Versatile, durable, corrosion resistant, and insulated for temperature-sensitive applications
- Powder-coated hinges are rust resistant
- **Hanging Models:** come with rubber surface protectors in the back corners (pressed in, not glued on) to protect the door surface
- **Floor Models:** come with a dimpled bottom plate adding to prevent moisture from being trapped
- Insulated for specimen integrity with EPS foam

SELF-SEAL STERILIZATION POUCHES

- Triple sealed with heat to secure edges from separation or tearing by instruments
- Extra wide chevron seal protects against instrument breaching
- Dual steam and EtO process indicator arrows change color to indicate when processed
- Wet strength treated, virgin medical grade paper that meets or exceeds medical pouch standards
- Blue tinted, transparent film allows easy identification of instrument set-up as well as punctures or tears in film
- Wide self-seal adhesive strip easily and securely seals pouch, providing reliable seal until pouch is opened
- Complete paper-film separation consistently clean (peeling) of paper, and film is due to high grade materials and adhesives
- Perforated fold facilitates easy and accurate folding of a wide adhesive strip to form airtight seal until pouch is opened
- Six corner tack seals prevent corners from curling after sterilization, and help resist collection of dust and contaminants
- Thumb notch assures easy opening

MIDMARK STEAM STERILIZERS

- Steam-flush pressure pulse air removal system ensures proper steam sterilization
- Pre-programmed sterilization cycles and intuitive LCD display with prompts ensure quick, confident operation
- Real-time alerts notify promptly of any critical system errors
- **M9®**: makes a good fit if space is limited in your steri-center; uses a small footprint to drive big productivity
- **M11®**: one of the largest chambers of any tabletop autoclave on the market; can optimize sterile instruments by reducing the time and effort required for sterilization

MID M9042	M9® Automatic Steam Sterilizer	Each
MID M9D042	M9® Manual Steam Sterilizer	Each
MID M11042	M11® Automatic Steam Sterilizer	Each

SMART DRYING TECHNOLOGY

The sterilizer will automatically stop and alert you to take proper action if the door isn't closed, or the water level is too low. Once sterilization is complete, the door will open automatically and quietly, to dissipate steam and dry your instruments.

EASY OPERATION & MAINTENANCE

Simple operation makes it easy for your team to do the right thing every time, minimizing breaks in safety protocols. With easy-access drain and fill points, Midmark sterilizers lead the way in exceptional quality and streamlined maintenance.

PRE-PROGRAMMED CYCLES

The unit is designed to sterilize automatically without any operator assistance once a pre-programmed cycle is selected.

M9® Chamber:

CENTRIFUGE TUBES (RNASE/DNASE FREE)

This superior line of centrifuge tubes feature flat-top, plug-seal leak resistant red screw caps, a large white writing area and printed graduation marks.

- All sterile tubes are RNase, DNase and Pyrogen Free
- Cap is made from high density polyethylene (HDPE)
- Printed white graduation marks and a large white writing area
- Polypropylene tubes are autoclavable (without screwcap)

Spin Rates:

- Polystyrene (PS): 1700 RCF (3000 x g)
- Acrylic (AC): 5000 RCF (6,160 x g)
- Polypropylene (PP): 10,000 RCF (12,320 x g)

CENTRIFUGE TUBES (GENERAL PURPOSE)

These high quality centrifuge tubes are molded from polypropylene (PP) and feature flat-top, leak resistant blue caps. The tubes are printed with black graduation marks and a large white writing area.

