ORDERING INFO:

- Call Monday–Friday, 8am–6pm EST to speak directly with one of our customer service representatives.
- **Closed Saturdays & Sundays (Online: Open 24/7)**
- Voice Messaging Available

RETURN POLICY:

We pride ourselves in providing quality medical products at an outstanding value, and our goal is for you to be completely satisfied with your order. To ensure quality and maintain integrity in the event of damaged or discrepant orders, please review the following guidelines carefully.

SHIPPING DISCREPANCIES:

Please examine your packages upon receipt to ensure your order is correct. This can be done by identifying the box with the enclosed packing slip. Please keep in mind that with multiple box shipments the packing list will be in only one box. It is your responsibility to confirm that you have received all of the items indicated on your packing slip. Failure to report shipping discrepancies within five business days prevents us from accurately problem-solving the issue; therefore variances reported after 5 business days will not be credited. If the product you order is a custom order and requires a longer lead time than 7 days, a customer service representative will notify you.

RETURNS:

All return requests must be called into our **Customer Care Center** at 1.800.331.2716 prior to return and must be assigned an **RMA (Return Material Authorization)** number. If applicable, a FedEx pickup will be scheduled at time of authorization. Boxes containing product that have been **written on or compromised** in any way will not be accepted for return. All products must be returned in the **original packaging and packed in an additional outer box** to reduce the possibility of damage during return shipping.

- Returns may be subject to a minimum **15% restocking charge.**
- **Non-refrigerated product must be returned within 30 days of receipt. Unfortunately, we can NOT accept returns for refrigerated product.**
- Any product refused or returned **without an authorized RMA** will be subject to a restocking fee or denial of credit or replacement.
- Mercedes Scientific reserves the right to deny a return request outside of the above guidelines. **After 30 days**, the RMA and return option are **no longer valid** and will **NOT be authorized or accepted.**
- Capital equipment subject to additional terms.

About Mercedes Scientific

Mercedes Scientific has established itself as the leader in laboratory supplies and equipment distribution with an unparalleled commitment to customer service. Specializing in sourcing exceptional products domestically and internationally, Mercedes Scientific maintains close partnerships with manufacturers and partners to ensure customers receive quality products at some of the most competitive pricing in the industry. Founded in 1991 and located in Lakewood Ranch, Florida, Mercedes Scientific is privately held, woman-owned, and a two-time winner of Inc. 500s Fastest-Growing Companies in America. The company continues to innovate to bring new levels of service excellence to the life sciences, clinical, histology, toxicology, and drug screening markets.

TN50

Semi-Automatic Cryostat

Features:

- Exceptional German engineering
- Ideal for Mohs surgery and traditional pathology frozen section labs
- Modern rotary microtome with motorized μm advance/return
- Spacious cooling chamber for efficient and safe workflow
- Large anti-roll plate
- 24 easily accessible freezing positions
- Heated viewing window (glass, electrically, conductive coating, transparent)
- Intuitive, simple electronic control panel
- Automatic defrost
- Removable condensate bottle with level sensor
- Optional UV-C disinfection solution

Cryochamber Specifications

- **Material:** Stainless Steel
- **Dimensions:** 19½"W x 21¼"D x 15¾"H
- **Illumination:** LED, White
- **Temperature Range:** 0°C to -35°C
- **Sample Preparation Positions:** 24 Positions, Temperature Range: -40°C to -45°C

MADE IN GERMANY

Microtome Specifications

- **Section Thickness Range:** 0.5 μ m to 100 μ m
- **Section Thickness Selection:**
 - 0.5 to 2 μ m in 0.5 μ m Steps
 - 2 to 20 μ m in 1.0 μ m Steps
 - 20 to 50 μ m in 2.0 μ m Steps
 - 50 to 100 μ m in 5.0 μ m Steps
- **Trimming Thickness Setting Range:** 0.5 to 750 μ m
- **Horizontal Specimen Feed:** 28mm
- **Vertical Stroke:** 58mm
- **Coarse Feed:** Motorized (600 μ m/s + 3.000 μ m/s)
- **Specimen Retraction:** 0 - 200 μ m, Free Programmable
- **Horizontal Orientation:** 8°
- **Vertical Orientation:** 8°
- **Z-Axis Orientation:** 360°

**WITH 2-YEAR
WARRANTY!**

* 2-Year Warranty:
2 years parts, 1 year labor

TN55

Semi-Automatic Cryostat with Quick Freeze -60°C Cold Spot

- **Dimensions (WxDxH):** 26¾" x 23⅝" x 43¾"
- **Weight (w/o accessories):** 280 lbs
- **Electrical Parameters:** 115V; 50/60 Hz

Features:

- 24 easily accessible freezing positions
+ 2 quick-freeze positions (-50°C to -55°C)
- Exceptional German engineering
- Ideal for Mohs surgery and traditional pathology applications
- Modern rotary microtome with motorized μ m advance/return
- Spacious cooling chamber for efficient and safe workflow
- Large anti-roll plate
- Heated viewing window (glass, electrically, conductive coating, transparent)
- Intuitive electronic control panel
- Automatic defrost
- Removable condensate bottle with level sensor
- Optional UV-C disinfection light

Cryochamber Specifications

- **Material:** Stainless Steel
- **Illumination:** LED, White
- **Temperature Range:** 0°C to -35°C
- **Sample Preparation Positions:** 24 Positions,
Temperature Range: -40°C to -45°C

Microtome Specifications

- **Section Thickness Range:** 0.5 μ m to 100 μ m
- **Section Thickness Selection:**
 - 0.5 to 2 μ m in 0.5 μ m Steps
 - 2 to 20 μ m in 1.0 μ m Steps
 - 20 to 50 μ m in 2.0 μ m Steps
 - 50 to 100 μ m in 5.0 μ m Steps
- **Trimming Thickness Setting Range:** 0.5 to 300 μ m
- **Horizontal Specimen Feed:** 28mm
- **Vertical Stroke:** 58mm
- **Coarse Feed:** Motorized (600 μ m/s + 3.000 μ m/s)
- **Specimen Retraction:** 0 - 200 μ m, Free Programmable
- **Horizontal Orientation:** 8°
- **Vertical Orientation:** 8°
- **Z-Axis Orientation:** 360°

**WITH 2-YEAR
WARRANTY!**

* 2-Year Warranty:
2 years parts, 1 year labor

TN60 Cryostat with Object Head Cooling

The **NEW** German-made **Tanner Scientific® TN60 Cryostat** features a smooth microtome for easy, intuitive operation. For extra convenience the system includes a spacious stainless steel chamber, 24 easily accessible freezing positions and a well illuminated cooling chamber that can be effectively cooled down to -35°C. For additional user safety the system is equipped with an efficient **UV-C disinfection system**.

Features

- Exceptional German engineering
- **2-Year Warranty***
- UV-C disinfection
- Dual compressors for separately controlled specimen head-cooling (up to -50 °C)
- 24 easily accessible freezing positions + 2 quick-freeze positions (-50 °C to -55 °C)
- Removable Flat Mounting Surface Accessory
- Smooth rotary microtome
- Spacious cooling chamber
- Glass anti-roll plate
- Heated viewing window
- Easy-to-reach electronic control panel
- Automatic defrost
- Removable condensate bottle with level sensor

Cryochamber Specifications

- **Material:** Stainless Steel
- **Dimensions:** 19½"W x 21¾"D x 15¾"H
- **Illumination:** LED, White
- **Temperature Range:** 0°C to -35°C
- **Sample Preparation Positions:** 24 Positions, Temperature Range: -40°C to -45°C

Microtome Specifications

- **Section Thickness Range:** 0.5µm to 100µm
- **Section Thickness Selection:** 0.5 to 2µm in 0.5µm Steps
2 to 20µm in 1.0µm Steps
20 to 50µm in 2.0µm Steps
50 to 100µm in 5.0µm Steps
- **Trimming Thickness Setting Range:** 0.5 to 750µm
- **Horizontal Specimen Feed:** 28mm
- **Vertical Stroke:** 58mm
- **Coarse Feed:** Motorized (600µm/s + 3.000µm/s)
- **Specimen Retraction:** 0 - 200µm, Free Programmable
- **Horizontal Orientation:** 8°
- **Vertical Orientation:** 8°
- **Z-Axis Orientation:** 360°

MADE IN GERMANY 

* 2-Year Warranty: 2 years parts, 1 year labor

TN6000

Manual

Individual Features

- Trimming function in 4 steps
- Acoustic signal alerts at end position
- Ergonomically located coarse feed wheel

MADE IN GERMANY

* 2-Year Warranty: 2 years parts, 1 year labor

Standard Features

- Precision German engineering/manufacturing
- 3-component disposable blade holders
- Smooth handwheel
- Modern handwheel lock
- Specimen retraction upon backstroke
- Vibration free microtome base plate
- Spacious, integrated section waste tray
- Wide range of accessories

Optional Microtome Accessories

- Choice of High or Low Profile Blade Holder
- Quick Load Cassette Clamp (Orientable)
- Universal Cassette Clamp (Orientable & Fixed)
- Standard Object Clamp (Orientable & Fixed)
- Super-Mega Cassette Clamp (Fixed)
- Foil Clamp
- Illuminated Magnifying Glass

Technical Specifications

- **Section Thickness Setting Range:** 0.5 to 60µm
- **Section Thickness Selection:** 0.5 to 2µm in 0.5µm Steps
2 to 10µm in 1.0µm Steps
10 to 60µm in 2.0µm Steps
- **Trimming Thickness Setting Range:** 10µm, 20µm, 30µm, 40µm
- **Horizontal Specimen Feed:** 28 mm
- **Vertical Stroke:** 60 mm
- **Coarse Feed:** TN6000 Manual, TN7000/TN8000 Automated
- **Specimen Retraction:** Automatic
- **Horizontal Specimen Orientation:** 8°
- **Vertical Specimen Orientation:** 8°
- **Z-Axis Specimen Orientation:** 360°
- **Dimensions:** 18⁷/₈"W x 24"D x 13³/₄"H
- **Includes:** Blade Holder, Waste Tray
- **Weight:** 73 lbs

TN7000

Manual Sectioning with Automated Coarse Feed Feature

Individual Features

- Multiple Cut Modes
- Universal Cassette Clamp (Orientable & Fixed)

**WITH 2-YEAR
WARRANTY!***

* 2-Year Warranty:
2 years parts, 1 year labor

Standard Features

- Precision German engineering/manufacturing
- 3-component disposable blade holders
- Smooth handwheel
- Modern handwheel lock
- Specimen retraction upon backstroke
- Vibration free microtome base plate
- Spacious, integrated section waste tray
- Wide range of accessories
- Acoustic signal alerts at end position
- Trimming function in 4 steps

- **Horizontal Specimen Orientation:** 8°
- **Vertical Specimen Orientation:** 8°
- **Z-Axis Specimen Orientation:** 360°
- **Dimensions:** 18⁷/₈"W x 24"D x 13³/₄"H
- **Includes:** Blade Holder, Waste Tray
- **Weight:** 73 lbs