- Manufactured from a special grade of polypropylene
- Exceptional clarity and chemical stability
- **Attached Blue Screw Caps (Sterile Tubes Only)**
- Cap is made from high density polyethylene (HDPE)
- Disposable, conical-bottom tubes are autoclavable (without caps)
- Large white writing area for sample identification
- Black printed graduations in 0.5mL increments
- **Spin Rate: 8500 RCF**
- **Temperature Range: -10°C to +80°C**

15mL, 17mm x 120mm

SELF-STANDING SAMPLE TUBES

- Designed for the storage and transportation of biological material
- Manufactured from non-toxic polypropylene for strength and clarity
- Smooth, uniform inner surface reduces the risk of contamination
- Withstand temperatures from -196°C to 121°C
- Round bottom tubes can be centrifuged up to 17,000g
- Can be autoclaved (121°C) in upright position with the caps loosened

SCREW CAPS (SOLD SEPARATELY)

- **Colors:** Natural, Gray, Blue, Green, Lilac, Orange, Red, Yellow, White
- Provides the same coefficient of expansion as the tubes
- Inner lip ensures a leakproof seal, even at changing temperatures
- Long skirt and a super fast thread design allows them to be removed or sealed with a single turn

GLO 6059	5mL, Round Bottom, PP	1,000/Bag
GLO 6136	Screw Cap for GLO 6059	1,000/Bag

TRANSPORT TEST TUBES

- **Polystyrene (PS)** tubes withstand 1,500 rpm during centrifugation while **Polypropylene (PP)** tubes withstand 3,000 rpm centrifugation and are autoclavable and freezeable
- Molded from premium grade polystyrene for clarity or polypropylene for impact strength and stability to common acids, alkalis or solvents
- **Caps Sold Separately****

GLO 110409**	12 x 75mm, 5mL, PS, Clear	2,000/Case
GLO 110405	12 x 75mm, 5mL, PS, Clear, Dual Position Snap Cap	1,000/Case
GLO 110441**	12 x 75mm, 5mL, PP, Natural	1,000/Bag

DUAL POSITION CLOSURES

- Made of low-density polyethylene (LDPE) and ribbed for easy handling
- Creates a leak-resistant seal when snapped into the tube
- Designed for aerobic and anaerobic storage of culture samples
- **Note:** Leave the cap in the loose position for aerobic work and in the sealed position for anaerobic cultures

GLO 118120	12mm, Natural	1,000/Bag
GLO 118118	17mm, Natural	1,000/Bag

WIRE DRYING RACK

- Holds 90 pieces of labware on 18 x 127mm pins and 72 x 76mm pins
- Constructed of spot-welded, HDPE-coated steel wire for durability with polystyrene tray and back
- Easily accessible and removable bottom drainage pan
- Saves glassware from chips and cracks
- Drain and dry test tubes, beakers, flasks and other labware
- Place self-standing rack on a table, countertop or near a sink, or use hooks to hang rack on the wall
- **Overall Dimensions:** 462 x 182 x 525 mm

Wire Drying Rack

Each

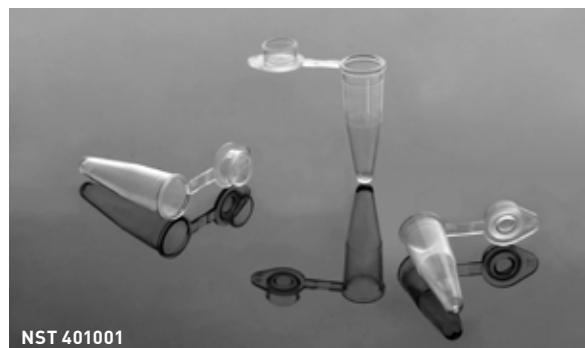

HEA HD23243A

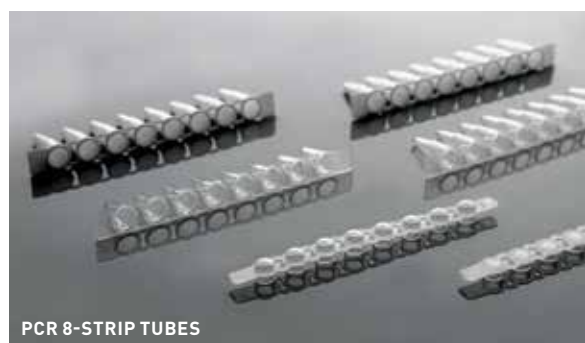

PCR TUBES

- Made from USP grade VI polypropylene
- Compatible with most thermal cyclers and real-time PCR machines
- Extra-thin walls provide the optimal thermal transfer conditions and shorter cycle times
- Low profile tubes minimize contamination, particularly for overnight experiments, and reduce evaporation of the reaction solution
- White strip tubes increase the fluorescent signal strength of real-time PCR reactions
- Free of DNase and RNase, human DNA and PCR inhibitor
- Easy to open, leakproof caps reduce the loss of reaction mixture

URINALYSIS

QUICK-PREP™ URINALYSIS KIT

- Tube and pipette system isolates 1mL of urine sediment stain for microscopic examination and allows easy pour off of the balance
- Includes a specially designed transfer pipette and 12mL urine centrifuge tube
- Designed for use with the Quick-Read (10-Place) urinalysis slide

GLO 3825

Quick-Prep™ Urinalysis Kit

500/Pack

QUICK-READ™ URINALYSIS SLIDES

- Precision microscope slide provides accuracy, uniformity and safety in the microscopic examination of urinary sediment
- Made from optically clear acrylic for optimal viewing

QUICK-READ™ PRECISION CELL

- Features 10 chambers with integrated coverslips
- 18 circles visible at 100x magnification within each chamber
- Pre-measured circles contain specific volumes of urinary sediment within its circumference
- Easy calculation of cellular elements present in 1mL of urine

QUICK-READ™ PRECISION GRID

- Consists of ten chambers with each chamber having a grid with 81 well defined, pre-measured squares
- Each pre-measured square holds a specific volume of urinary sediment which facilitates the convenient and rapid microscopic examination of the cellular elements in each specimen

ROCHE® CHEMSTRIP® TEST STRIPS

- Virtually eliminates Vitamin C interference, which can produce false negatives particularly with glucose and blood (hemoglobin)
- Helps avoid false negatives by detecting acetoacetic acid and acetone on the ketone reagent pad
- Iodate-impregnated mesh layer that oxidizes ascorbic acid
- Simplify and streamline testing - all reagent pads may be read at one time between one and two minutes after dipping
- Fingers stay clear of specimen - safe, hygienic testing practice
- Ensures uniform liquid penetration and prevents run over
- **Tests:** Specific Gravity, pH, Leukocytes, Nitrate, Protein, Glucose, Ketone, Urobilinogen, Bilirubin, Blood

ROC 417145	Chemstrip® 10SG Strips	100/Bottle
ROC 3260763	Chemstrip® 10MD Strips	100/Bottle

URINE TEMPERATURE STRIPS

- Activation on contact with urine sample
- Self-adhesive strip is a comprehensive system of thermometers based on proprietary formulations of liquid crystals that change colors at designated temperatures
- **Temperature Range:** 90°F - 100°F (33°C - 38°C)

TANNER SCIENTIFIC® SPECIMEN CONTAINERS

Mercedes Scientific offers a variety of quality plastic containers for collecting and transporting biological specimens. This product line features polypropylene containers with orange colored lids. The Vac Lid for urine transfer, the Dual Click Lid for extra security and the Conventional Lid are available.

See pages 114-115 for more product details.