* 2-Year Warranty: 2 years parts, 1 year labor

TN1600

Tissue Embedding Center (SMALLER FOOTPRINT)

Features:

- German engineered, German manufactured
- Manual dispensing lever and foot pedal
- Adjustable magnifier glass
- Ergonomic hand rest
- Spacious, heated paraffin collection tray
- 3.8 liter paraffin container
- Cooling plate
- Two heating trays for 130 cassettes or 250 embedding molds
- Ergonomic work area
- LED light illumination
- Intuitive control panel

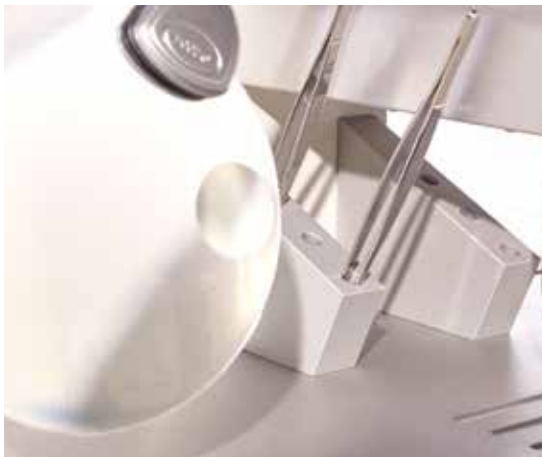

Cold Plate Specifications

- **Cooled Area Temperature Range:** Down to -15°C
- **Cooled Area Capacity:** 80 Cassettes, Anodized Aluminum, 14¾" x 10¾"
- **Control:** Microprocessor, Working Day, Temperature Programming, Working Time, Time and Date
- **Dimensions:** 15¾"W x 22½"D x 11¾"H
- **Weight:** 55 lbs

Technical Specifications

- **Temperature Range**
Paraffin Container: Up to 80°C
Cassette/Mold Storage Containers: Up to 80°C
Working Area: Up to 70°C
Cooling Spot: Down to -5°C
- **Paraffin Container:** 3.8 liters
- **Cooling Spot:** 2" x 2", Peltier Forceps Holders 2 x 3, Magnetic, Adjustable
- **Illumination:**
3 x LED Spots, Adjustable
- **Magnifier:** Plastic, Adjustable
- **Paraffin Flow:** Activation Manually or by Footswitch, Adjustable Paraffin Flow Rate
- **Control:** Microprocessor, Temperature Programming, Working Day, Working Time, Time and Date
- **Work Area:** 17¾" x 9½", Anodized Aluminum
- **Dimensions:** 17¾"W x 22½"D x 11¾"H
- **Weight:** 51 lbs
- **Electrical Parameters:** 115V; 50-60 Hz

 **MADE IN GERMANY**

DID YOU KNOW?

The cold plate **TN1600B** allows for a fast and efficient cooling of paraffin blocks after embedding and prior to sectioning. The compressor-cooled cold plate, made of anodized aluminum, guarantees consistent temperature distribution and is easy to clean.

**WITH 2-YEAR
WARRANTY!**

* 2-Year Warranty:
2 years parts, 1 year labor

TN1700

Modular Paraffin Embedding Center (LARGER FOOTPRINT)

TANNER
scientific®

Features:

- German engineered, German manufactured
- Spacious cooling plate
- Adjustable magnifier glass
- Ergonomic hand/arm rest
- Programmable working hours
- Adjustable forceps holders
- 5.5 liter paraffin container
- Spacious and heated paraffin collection tray
- Working area with adjustable LED illumination and integrated cold spot
- Electrically heated forceps (optional)
- Integrated heated wax trimmer

DID YOU KNOW?

The **TN1700** features a spacious working area, large container capacity and best in class reliability. All modules are the same working height and can be arranged anyway you choose. The extendable modular 3-component system with separate temperature control elements consists of a dispenser, a preheating unit and a separate cooling plate.

SPACIOUS

Large working area with integrated cold place. The work space has a drainage system that guides the paraffin into the collection tray.

UNDER CONTROL

The larger capacity, 5.5-liter volume tank allows uninterrupted workflow in higher volume labs.

Dispensing Module Specifications

- **Temperature Range:**
Paraffin Container: Up to 80°C (1°C Increments)
Working Area: Up to 70°C (1°C Increments)
Cooling Spot: Down to -10°C
- **Paraffin Container:** 5.5 liters
- **Cooling Spot:** 2" x 2", Peltier
- **Forceps Holders:** 2 x 4, Magnetic, Adjustable
- **Illumination:** 3 x LED Spots, Fixed
3 x LED Spots, Adjustable
- **Magnifier:** Included, Easy to Orientate
- **Paraffin Flow:** Activation Manually or by
Footswitch, Continuously Adjustable Flow Rate
- **Control:** Microprocessor, Program Temperature,
Working Day, Working Time, Time and Date
- **Work Area:** 17¾" x 9½"
- **Dimensions:** 17¾"W x 22½"D x 11¾"H
- **Weight:** 47 lbs
- **Electrical Parameters:** 115V; 50-60 Hz

**MADE IN
GERMANY**

Cooling Unit Specifications

- **Temperature Range:** Down to -15°C
- **Maximum Capacity:** 80 Cassettes
- **Control:** Microprocessor, Program Temperature,
Working Day, Working Time, Time, Date
- **Work Area:** 14¾" x 10¾"
- **Dimensions:** 15¾"W x 22½"D x 11¾"H
- **Weight:** 55 lbs
- **Electrical Parameters:** 115V; 50-60 Hz

**WITH 2-YEAR
WARRANTY!***

Prewarming Unit Specifications

- **Temperature Range:** Up to 80°C,
1°C Increments for Working Area
- **Cassette Bath:** 150 Cassette Capacity,
Removable, 9¾" x 10¼" x 1¼"
- **Control:** Microprocessor, Program Temperature,
Working Day, Working Time, Time and Date
- **Mold Warmer:** 500 Mold Capacity,
10¼" x 8¾" x 2¾"
- **Dimensions:** 11¾" x 22½" x 11¾"
- **Weight:** 33 lbs
- **Power:** 230V; 50-60 Hz

* 2-Year Warranty: 2 years parts, 1 year labor

ITEM # DPT DNTLOS2

Donatello

Tissue Processor Series 2

Increased Productivity

- Processes up to 405 samples
- Automated reagent management software

Internet Accessible

- Access/troubleshoot remotely
- Control processor from afar
- Eliminate costly service calls

Safety

- Safe reagent parking
- Fume control
- Xylene free options

Smart, Intuitive Software

- User-friendly icon based software, with colored touch screen for quick and easy managing of the instrument
- Remote accessible
- RFID (Radio Frequency Identification) avoids mismatching human errors in reagent exchanges

LED Active System

- Green lights reveal reagent position to guide users when changing reagents

MADE IN ITALY 

DIA PATH

MADE IN ITALY

AUTOMATED SPECIAL STAINING IS HERE!

Tablet Based Controller

- 40+ pre-installed special stain protocols
- Intuitive color display and acoustic alerts
- Store an unlimited number of protocols

ITEM # DPT TIZIANO

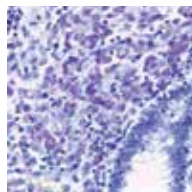

Tiziano

Automated Slide Stainer for Special Stains

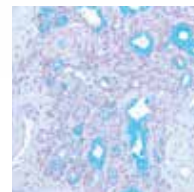

Tiziano is simple to operate, and dramatically increases efficiency and consistency with special stains.

- **REDUCED REAGENT USAGE** due to tank volume
- **ENHANCE QUALITY:** use with Special Stains Kits from Mercedes Scientific (ready-to-use, quality-controlled reagents) or any other brand
- **SPACE-SAVING DESIGN:**
 - Stand-alone unit can be fitted easily into the available workspace
 - Equipped with software user-friendly touch-screen tablet
- **READY-TO-GO:** Comes pre-programmed with 40+ stain protocols

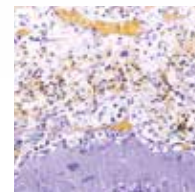

Stains Performed with Tiziano

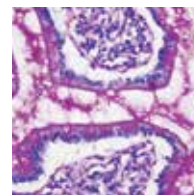

Acid Resistant Bacteria
- Ziehl Nielsen acc. Fite

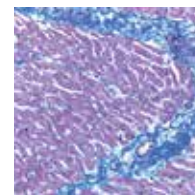

Colon - Alcian Blue
pH 2.5 acc. Dorling

Hypophysis - P.A.S.
acc. Pearse

P.A.S. acc.

DIAPATH

ITEM # DPT GIOTTOS2

Giotto

Automatic Multistainer

- For histology and cytology staining
- Run different stain protocols simultaneously
- **Noiseless Robotic Arm** is fast, efficient and quiet
- Minimizes cross contamination while maximizing productivity and throughput
- **S3 (Simultaneous Staining Scheduler)** software automatically determines the best reagent reservoir configuration possible for optimal efficiency
- **Stain ID Technology** automatically determines the protocol based on the slide rack the user loads - allowing continuous loading and eliminating errors
- **Smart LED System** warns operator with acoustic and visual signals
- **Water Pressure System:** sensor alerts for possible missing waterflow to prevent failure of hematoxylin differentiation in running water
- One of the highest throughput H&E stainers on the market

MADE IN ITALY 

DIA PATH

ITEM # CES CS50F

F50

NON-GYN SLIDE PROCESSOR

This liquid-based non-gyn cytology system features more cells per slide and does not need duplicate preps.

DUAL FILTRATION TECHNOLOGY

- Disposable filter designed to remove non-diagnostic material to optimize cell presentation
- Cells of interest are transferred to the slide in a homogeneous thin-layer cell deposit
- Filters are available in 20mm and 14mm diameters, thereby improving cell yield and presentation

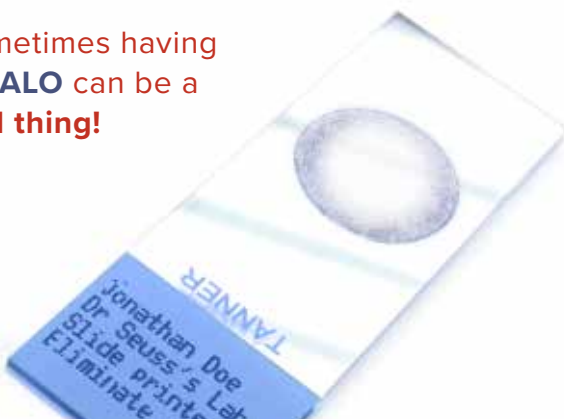

CELLSOLUTIONS F50 SPECIFICATIONS

- **Throughput:** 50 samples/hr. Semi-automated
- **Dimensions:** 11"W x 15"D x 8.5"H; **Weight:** 31 lbs

See Page 100 for preservatives.

The CellSolutions double membrane technology yields cellular preparations with increased cellularity, presentation, and stain quality on 93.75% of the specimens tested when compared to other liquid based methods.¹

Sometimes having a **HALO** can be a **bad thing!**

FINALLY Something New After 20 Years!