SMC 010038

ANX 190058

URINE SPECIMEN CONTAINERS

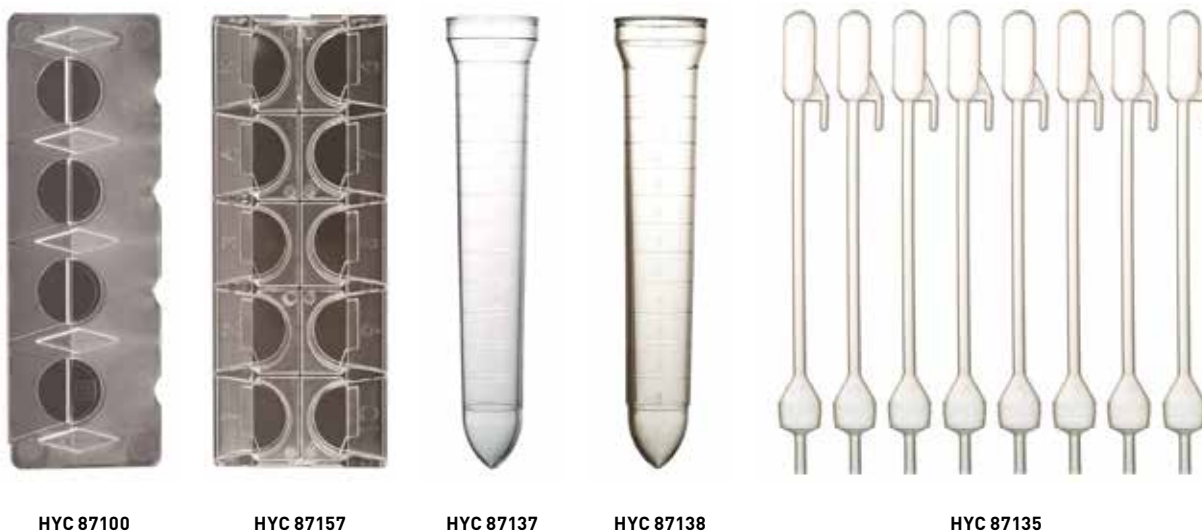

- Bio-Tite® Cap creates leak-resistant seal to prevent spills
- Wide-mouth containers are ideally suited for urine collection from women during pregnancy and for older or overweight patients
- Stackable, shatter-resistant containers are manufactured from virgin polypropylene and easy to store, saving lab space
- Gamma irradiation sterilization eliminates potential contamination
- Sterile indicator tab assures tamper evidence
- Positive grip knurls are easy to grip and open using latex gloves
- Tested at varying pressures makes them ideal for use in various transport systems

SMC 010038	4oz, Sterile, Natural Cap	300/Case
SMC 021016	3oz, Sterile, White Cap, Temp Strip	300/Case
SMC 021090	3oz, Sterile, Orange Cap	400/Case

URINE SAMPLE COLLECTION

- Ideal for urine sample collection in instant drug and alcohol testing

ANX 190058	3oz, Sterile, Blue Cap, Temp Strip	300/Case
-------------------	------------------------------------	----------

KOVA® PLASTICS

KOVA® Slide II: Disposable, 4-chamber microscope slide with counting grids made of clear plastic provides viewing optics similar to glass. Each numbered chamber provides 0.15mm standard depth in which to examine a constant volume of urine sediment.

KOVA® Glasstic® Slide 10: Disposable, 10-chamber microscope slide made of optically clear plastic without neubauer counting grid. Glasstic® slide grid is in the focal plane of the specimen, allowing for use over a range of magnifications.

KOVA® Super Tubes: 12mL graduated non-sterile disposable centrifuge tube made of high-quality, break-resistant clear plastic and marked in 1mL increments. Tubes are helpful while transporting, centrifuging and decanting to guard against sample loss.

KOVA® Economy Tubes: For urine collection and analysis, break-resistant polystyrene

KOVA® Petters: Disposable plastic transfer pipette features a unique lock for one-step, contamination-free decanting, retaining 1mL of urine after centrifugation

KOVA® Caps: Designed to fit both Super and Economy Tubes, provides secure closure to prevent spillage during transportation to and from the centrifuge as well as aerosol contamination during centrifugation. Flip cap covers one-third of cap circumference.