FASTER

Slide is ready to stain in 20 seconds.

CHEAPER

Less expensive to acquire and operate. Costs a fraction of the others.

BETTER

Slides will be better looking and easier to read.

¹ Smith D., Espinoza, A., Vega, I. "Comparison Study of Traditional Cytology Non-Gyn Processing Techniques to Specimens Processed with CellSolutions Method". 2017 American Society of CytoPathology Meeting: Poster Publication

SlidID

Microscope Slide Label Printer

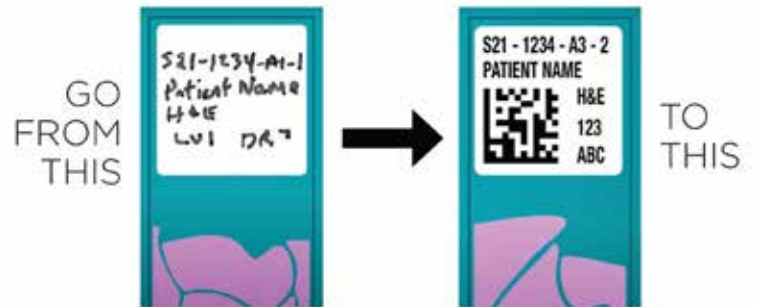

A complete, ready-to-print microscope slide label printer package that comes with everything you need to print histology grade slide labels — printer, software, labels, and ribbon.

The slide labels and thermal transfer ribbon are optimized for harsh chemicals and will not absorb eosin or hematoxylin coloring.

SlidID printers function with or without LIS. They can be set up for batch printing or with on-demand printing for “laboratory best practices.”

FEATURES:

- Ready-to-print
- Scalable
- Resistant to stains, solvents and xylene
- Will not absorb eosin or hematoxylin coloring
- Function with or without LIS
- Can be setup for batch printing or with on-demand printing

QRL SLIDEIDPRINTERPK	BASIC PACKAGE: SlidID CL-E331 Slide Label Printer, SlidID Slide Printing Software, SlidID Microscope Slide Labels, SlidID Thermal Transfer Ribbon	Each
QRL SLIDEIDPROPCK	PRO PACKAGE: Includes All Contents of the Basic Package Above Plus Denso AT30Q Barcode Scanner	Each
QRL SLIDEIDLABEL	SlidID Microscope Slide Labels, 0.875" x 0.875", 1" core (1,750 Per Roll)	Roll
QRL SLIDEIDRIBBON	SlidID Special Resin Ribbon, 1.57" W x 984' (prints 12,000 +/- Slide labels)	Each
QRL SLIDEIDRIBBONZ	SlidID Thermal Transfer Ribbon For ZEBRA® Style Printers, Xylene and solvent resistant, histology grade	Each

PRIMERA® SIGNATURE® SLIDE PRINTER

FEATURES & BENEFITS:

- **Reduce Inventory & Purchasing Activity:** inventory of multiple colors of slides is eliminated since it permits printing colors on white frosted slides
- **Prints Directly Onto Slides:** eliminates handwriting or difficult-to-apply labels
- **Small Footprint:** fits perfectly at the workstation
- **Slides Stored in Easy-to-Load Cartridges:** protects from dust and other potential contaminants
- **PTLab Software:** template-driven software for exact information desired on slides gets printed; Pro version configures input/output data streams to LIS systems
- **Chemical-Resistant Ink:** ensures reliable identification of slides now and for years in the future
- **Includes:** Printer, PTLab™ Software, TuffCoat Extreme Black Ribbon, Printer Driver, UL 60601-1 Power Supply, “Green Dot” Plug

PRI 78104 Primera® Slide Label Printer Each

ACCESSORIES

PRI 58105 Black Ribbon (5,000 Prints) 6/Box

PRI 78251 Spare Slide Holder (100-Count) Each

PRIMERA® SIGNATURE® CASSETTE PRINTER

FEATURES & BENEFITS:

- Designed for efficient, hands-free operation
- Printing cassettes on-demand or in batch mode reduces errors and increases efficiency
- Taped cassettes are loaded into individual hoppers
- Level of cassettes remaining is easily viewed through the front of the hopper's transparent blue LED backlit case
- Black or color printing
- (4) Cassette Hoppers, (40) Cassettes Per Hopper
- Prints on standard cassettes with 35° to 45° angles with either lid on or lid off, no adjustments needed
- Prints up to 8 cassettes per minute
- Thermal transfer printing at 300 dpi
- Chemical-resistant ink for cassette identification
- **Ribbons:** Black (4,300 prints), CMYK (550 prints)
- **Output Capacity:** 7 Cassettes, 17 with Extension Tray
- **USB Interface:** ability to integrate with Laboratory Information Systems

PRI 78405 Manual Cassette Label Printer Each

PRI 78407 Cassette Hopper Auto Loader Each

PREMIERE® SLIDE WARMERS

- Thermal heater ensures heat transfer over entire surface
- Anodized black surface provides contrast with samples
- Simple digital temperature controller
- **Temperature Range:** Room Temperature to 75°C

CAS XH2001	XH-2001 Slide Warmer Dimensions: 25"L x 8"W Capacity: Holds 66 Slides	Each
CAS XH2002	XH-2002 Slide Warmer Dimensions: 10¼"L x 7"W Capacity: Holds 23 Slides	Each

PREMIERE® STEP UP SLIDE WARMER

- Unique design accommodates twice the number of slides as a flat unit of the same size
- Easy slide retrieval since end of slide isn't on flat surface
- Anodized black surface provides contrast with samples
- Simple digital temperature controller
- Removable tray for easy cleaning
- **Temperature Range:** Room Temperature to 75°C
- **Dimensions:** 14"L x 14"W x 4"H
- **Capacity:** Holds 40 Slides

CAS XH2003	Step Up Slide Warmer	Each
-------------------	----------------------	------

PREMIERE® DIGITAL WAX TRIMMER

This Wax Trimmer has a compact and powerful build that is perfect for medical and research laboratories. It boasts a magnetically secured tray and a disposable tray liner that collects melted paraffin, making for easy and clean disposal. It is efficient and practical for removing excess paraffin from tissue cassettes. With this wax trimmer, there is no need to scrape the collection tray.

- Digital control panel monitors changes in heat level and to adjust temperature
- Adjustable heat setting
- Trimming of multiple cassettes simultaneously to save operator time
- Red LED light alerts users when the unit is on and heating, ensuring user safety
- **Temperature Range:** Room Temp. to 120°C
- **Power Requirements:** 150W

LINISTAT™ LINEAR STAINER

- Compact answer to H&E frozen section protocols
- Dependable, economical way to automate staining; uses a conveyer to prepare consistently stained slides
- Can use for hand-staining when the situation requires
- Efficient footprint fits on top of most cryostats for streamlining workflow during frozen sectioning
- **Includes:** (14) Staining Stations (20 Seconds Each), Running Water and 13-Slide Capacity Collection Tank
- **STAINING TIME IS UNDER FIVE MINUTES**
- Color-coded slide clips correspond to Thermo Scientific Cryochrome™ colored slides and colored frozen section embedding media
- **Dimensions:** 6.25"D x 25"W x 18.4"H
- **Clearance Height:** 9.75"; **Weight:** 16.3 lbs

HISTOPRO® 414 LINEAR STAINER

- American made H&E stainer designed specifically for the needs of a Mohs surgery laboratory
- Fits on top of most cryostats
- Ideal for H&E stains up to 4 slides per slide carrier
- Continuous loading feature to keep up with lab demand
- Programmable station timing from 2 to 300 seconds
- 14 reagent stations include 3 running rinse water stations
- Holding station for 16 processed slides
- Only 50mL per reagent container
- Up to 900 slides per hour at 10-second station time

“G SERIES” DUCTLESS FUME HOODS

- Portable tabletop design requires no outside venting
- Systems are designed to enclose both materials and operations under negative pressure to prevent airborne contaminants from escaping into the work environment
- Contaminated air is drawn through a variety of filters to remove pollutants
- Filters are available for both vapors and particulates and they can be combined for multiple substance filtration
- Hoods are constructed of clear, thick, polycarbonate and acrylic panels with sturdy aluminum framing
- Clear vinyl curtain provides easy access while maintaining optimal airflow across the opening

NOTE: FILTERS SOLD SEPARATELY

AIR G24	32½”H x 24”W x 18”D	Each
AIR G30*	32½”H x 30”W x 18”D	Each
AIR G50	32½”H x 50”W x 18”D	Each

BENCHTOP FUME ADSORBER

- For light duty histology coverslipping and staining areas
- Activated carbon media adsorbs organic odors and noxious vapors released by solvents (ie. xylene, toluene) while clean air is recirculated into the laboratory
- Acrylic canopy enclosures are shatter-resistant, low profile, completely portable and require no ductwork
- Glacier white, dry powder, epoxy-coated steel housing with perforated baffle for uniform airflow
- Built-in, motorized impeller’s face velocity up to 35 fpm
- Uses activated carbon, formaldehyde or ammonia filter
- **Exterior Dimensions:** 15.4”H x 23.4”D
- **Interior Dimensions:** 13.5”H x 14.5”D

LAC 3955200	Interior: 13½”H x 14½”D	Each

MERCEDES SCIENTIFIC® CARBON FILTERS

- Sold individually, this line of activated carbon filters provide a high-value, low-cost generic alternative for both Leica® and Shandon® machine filters
- Cartridges contain a high quality extruded activated carbon
- Absorb most organic and inorganic vapors including xylene, toluene, methanol, formalin, isopropyl alcohol and industrial denatured alcohol
- Ensure and maintain safe air quality in the laboratory
- Low cost allows more frequent changing and improves personnel safety

ASSORTED CARBON FILTERS

FORMALDEHYDE specialty carbon filters are treated carbons that combine a chemical reaction with carbon's adsorption capacity. Compounds are broken down into the various elements for easy adsorption. Dual stage with monitoring port feature (**FRC9**) detects vapor breakthrough between filters; offering further layer of protection to users.

ORGANIC CARBON filters are used in a variety of Labconco® enclosures which require periodic replacement.

AIR FRC4
Formaldehyde Filter
DIMENSIONS: 10" x 17" x 2"
*For G-Series Hoods, Scavengers,

AIR FR4
Activated Charcoal Filter
DIMENSIONS: 10" x 17" x 2"
*For G-Series Hoods, Scavengers,
HS3000, RF1000*
QTY: Each

ACTIVATED CHARCOAL or coconut shell carbon is effective in adsorbing most commonly found organic vapors and odors. It can adsorb up to 50% of its own weight. Standard activated carbon does not have much capacity for some reactive gases. Where gases are chemically reactive, specially impregnated carbon can be recommended.

POTASSIUM PERMANGANATE filters remove high levels of dense smoke, odors and other chemicals that charcoal can not.

RECYCLING SYSTEM FEATURES

- Guaranteed to save laboratories money, time, energy and effort all while helping out the community's environment
- Safe, simple and easy to use, all the while requiring very little lab space
- Run on gravity, can be used anywhere, no electricity or heating of formalin required
- Customizable to meet your specific lab needs

AIR FILTRATION SYSTEM

- Minimizes exposure from hazardous fumes and odors caused by alcohol, xylene, formalin, solvents and others
- Requires very little space and is designed to be placed on the floor or counter
- Improves air quality in laboratories
- Works quietly and efficiently 7 days/week, 24 hours/day
- **Dimensions:** 23"H x 11"W

Air Filtration System Replacement Filter (CWS AFSRF) is specifically designed to help capture and absorb harmful chemical fumes and vapors. The unique technology of the carbon based filter is designed to absorb these chemicals and vapors, not allowing them to be re-circulated back into the work place.

ROUND PREPARATION TISSUE BATH

- Edges serve as drying surface for processed slides
- Black ceramic coated steel surface for improved visibility of tissue sections
- Equipped with on/off switch, pilot light, and thermostat
- **Includes:** Dust Cover, Thermometer Holder, Rubber Feet
- **Temperature Range:** 35°C to 65°C
- **Dimensions:** 8¼" x 2" (Chamber), 11" x 3¾" (Overall)

BLK 14702 Round Preparation Tissue Bath Each

PREMIERE® ROUND TISSUE BATH

- Low profile, black, finished interior chamber reduces glare to improve visibility of tissue specimens
- Glazed glass lid for easy viewing of interior
- Top ledge allows space for preheating or for evaporating away any remaining water on the glass slides
- Durable fiberglass insulated body prevents heat loss and fluctuations in temperature for uniform surface heating
- **Temperature Range:** Room Temperature to 75°C
- **Dimensions:** 10½" x 8¼" (Overall), 8¼" x 2½" (Interior)

CAS XH1001 Round Tissue Bath Each

PREMIERE® LIGHTED TISSUE BATH

- Low profile design with removable rectangular glass basin, illuminated with LED light from the side
- Easy-to-read LED display shows both set temperature and actual temperature
- Sleeker glass basin for better contrast of specimens
- **Temperature Range:** Room Temperature to 75°C +/- 1°C
- **Dimensions:** 14 x 14 x 4½" (Overall), 10 x 6½ x 2" (Interior)

CAS XH1003 Lighted Tissue Bath Each

STANDARD TISSUE FLOTATION BATH

- Eliminates wrinkles and distortion during preparation of paraffin embedded tissue sections
- Digital microprocessor control with advanced safety over temperature protection
- LED illuminated black background with transparent, removable Pyrex® dish allows specimen to be easily seen
- Nonvolatile memory retains the last temperature set point after being powered on/off
- **Temperature Range:** 5°C to 65°C
- **Overall Dimensions:** 14¼"L x 14¼"W x 4½"H

BLK 145702 Standard Tissue Flotation Bath Each

BLK 145702

INNOVATION BIOLOGICAL MICROSCOPES

- Premium choice for cytologists, doctors, and researchers
- Powerful performance, crisp clarity, rugged construction, and backed by a lifetime warranty on optical and mechanical components
- **Infinity Flat-Field Objectives: 4X, 10X, 20X, 40X and 100X (Oil)** is premium for high contrast and resolution
- Siedentopf-type head is inclined 30° for a comfortable user posture
- Large, graphite-coated mechanical stage withstands wears and tears and accommodates two slides at once
- Ergonomic, durable design ensures dependability and comfort for hours of daily use
- Bright, white, uniform LED illumination maintains constant daylight-color to show stained specimens in their true vibrant colors

LWS INMB04AIPL3	Binocular, 4 Objectives	Each
LWS INMT04AIPL3	Trinocular, 4 Objectives	Each

LWS INMT05AIPL3	Trinocular, 5 Objectives	Each

BIOVID CAMERA & MONITOR

- Essential tool for live presentations and client education
- Premium BioVID HD1080+ camera paired with the 1080p 11.6" HD Monitor provides a bright and beautiful image
- Simply mount the camera onto any trinocular C-mount for amazing resolution and fast-action video (60fps)
- Using the included mouse and SD card, click to save and view images and videos...even side-by-side comparisons
- BioVID HD 1080+ camera features 1920x1080 resolution, increased sensitivity, low-noise and great color rendition to create stunning, high-resolution imaging on the attached 1080p HD monitor, large HDTV or projector
- Extra large pixel size on the Sony IMX236(C) CMOS chip ensures crisp images in bright field (even at high magnifications) while providing the sensitivity needed to view and capture precise images in low light applications such as dark field, phase contrast or epi-fluorescence
- Choose from HDMI and/or USB outputs or save images and videos to the included SD Card

IDEAL FOR A VARIETY OF APPLICATIONS

- Research, Teaching and Demonstrations
- Pathology, Cytology, Oncology, Hematology
- Semen Evaluation
- Dental Applications
- Industrial and Manufacturing

LWS BVC1080CMT3	Camera Only	Each

14 INFINITY MICROSCOPES

- Exceptional optical quality and expandability for top-notch performance in the laboratory
- Rotating head adjusts the height for taller users
- **Infinity Semi-Plan or Plan Objectives** are anti-fungal, parfocal, parcentric and color-coded
- 30-year anti-fungal coating on all lenses
- Cool, long-life LED “daylight” illumination
- **4 Objectives: 4X, 10X, 40XR, 100XR (Oil)**
- Features reverse quadruple nosepiece
- Perfect choice for durability, dependability and superior imaging in the laboratory

- 100XR (Oil)

OPTIONAL CAMERA ATTACHMENT

PREMIERE® PROFESSIONAL BINOCULAR MICROSCOPES

- Objectives face backwards for more space
- Base has a comfortable plastic plating over the metal for less heat conduction
- Field diaphragm adjustment built into the illuminator offers Koehler illumination for more lighting control

FEATURES

- 30° inclined binocular Seidentopf head, rotatable 360°
- Pair of 10X widefield eyepieces, interpupillary distance adjustable from 55mm to 75mm
- Abbe condenser NA 1.25 and Iris diaphragm with filter holder including blue filter
- **DIN Achromatic Parfocal and Parcentered Objectives, Backward Mounted: 4X (N.A. 0.10), 10X (N.A. 0.25), 40X (N.A. 0.65), 100X (Oil Immersion N.A. 1.25) 60XR (N.A. 0.90) MRP5000 ONLY**
- **Magnifications: 40X to 1000X**
- Five objectives and interchangeable condenser system applies to bright field, phase contrast, dark field and polarized light techniques **MRP5000 ONLY**
- Lower position of mechanical stage knob **MRP5000 ONLY**

PREMIERE® PARAFFIN DISPENSER

- Built-in temperature controller and heated faucet keeps paraffin flowing with ease
- **NEW LID WITH HOLE FOR THERMOMETER!**
- Industrial metal outer shell ensures longer life
- Durable stainless steel interior is easy to clean
- **Maximum Temperature:** 72°C tolerance $\pm 2^\circ\text{C}$
- **Interior Dimensions:** 9”L x 10”H
- **Overall Dimensions:** 16”L x 15”W x 18”H

CAS XH4002 2.3GL Large Capacity Each

BOEKEL® PARAFFIN DISPENSER

- Stainless steel outer casing
- Rapid warm-up with an advanced safety over temperature cut-off
- Heated valve ensures a consistent flow of molten wax
- Inner reservoir screen helps to prevent large particulate from clogging the dispenser valve
- Aluminum inner reservoir provides excellent thermal transfer and temperature control
- Dispenser valve allows precise control of flowing wax and can be locked in the open position if desired
- **Temperature Range:** 40°C to 75°C
- **Overall Dimensions:** 8½”W x 16”H

BLK 145600 1.25GL (5L) Capacity Each

DIGITAL PARAFFIN DISPENSER

- For use in the Anatomical Pathology Laboratory
- Suitable for paraffin dispensing during the preparation and inclusion of paraffin blocks
- **Includes:** Procedure Manual, Power Cable, Spare Fuse, Warranty Certified
- **Temperature Control:** Environment Temperature up to 90°C with a range of $\pm 2^\circ\text{C}$ through Digital Thermostat
- **Overall Dimensions:** 295mm x 310mm x 180mm

CAN MX90 Up to 4L Capacity Each

 Yes. Every month! (For first-time orders)

BOEKEL® LARGE PARAFFIN DISPENSER

The Boekel® Large Wax Dispenser is ideal for larger histology laboratories that require large volumes of paraffin wax when embedding tissue samples. The Large Wax Dispenser has a maximum capacity of 28 liters (7.4 gallons) of wax and is the largest in the industry. This device can be used as the primary source of paraffin wax or to supplement tissue processors and embedding centers. The unit has a heated and filtered spigot to make sure the wax flows freely during operation. The digital control system is easy to use and has a timer based Hot Start system that ensures the wax is melted prior to operation. The unit has a stainless-steel lid and chamber to stay corrosion free for years of use.

- Industry's largest wax capacity for high throughput use
- Quickly Melts – from pellets to molten wax in as little as 4 hours!
- Hot Start feature will automatically start the warming based on set time to eliminate waiting
- Bright easy to use digital display
- Stainless steel lid and wax chamber to resist corrosion
- Heated and filtered wax spigot to keep the wax flowing quickly
- Two-year Warranty
- UL, CE, CSA approved

BLK 1456XL 7.4GL (28L) Capacity Each

GRAVITY CONVECTION OVENS

- Used for part drying, baking, curing, sterilizing, evaporating, heat treating, annealing, and testing
- Heavy steel double-wall construction
- Doors open with high impact thermoplastic handles
- High-density mineral wool insulates work space
- Exteriors have a hard, scratch-resistant hammer finish
- Interiors are made of corrosive-resistant aluminized steel
- Resistive-tubular incoloy sheathed heating elements are engineered for quick run-up and recovery times
- Control panel is equipped with an illuminated ON/OFF rocker switch and a heat-cycle pilot light
- Temperature uniformity greatly improved by perforated heat shield to absorb and distribute radiant heat evenly
- Models have temperature range to 232°C (450°F)

ACCESSORIES

STEEL LOCK BOXES

- Made from galvanized steel for sturdy construction
- Hinges are powder-coated to be rust-resistant
- Insulation maintains temperature for sample integrity
- Protect specimens with standard lock (includes 2 keys)
- Hanging models come with rubber surface protectors in the back corners to protect doors
- Floor models have a dimpled bottom plate to prevent moisture from being trapped

TNR PATHBAGBLU (BLUE)

TANNER SCIENTIFIC® PATHPOUCH™ BIOPSY BAGS

- Manufactured from solvent resistant nylon
- Suitable for processing small biopsy and histological specimens
- The thin mesh (0.2 x 0.2mm) provides excellent fluid exchange and avoids small sample loss.
- Each convenient peel-open bag allows for placing and removing specimens rapidly.
- Easy-to-tear, not stiff

Small Biopsy Bags measure 30 x 45mm

TNR PATHBAG	White	1,000/Box
TNR PATHBAGBLU	Blue	1,000/Box

TNR PATHBAG (WHITE)

OBX 40R

HISTO•WRAP

- Freer flow of liquids, but not for use with acids
- Greater retention of even the smallest specimens
- Hard, lint free surface finish recovers tiny fragments
- Improved diffusion of processing reagents
- Superior wet strength even at 100°C
- Available as squares, rectangles, and filter circles

OBX 225	2" x 2", Square	500/Box
OBX 235	2" x 3", Rectangle	250/Box

CEL 1110 (WHITE)

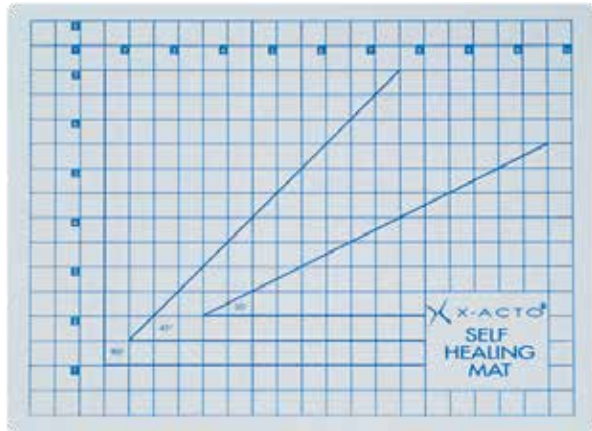

FREE HENRY PLUSH FOR EVERY SEASON WITH YOUR ORDER.