Easy to Use and Convenient

- Simple, intuitive touchscreen
- Fast results: in-office test results in about 1 minute

Improved Data Integrity

- Detects common sample interferences and makes a printed note of any potentially compromised result
- Checks each strip for humidity to prevent reporting of falsely elevated results
- Auto-identification of test strips, no need to key in manually

Comprehensive Menu

- Albumin-to-creatinine ratios to detect early kidney disease in confirmed diabetic patients
- Protein-to-creatinine ratios to detect early kidney disease in high-risk patients
- hCG pregnancy testing via the CLINITEK® hCG cassette

Future Ready

- Barcode reading capability to eliminate manual tasks

SIEMENS® CLINITEK STATUS®+

- Comprehensive point-of-care urinalysis menu for routine testing, detection of early kidney disease and hCG pregnancy testing
- Enhances confidence in clinical decisions with new automated checks (Auto-Checks) performed on every test
- Ensures consistent results interpretation with automatic timing and reading of every urine specimen
- Ready for connectivity to data management solutions (DMS) via a simple upgrade kit **(Call 800.331.2716 for details)**

CLARITY® UROCHECK

ACCURATE, FAST, EASY-TO-USE

- Lightweight, compact, and large LCD display
- Ideal for point-of-care and physician office setup
- 2,000 Test Internal Memory (up to 120 tests throughput per hour)
- Automatic Paper Feeder, Calibration and Self Check
- Flagging for abnormal results
- Patient ID input via manual or barcode reader (optional)
- Compatible with **ALL** LIS, HIS, EMR and EHR systems
- Q.C. Lockout (preprogrammed values and pass-fail summary)
- Operator Lockout (administrator/operator password protection)
- JCAHO Compliant (hardware lockout if Q.C. fails)
- Strip in same order as leading brand
- Auto feed mechanism for printer paper loading

ANTISTATIC WEIGHING DISHES

- Produced from a special grade of polystyrene
- Resist diluted acids, aqueous solutions, alcohols and bases
- Safe, contaminant-free, biologically inert, economical containers handle solids or liquids during weighing, dispensing and storing
- Withstands temperatures up to 80°C
- Non-reactive with most substances
- Suitable for weighing static affected samples

HEXAGONAL

- Smooth surface easily bends into pouring spouts, provides accurate pour-outs and transfer with minimal sample loss
- Molded hexagonal design for greater balance protection and safety

GLO 3615	20mL, 38 x 25mm	500/Pack
GLO 3616	50mL, 64 x 51mm	500/Pack
GLO 3617	200mL, 102 x 76mm	500/Pack

CCM 5000CC

THREE-CHANNEL ALARM TIMER

- Triple display shows 3 different times concurrently allowing for tests that can be started individually or simultaneously
- **Features:** Count Up/Down, Time In/Out, Memories, Alarm, Clock, Adjustable Alarm Duration/Volume
- Counts up and down from 99 hours, 59 minutes, 59 seconds
- Adjustable volume alarm can be set to sound for 60 seconds or to sound continuously until turned off
- Sets timer to high for noisy areas or low for quiet environments

CCM 5000CC

Three-Channel Alarm Timer

Each

CCM 5022CC

JUMBO BLACK TIMER

- Simultaneous programming of two different activities from 24 hours to 1 second with 0.01% accuracy
- Second display mode shows time of day and a stopwatch
- LCD display can be read up to 30 feet away

CCM 5022CC

Jumbo Black Timer

Each

CCM 4040

MONITORING HYGROMETER

- Simultaneously displays time, temperature and humidity
- Internal sensors are ideal for use in hoods, storerooms, incubators, drying chambers and environmental cabinets
- Memory recalls temperature and humidity readings

CCM 4040

Monitoring Hygrometer

Each

THM ACC895

DIGITAL THERMOMETERS

AVAILABLE FOR REFRIGERATORS, FREEZERS, BLOCK HEATERS, INCUBATORS, AMBIENT/ROOM, GENERAL LABS & WATER BATHS

- Triple display digital thermometer simultaneously shows current, minimum and maximum temperatures and updates continuously
- Audible alarm will sound when the temperature rises above or goes below the set temperature
- Minimum/maximum monitors critical temperature for any period of time, such as overnight or weekend
- Switch between Fahrenheit and Celsius
- Each thermometer ranges between -50° to 70°C
- **SERIALIZED, CERTIFIED AND NIST TRACEABLE**
- Temperature probe housed in plastic bottle filled with a non-toxic, non-hazardous liquid medium
- Dual magnets allow attachment to doors or walls

THM ACC895

Digital Thermometers

Each

Thermco ACCU-SAFE Enclosed Chamber Thermometers are precise, reliable and an economical means of measuring critical temperatures. Each bottle thermometer has their own unique serial number and are supplied with a NIST (National Institute of Standards and Technology) Traceable Certificate.