BIO-BOARD™

- Cut-resistant, foam-core board with light blue color and measurement markings provides great color contrast
- For routine grossing, frozen sections and photography
- Can be used multiple times with different quadrants
- Marked with inch and metric rulers and pre-measured circles for quick size referencing
- Incinerate or dispose after use

CAN BB081160 8" x 10", Light Blue 60/Box

REUSABLE CUTTING BOARDS

- Self seal cutting base
- Permanently sealed to eliminate cracking or warping
- 5-ply construction for increased longevity
- Prevents blade run and damage to cutting edges
- Minimal cut marks due to rejuvenating material qualities
- Durable PVC surface allows for easy cleaning

MKI 5800W	12" x 18", White	Each
MKI 5800G	12" x 18", Gray	Each

DISSECTABLE™

- Made of heavy-duty, stain-resistant, thick polyethylene
- Drain groove carved all around the edge contains fluids
- Large cutting area with multiple dimensional scales in inches, centimeters, millimeters and circles
- Other side features two smaller cutting boards also supplied with dimensional scales
- Heavy-duty base elevates DissecTable™ to the right height and will also retain excess fluid if necessary

SIM M618	DissecTable™ Jr., 13" x 11" x 5"	Each
SIM M620	DissecTable™, 23" x 16" x 0.5"	Each
SIM M625	DissecTable™ Board Base	Each

DISPOSABLE CUTTING BOARDS

- Foam inner liner for pinning tissue
- Standard and metric scale on cutting surface
- Reference areas for assessing specimen size
- Ideal for photographic purposes
- Alleviates clean-up worries when working with infected tissues by disposal and incineration
- Excellent for teaching institutions

MKI 5700	Small, 8"W x 6 ² / ₃ "H	48/Pack

CDI® INK AID

An Acetic Acid mordant solution designed to be used with CDI's Tissue Dye formula. CDI's Tissue Marking Dyes are formulated to be used without a mordant, however Ink Aid may aid in adherence to particularly fatty tissue.

- Composition: >93% Water, <6% Acetic Acid, Propylene Glycol
- May aid in adherence to particularly fatty tissue
- Acetic acid solution for use with CDI® tissue dye formula

CAN IA4000 8oz Spray Bottle 5/Box

IPC BLUE™

TOLUIDINE BLUE BIOPSY MARKING DYE

- Ideal for use at the grossing station
- Formula made in 10% neutral buffered formalin
- Dark blue color allows for superior visualization of biopsy during embedding and cutting
- Convenient dispenser bottle prevents spillage or dry out
- Can be added directly to the tissue or on the processor
- No interference with routine H&E, IHC or special staining
- Continues fixation while grossing
- Dye is completely replaced when the slide is stained
- Formalin-based dye won't evaporate as rapidly as similar alcohol-based alternatives

IPC RMRIB-01	1oz (30mL)	Each
IPC RMRIB-02	2oz (60mL)	Each
IPC RMRIB-16	16oz (180mL)	Each

HIGGINS® BLACK INDIA INK

- Ideal at full strength for use in technical pens, lettering pens and airbrushes
- Will not chip, peel, feather or smear
- Can be diluted with water for transparent washes and to produce infinite shades
- For use on paper, board and film

HIG 44201 1oz Bottle

APPLICATOR STICKS

- Ideal for applying or stirring medicines
- Select-grade wood provides a smooth finish
- Made from close-grained white birch

DUK 9000	6" Wooden	1,000/Box
PRA 76200	6" Cotton Tipped	1,000/Box

POINTED WOOD APPLICATORS

- Each wooden stick is pointed on one end
- Made from non-sterile birch wood for multi-purpose use

CAN PT112 Pointed Stick, One End 100/Pack

CAN MD3000

CDI® TISSUE MARKING DYES

- For marking margins and multiple biopsies
- Define margins without bleeding, changing color or fading
- Optimal viscosity for easier application
- Bottles sealed with flip top dispenser cap
- **10 Colors Available:** Black, Blue, Green, Red, Yellow, Orange, Violet, Gold, Teal, Magenta

CAN 0728	8oz Bottle	Each
CAN 0727	2oz Bottle	Each

CDI® TISSUE MARKING DYE MULTI-USE SQUEEZERS KITS

- 4mL prefilled dispenser “squeezers” with caps for recapping unused portion
- Dye holds permanently through processing and staining
- Air-tight packaging keeps dyes from thickening
- **7 Colors Available:** Black, Blue, Green, Red, Yellow, Orange, Violet

CAN MD100	4mL Prefilled Squeezer	15/Box

MERCEDES SCIENTIFIC® BLACK LAB MARKERS

- Designed for use on lab equipment and consumable surfaces including plastic, glass, porcelain and metal
- Fine tip allows for detailed transcriptions on microscope slides and cassettes in permanent ink
- Practical clip prevents rolling away and can be secured on clothes and objects
- Cap can be stored on the end of the barrel to prevent risk of losing it
- Special ink prevents bleeding through the paper

MER MARKER Black Lab Markers 12/Box

EXTRA FINE PERMANENT MARKERS

- Xylene-free formula marks permanently on most surfaces including glass, metal, wood and plastic
- Narrow-barrell marker features fast, nearly instantaneous dry time to help minimize smudging and smearing

VAR PIL44102	Black	12/Box
VAR PIL44103	Blue	12/Box
VAR PIL44104	Red	12/Box
VAR PIL44105	Green	12/Box

TUNGSTEN-POINT LAB PEN

- Permanently mark glass slides, test tubes and labware
- Sharp, tungsten carbide tip etches glass, ceramic and plastic, and is retractable for safe storage

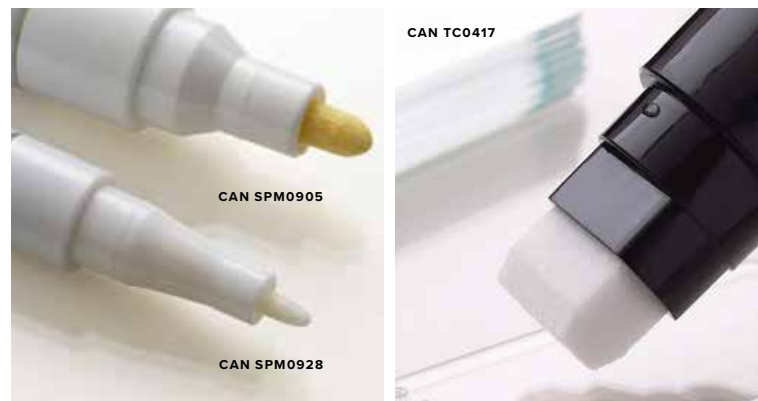

HEA HD1846 Tungsten-Point Lab Pen Each

KP MARKER PLUS®

- Laboratory marking pen is excellent for use on microscope slides and all types of cassettes
- Can be used as a coverslip marking pen
- Ultra fine point is able to write clearly on such small items as the PCR tubes or microcentrifuge tubes
- Quick drying time and virtually no smudging
- Withstands extremely low temperatures without smearing or fading
- Chemically resistant to most solvents and stains
- Ink is waterproof, smearproof and odorless

KLI KPMARKER KP Marker Plus®, Black 12/Box

SUPER PAP PENS

- Surface tension provided by the circle drawn with the pen ensures that only the amount of antibody solution needed for sufficient reaction will be applied
- Stable up to 129°C in microwave heat

CAN SPM0928	Mini Tip	Each
CAN SPR0905	Regular Tip	Each

TISSUE CAPTURE PEN

- For better adherence of tissue sections to slides
- Pen “charges” approximately 3,500-5,000 slides

CAN TC0417 Tissue Capture Pen Each

BLACK MARKING PENCILS

- Smooth dark writing on slides and cassettes
- Formulated for laboratory use

CAN N1000 Black Marking Pencil 12/Box

EPREDIA™ HISTOPLAST

- Formulation comprised of paraffin and plastic polymers
- Excellent processing yields thin, wrinkle-free sections

FIS 8330	Histoplast PE, 2lb	54° to 57°C	8/Case
FIS 8331	Histoplast Plus, 2lb	56°C	8/Case
FIS 8332	Histoplast LP, 2lb	50° to 54°C	8/Case

EPREDIA™ PARAFFIN TYPE 1, 3, 6, 9

- Flake form has a greater surface-to-weight ratio than pellets resulting in a faster melting time
- **Type 1:** contains no polymer, offers rapid infiltration
- **Type 3:** contains minimal polymer, offers fast infiltration
- **Type 6:** harder than Type 3, allows thinner sections
- **Type 9:** highest polymer content, extremely thin sections

ITEM#	DESCRIPTION	MELTING POINT	UOM
FIS 22050124	Type 1, 2lb	55° and 57°C	10/Case
FIS 22050125	Type 3, 2lb	55° and 57°C	10/Case
FIS 22050126	Type 6, 2lb	55° and 57°C	10/Case
FIS 22050127	Type 9, 2lb	55° and 57°C	10/Case

PUREAFFIN®

- Ultra-purified paraffin wax with additives to enhance infiltration, impart elasticity and provide easier cutting
- For open and closed tissue processors
- Blended to provide thorough tissue impregnation
- Facilitates excellent sectioning attributes

PureAffin® I™: Formulated with DMSO for enhanced infiltration and elasticity, ideal for infiltrating fatty tissues

PureAffin® E™: Use as a two-step paraffin system with *PureAffin® i™* or one-step for infiltration and embedding

PureAffin® Blue™: Tinted blue provides an optimal color contrast to clear or white biopsies; for superior cutting

PureAffin® X™: Harder paraffin with a lower melting point

ITEM#	DESCRIPTION	MELTING POINT	UOM
CAN EEPAR1	PureAffin® I	~56°C	8/Case
CAN EEPAR2	PureAffin® E	~56°C	8/Case
CAN EEPAR2B	PureAffin® Blue	~56°C	3/Case
CAN EEPAR3	PureAffin® X	50-53°C	3/Case

PARAPLAST®

- **Regular:** paraffin and plastic polymer construction; minimizes wrinkles for clear, smooth tissue specimens; compatible with most solvents and staining techniques
- **Plus:** added dimethyl sulphoxide (DMSO) improves rate of tissue infiltration, easier for cutting difficult tissues
- **Xtra:** unique blend of low molecular weight polymers and paraffin, low viscosity permits complete infiltration

MCC 501006	Regular, 1kg	56°C	8/Case
MCC 502004	Plus, 1kg	56°C	8/Case
MCC 503002	Xtra, 1kg	50° to 54°C	8/Case

PARAFFIN SCRAPERS

- **Floor Scraper:** 49½”L handle, durable 4”W blade
- **Maxi Scraper:** 4”W blade, comfort-grip handle, cover
- **Safety Scraper:** retractable blade, no-slip handle
- **Mini Scraper:** gets into tight spots around microtomes

MKL ML1138	Floor Scraper	Each
MKL ML1139	Blades (ML1138/ML7050)	10/Pack
MKL ML7050	Maxi Scraper	Each

MKL ML7051	Blades (ML7048/ML7049)	100/Pack

PARAFILM®

- Waterproof film prevents both sample evaporation and contamination while protecting anhydrous materials
- Can be folded repeatedly and twisted around sharp surface without rupturing
- More flexible and softer as temperature increases
- Partially returns to original length when tension removed
- Each roll is interlined with paper to prevent adhering
- Ideal for use with culture media

FIS 1337416	2” x 250’	Roll
FIS 1337410	4” x 125’	Roll
FIS 1337412	4” x 250’	Roll

PARAFFIN BRUSH

- Goat hair brush removes paraffin from microtomes and embedding compound from cryostats for better sections
- **Features:** Copper Ferrule, Dark Blue Wood Handle, Dark Bristles and EZ Blade Removal (Magnetic Tip)

CAN SLK1000	9” Brush	Each
--------------------	----------	------

ROUND CAMEL HAIR LACQUERING BRUSHES

- Large nominal sizes
- Each brush has an overall length of 8”
- Hair set in solvent resistant epoxy
- Maroon polished handles
- Fine black camel hair with rustproof seamless aluminum ferrule

NEG-50™ FREEZING MEDIA

- Water-soluble frozen medium yields high-quality sections down to -50°C without chatter
- Leaves no residue after staining
- Buffered to ensure proper alkalinity (pH = 8.0)
- Formulated to prevent tissue separation from the slide
- Available in **FIVE** different colors for easy identification
- Compatible with the Microm Automatic Cryo Approach (ACA) system

FIS 22110617	Colorless, 4oz Bottle	2/Case
FIS 22046512	Orange, 4oz Bottle	2/Case

HISTOGEL® (SPECIMEN PROCESSING KIT)

- Encapsulate and retain even small, friable and viscous specimens during histological processing
- Penetrates without allowing specimen to escape
- Eliminates unwanted discoloration around specimens
- Remains inside the paraffin block during cutting and virtually unnoticeable during sectioning
- **Kit Includes:** (12) 10mL Vials, (2) WonderBlock Cooling Blocks, (1) Dry Bath Incubator, (500) Disposable Pipets

FIS 22110678	HistoGel® Kit	1/Case
---------------------	---------------	--------

FIS 22110678

ULTRAFREEZE

TFM™ TISSUE FREEZING MEDIA

- Advanced formulation supports tissue during cryotomy
- Enables precise cutting with support for cryosectioning at 3 microns
- Freezes tissue quickly without promoting crystallization even at the most extreme temperatures
- Easily remove during fixation and staining procedures without leaving behind residue
- Less curling to allow easier pick-up from the knife edge and flat sections to flow freely under the anti-roll device
- Reduced water content minimizes freeze fracture and does not cause autofluorescence
- Standard frozen sections for clinical diagnosis at 3u-6u are easy to obtain
- Available in **FIVE** colors enables histotechnologists to easily differentiate between multiple sections

TRX TFMC	Clear, 4oz	Each
TRX TFMG	Green, 4oz	Each
TRX TFMR	Red, 4oz	Each
TRX TFMB	Blue, 4oz	Each
TRX TFMY	Yellow, 4oz	Each

ULTRAFREEZE® FROZEN SECTION MEDIA

- Formulated to be an optimal cutting compound for frozen specimens
- Available in **FIVE** colors to optimize cutting efficiency in even the busiest labs
- Does not separate from tissue as it freezes like other frozen compounds
- Snip top with cap for variable dispensing

CAN UF1000	Clear, 4oz	Each
CAN UF1002	Blue, 4oz	Each
CAN UF1003	Green, 4oz	Each
CAN UF1004	Pink, 4oz	Each
CAN UF1005	Yellow, 4oz	Each

MERCEDES SCIENTIFIC® FREEZE SPRAY

- Original and non-flammable options
- Non-flammable freezing compound may be used as a general purpose laboratory reagent
- Fast cooling on thermoplastic appliances or archwires
- Evaporates quickly and leaves no residue
- Contains no ozone depleting compounds (CFC/HCFC)

MER 51022	Original, 10oz Can	Each
MER 51024	Non-Flammable, 10oz Can	Each

MERCEDES SCIENTIFIC® SUB-XERO®

- Designed for immunohistochemical assays, frozen tissue specimens, tissue distribution of proteins and nucleic acid molecules at precise cutting temperatures
- Leaves no residue on slides during staining

MER 5000	4oz (120mL) Bottle	Each
-----------------	--------------------	------

SEE MS. MERRY MOHS AT OUR MOHS TRAINING SESSIONS, HELD SEVERAL TIMES A YEAR AT OUR SUNNY FLORIDA HQ!

HISTOCOOL™

- Keeps ice frozen for long periods of time, stays frozen 6-8 hours on benchtop when kept in freezer overnight
- Freezer gel in sides and bottom keep ice frozen longer than traditional chilling methods
- Lid effectively limits surface from warm-air exposure, making ice last longer
- Space-saving design allows for stacking
- Less trips to the freezer throughout the day

CWS BHC001	Blue, Holds 30 Blocks	Each
CWS RHC001	Red, Holds 20 Blocks	Each

- Non-autoclavable, rust-resistant and dishwasher safe

TAR STRAIN	Stainless Steel Strainers	Set
-------------------	---------------------------	-----

SLIDE STAINING TRAY WITH LID

- Clean, fresh working surface area every time
- Reduce cross contamination and messy work areas
- Compact size and recessed handles for easy transport
- Pour spouts dispose unwanted liquid waste
- Dark lid protects slides for light sensitive applications

HEA HD15951A Holds 8 Slides 4/Pack

STAINTRAY™

- Tough ABS plastic withstands a wide range of chemicals
- Suitable for routine staining requiring a humid chamber
- Base holds excess solution dripping from slides
- Rubber feet ensure greater base stability
- Units are stackable for space saving purposes
- Clear cover allows for visual examination
- Black cover used for fluorescent work

SIM M9181	Clear Lid, Holds 10 Slides	Each
SIM M9182	Black Lid, Holds 10 Slides	Each
SIM M9201	Clear Lid, Holds 20 Slides	Each
SIM M9202	Black Lid, Holds 20 Slides	Each

EASY DIP™ SLIDE STAINING RACKS

- Holds up to 12 slides for use with slide staining jars
- Slides fit into individual slots for free passage and rapid drainage of staining fluids

SIM M90512DGY Dark Gray 6/Case

SLIDETRAY™

- Holds 20 slides in an almost horizontal position
- Stackable for reduced space on any shelf or lab counter
- Convenient microscope slide holder made of heavy-duty plastic to last even under the most adverse conditions
- Slides can be easily removed and inserted into position
- Uses minimum space on any shelf or laboratory counter

SIM M75520W Slide Tray, White 10/Case

EASYDIP™ SLIDE STAINING SYSTEM

- Ideal for frozen sections, special stains and processes
- Staining jars made of resistant acetal plastic
- Resists most staining agents such as alcohol and xylene
- Wide stable base for greater stability while the inside is recessed allowing for a smaller reagent volume of 80mL
- Easy to clean and no metals to corrode

SIM M90012AS	5 Jars (1 of Each Color), 1 Rack (SIM M90512DGY)	Kit
SIM M90012B	Blue Staining Jar	6/Case
SIM M90012G	Green Staining Jar	6/Case
SIM M90012P	Pink Staining Jar	6/Case
SIM M90012W	White Staining Jar	6/Case
SIM M90012Y	Yellow Staining Jar	6/Case

**EASYDIP™ SLIDE STAINING KIT**

- **Kit Includes:** (1) Anodized Aluminum Rack, (6) Assorted Color Jars, (1) Slide Staining Rack (SIM M90512DGY)

SIM M906	Anodized Aluminum Holder	Each
SIM M90612AS	EasyDip™ Slide Staining Kit	Kit