Battery Life: 20 hours of continuous use
with fully charged battery pack

Tare (Zero): 100% of scale capacity

Temperature: 40° to 105°F / 5° to 40°C

Humidity: 25% - 95% RH

Features: Low battery indicator, power
saving selectable timing, auto shut-off

Keys: ON/OFF, MODE/OK, UNIT, TARE

PS7 DIGITAL PORTION CONTROL SCALE

NSF CERTIFIED

- Compact size with digital speed and accuracy
- Offers five different units of measure and users can disable different units of measure if they are not needed
- Smooth, molded poly enclosure, lift-off stainless steel commodity tray and sealed membrane keypad, is easy-to-clean and operate
- Tare feature lets users tare/zero the weight of a container up to the full capacity of the scale
- Checkweighing: LCD changes color based on Under/Accept/Over preset target weights the user selects
- Display backlight will turn on during weighing and will automatically turn off 5 seconds after the weight has been removed from the scale
- Turns red for over weights, green for acceptable weights, and the backlit will turn off for under weights

DET PS7

Portion Scale, 7lb Capacity

Each

WOUND CARE

BORDERED ISLAND GAUZE DRESSING

- Constructed with a heavy-duty absorbent pad and conformable, non-woven fabric adhesive backing
- Porous structure of the Sontara® non-woven fabric ensures air and water vapor permeability
- Stretchable fabric conforms well to the body contours and allows body movements when in place
- Adhesive designed to be gentle to the skin, but at the same time provide secure fixation
- Wound pad absorbs moderate amounts of wound fluids, and the low-adherent surface reduces the risk of adherence to the wound

PRA P157204	4" x 4" with 2" x 2" Pad	25/Box
PRA P157206	6" x 6" with 4" x 4" Pad	25/Box

GAUZE SPONGES

GAUZE SPONGES

- Made from 100% premium cotton gauze
- Bleached for maximum absorbency
- Individual easy-to-open packaging (**STERILE**)
- Offered in a broad range of sizes and plies
- Applicable for wound dressing, general cleaning, prepping, packing and debriding wounds

STERILE

PRA P157002	1's, 2" x 2", 12-Ply	100/Box

PRA P157025	2's, 4" x 4", 12-Ply	600/Case

NON-STERILE, WOVEN

PRA P157112	2" x 2", 12-Ply	200/Bag
PRA P157113	3" x 3", 12-Ply	200/Bag
PRA P157114	4" x 4", 12-Ply	200/Bag
PRA P157115	2" x 2", 8-Ply	200/Bag
PRA P157116	3" x 3", 8-Ply	200/Bag
PRA P157117	4" x 4", 8-Ply	200/Bag
PRA P157118	4" x 4", 16-Ply	200/Bag

NON-STERILE, NON-WOVEN

PRA P159522	2" x 2", 4-Ply	4,000/Case
PRA P159533	3" x 3", 4-Ply	4,000/Case
PRA P159544	4" x 4", 4-Ply	2,000/Case

NON-ADHERENT PADS

- Ideal for lightly draining wounds
- Highly absorbent triple layer protection provides cushioning without sticking to healing area
- Individually packaged, sterile
- Provides effective protection of cuts, burns and scrapes
- Non-stick, easy to remove, latex-free

PRA P150155	2" x 3", Sterile	100/Box
PRA P150160	3" x 4", Sterile	100/Box

NON-ADHERENT PADS