TRAY NOT INCLUDED

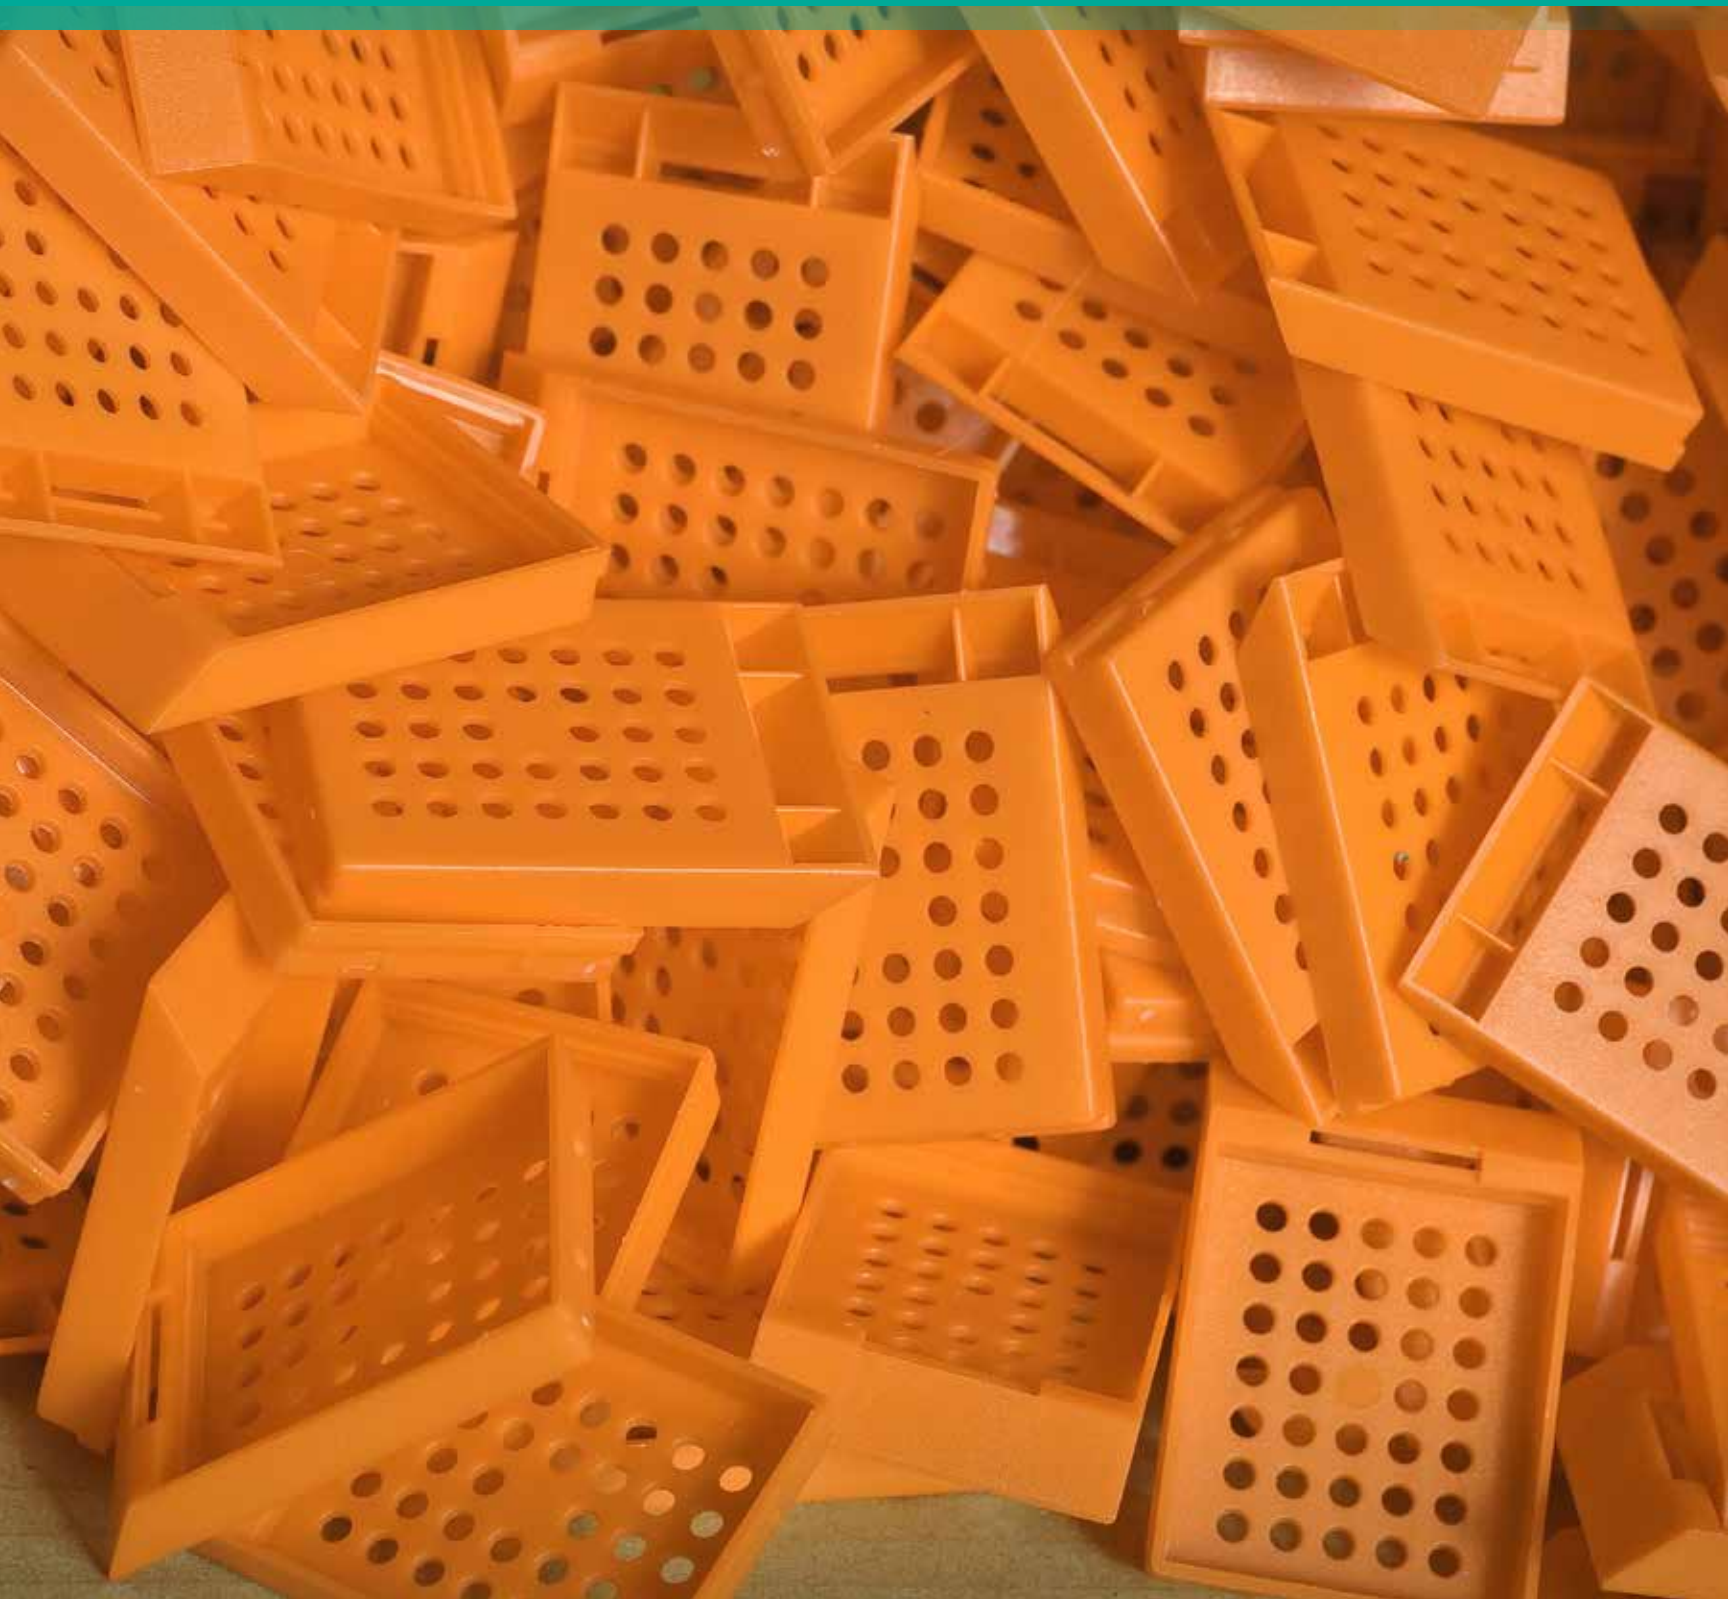

SLIDE STAINING RACK

- Stainless steel resists corrosion under normal use
- Adjustable to fit trays or sinks up to (21") inside
- Adjustment is made by sliding the clips to fit the tank

TAL 954002 23¾"L x 3½"W Each

GLASS STAINING DISHES AND COPLIN JARS - SEE PAGES 64-65

CASSETTES

SuperFLO™ CASSETTES

The SuperFlo™ Cassette, a new generation emerging in the Simport® Histology Family.

- Molded from a special high-density polymer, these cassettes keep specimens safely submerged in liquid and are resistant to the chemical action of most histological solvents.
- Lateral vent design for a maximum fluid exchange and efficient tissue processing.
- Sloped walls, create a basket for small tissue management.
- Available in loose, sleeved, or taped packaging for easy printer loading.

SUPERFLO™ ONE-PIECE MODEL (LOOSE)

This model is a one-piece molded cassette so no separate lids to manage. It can be opened and closed up to five times guaranteed, securely relocking to avoid specimen loss.

	Opening	
SIM M530 Routine Embedding Cassette	0.91 x 3.67mm	1,500/Case
SIM M531 Biopsy Cassette	0.64 x 0.64mm	1,500/Case
SIM M532 Microbiopsy Cassette	0.30 x 0.30mm	1,500/Case

TAPED SUPERFLO™ ONE-PIECE MODEL

Add the color number provided below after the base item#, then add a "T" at the end to indicate "Taped".

	Opening	
SIM M430 Routine Embedding Cassette	0.91 x 3.67mm	1,500/Case
SIM M431 Biopsy Cassette	0.64 x 0.64mm	1,500/Case
SIM M432 Microbiopsy Cassette	0.30 x 0.30mm	1,500/Case

SUPERFLO™ HINGED-HOOK MODEL (LOOSE)

This model has a special hinge that holds the base and the cover together. The hinge design allows the cassette to be opened and closed as often as required.

SLEEVED SUPERFLO™ HINGED-HOOK MODEL

Add the color number provided after the base item#, then add "SL" at the end to indicate "Sleeved". *Sleeved cassettes come 750/Cs.

	Opening	
SIM M533 Routine Embedding Cassette	0.91 x 3.67mm	1,500/Case*
SIM M534 Biopsy Cassette	0.64 x 0.64mm	1,500/Case*
SIM M535 Microbiopsy Cassette	0.30 x 0.30mm	1,500/Case*

TAPED SUPERFLO™ HINGED-HOOK MODEL

Add the color number provided after the base item#, then add a "T" at the end to indicate "Taped".

	Opening	
SIM M433 Routine Embedding Cassette	0.91 x 3.67mm	1,500/Case
SIM M434 Biopsy Cassette	0.64 x 0.64mm	1,500/Case
SIM M435 Microbiopsy Cassette	0.30 x 0.30mm	1,500/Case

EMBEDDING CASSETTES

- Suitable for holding and identifying tissue samples in processing, embedding, and sectioning procedures
- Fit securely in microtome chuck adapters
- Resists the chemical action of most histological solvents
- Standard metal lids (**SIM M481**) keeps specimens in complete safety during processing
- Slanted writing surface accepts markings easily, permitting sample identification throughout all stages of embedding and long afterwards when in archives
- Each case contains (3) dispenser boxes of 500 cassettes

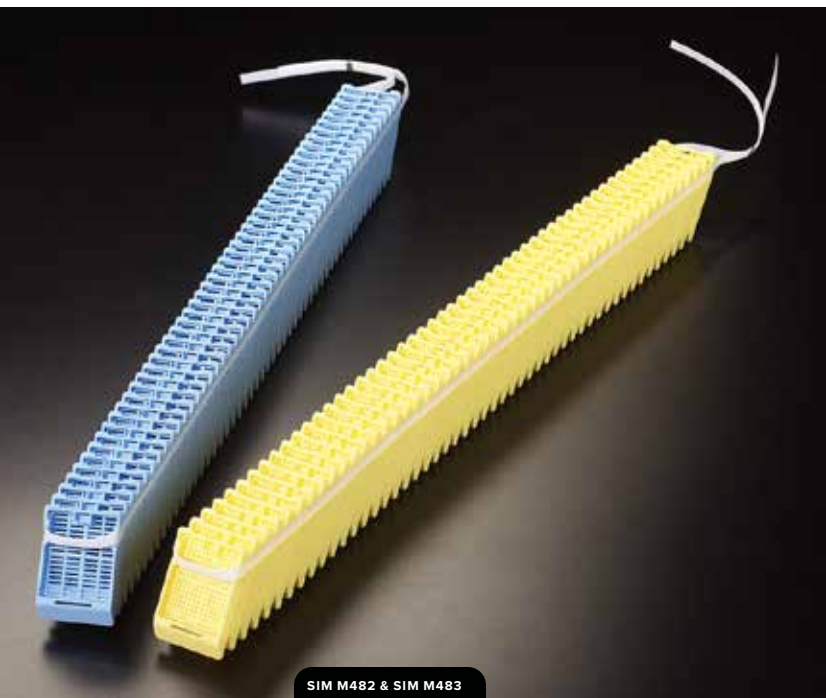

SIM M480	Embedding, No Lid	1,500/Case
SIM M481	Metal Lids for M480	25/Pack

MACROSETTE™ CASSETTES

- Designed to hold larger tissue specimens during the embedding process, as well as in a storage cabinet
- **TWICE AS HIGH AS HISTOSETTE® CASSETTES (13MM)**
- One-piece integral lid eliminates the need for steel lids
- Can be opened and closed as often as necessary and always relock securely without danger of specimen loss
- Large labeling areas are located on three sides of the cassettes for convenience
- Each case contains (3) dispenser boxes of 250 cassettes

SIM M512	Embedding, White	750/Case

HISTOSETTE® I CASSETTES

- Molded from a special high density polymer
- Keep specimens safely submerged in liquid
- Resists the chemical action of most histological solvents
- Efficient flow-through slots maximize fluid exchange and ensure proper drainage
- One-piece integral lid eliminates the need for steel lids
- Just snap apart and conveniently lock the lid into the base of the cassette
- Can be opened and closed as necessary and always relock securely without danger of specimen loss
- **M490/M491:** Not suitable for automated printers
- **M498/M499:** Anterior writing area is 45° instead of 30°
- Each case contains (3) dispenser boxes of 500 cassettes

SIM M490	Tissue, 30° Angle	1,500/Case
SIM M491	Biopsy, 30° Angle	1,500/Case
SIM M498	Tissue, 45° Angle	1,500/Case
SIM M499	Biopsy, 45° Angle	1,500/Case

HISTOSETTE® II CASSETTES

- Molded from a special high density polymer
- Keep specimens safely submerged in liquid
- Resists the chemical action of most histological solvents
- Efficient flow-through slots maximize fluid exchange and ensure proper drainage
- Anterior writing area is slanted at a 45° angle

M485/M486

- Most convenient for cassette labeling instruments since covers are already removed from cassettes and are packaged separately in the case
- Each case contains (2) dispenser boxes of 500 cassettes and (1) dispenser box of 1,000 covers

M492/M493

- Can be opened and closed as necessary and always relock securely without danger of specimen loss
- One-piece integral lid eliminates the need for steel lids
- Each case contains (3) dispenser boxes of 500 cassettes

SIM M485	Tissue, Lids Separate	1,000/Case

SLIMSETTE™ CASSETTES

- Unique recessed cover allows cassettes to be stacked in automatic labeling machines and in storage cabinets
- Molded from a special high density polymer
- Keep specimens safely submerged in liquid
- Resists the chemical action of most histological solvents
- Can be opened and closed as often as necessary and always relock securely without danger of specimen loss
- Large labeling areas for easy identification
- Anterior writing area is slanted at a 45° angle
- **M509:** 114 openings each measuring 1 x 5 mm
- **M510:** 392 openings ensure maximum fluid exchange
- **M511:** 4 square compartments each measuring 13mm
- Each case contains (3) dispenser boxes of 500 cassettes with covers assembled

SIM M509	Tissue, 1 Compartment	1,500/Case
SIM M510	Biopsy, 1 Compartment	1,500/Case
SIM M511	Tissue, 4 Compartments	1,500/Case

SWINGSETTE™ CASSETTES

- Molded from a special high-density polymer
- Keep specimens safely submerged in liquid
- Resists the chemical action of most histological solvents
- Efficient flow-through slots maximize fluid exchange and ensure proper drainage.
- Special hinge holds the base and cover together, allows cassettes to be opened and closed as often as necessary
- Cover can be removed and re-inserted easily without danger of specimen loss
- Large tab for convenient and easy opening of lid
- Anterior writing area is slanted at a 45° angle

M515/M516

- Each case contains (3) dispenser boxes of 500 cassettes

M517/M518

- Covers are packaged separately in the case
- Each case contains (2) dispenser boxes of 500 cassettes and (1) dispenser box of 1,000 covers

UNISETTE™ CASSETTES

- **GREAT ALTERNATIVE TO SAKURA UNI-CASSETTE®**
- Molded from a special high density polymer
- Keep specimens safely submerged in liquid
- Resists the chemical action of most histological solvents
- Efficient flow-through slots maximize fluid exchange and ensure proper drainage
- One-piece integral lid eliminates the need for steel lids
- Snap-latch and hinge-lock design stop early separation of base and lid and allows for one-hand operation
- Can be opened and closed as often as necessary and always relock securely without danger of specimen loss
- Anterior writing area is slanted at a 35° angle
- Each case contains (3) dispenser boxes of 500 cassettes

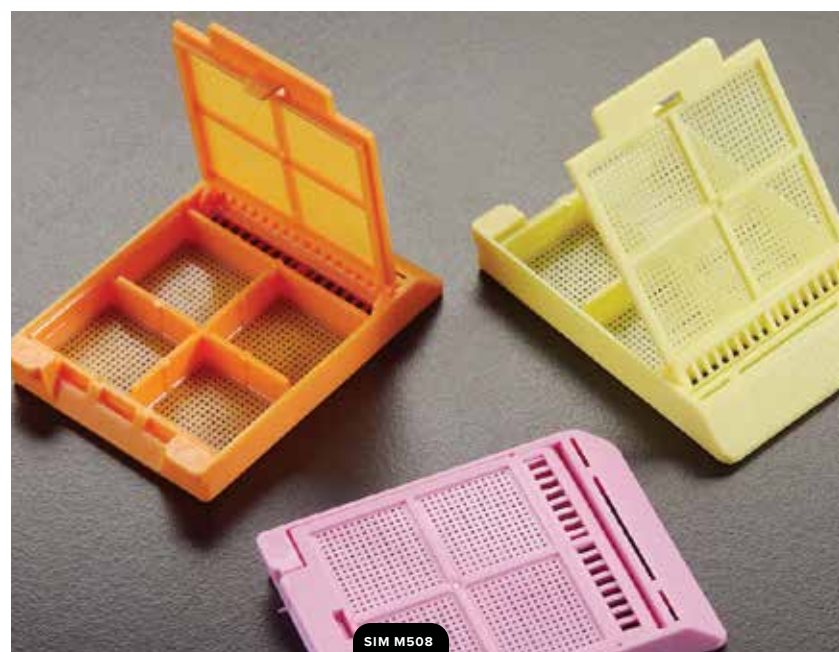

SIM M505	Tissue	1,500/Case
SIM M506	Biopsy	1,500/Case

MICROMESH™ BIOPSY CASSETTES

- **NO BIOPSY PADS REQUIRED**
- Offers 1,676 square openings (0.38mm) allowing for a greatly improved fluid exchange and drainage without having to use biopsy pads
- Large anterior slots in both cassette and cover ensure the Micromesh biopsy cassette will sink rapidly
- Large square compartment measuring 27mm is perfect even for needle biopsies
- Cover does not protrude above the cassette to save space allowing more cassettes to be stacked in automatic labeling machines and tissue processors
- Molded from a special high density polymer
- Keep specimens safely submerged in liquid
- Resists the chemical action of most histological solvents
- Can be opened and closed as often as necessary and always relock securely without danger of specimen loss
- Anterior writing area is slanted at 45° to make cassette more suitable to use with automated cassette printers
- Each case contains (4) dispenser boxes of 250 cassettes with covers assembled

SIM M507	Single Compartment	1,000/Case
SIM M508	Four Compartments	1,000/Case

SPECIALLY DESIGNED FOR AUTOMATED & MANUAL PRIMERA® CASSETTE PRINTERS

SLEEVED CASSETTES

- **ESPECIALLY FOR USE WITH THERMOFISHER PRINTERS**
- Suitable for hoppers; QuickLoad™ sleeve will load in cassette labeling instruments in one simple operation
- Transparent sleeve allows viewing of cassettes in order to confirm there is no jam in sleeve during printing
- Molded from a special high density acetal polymer
- Keep specimens safely submerged in liquid
- Totally resistant to the chemical action of most solvents used in histology laboratories
- Efficient flow-through slots maximize fluid exchange and ensure proper reagent drainage
- Each case contains 10 sleeves of 75 cassettes
- **SWINGSETTE™**: 10 bags of 75 lids packaged separately

ADVANCED ADHESIVE SLIDES

- Hydrophilic, coated slides were specially developed for use in Immunohistochemistry and harsher applications
- Stronger adherence means no tissue falls off anymore
- Improved light transmission, no autofluorescence
- Made to a new low iron, soda-lime glass formulation

MER 8888	White, 90°, Adhesive	1,440/Case
-----------------	----------------------	------------

PATIENT CONTROL SLIDES

- Ideal for staining procedures that require a control
- Spaces for the patient sample and the control material
- 2 samples can be separated by the red line, which is printed on the reverse side for reagent movement
- Coated to provide maximum tissue adhesion

MER 9999	Adhesive, 90°, Coated	1,440/Case
-----------------	-----------------------	------------

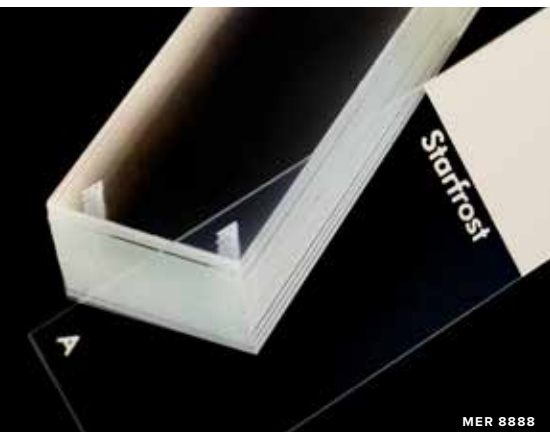

1.1MM THICK SLIDES

MER 7800	White, 90°	1,440/Case
MER 7850	Twin Frost, 45°	1,440/Case
MER 7860	Twin Frost, 90°	1,440/Case

1.2MM THICK SLIDES

- Highly resistant to corrosion and moisture
- Made of high-quality glass with edges that are ground smooth to help eliminate sharp cutting surfaces

MER 7200/90/WH/1.2MM	White, 90°	1,440/Case
-----------------------------	------------	------------

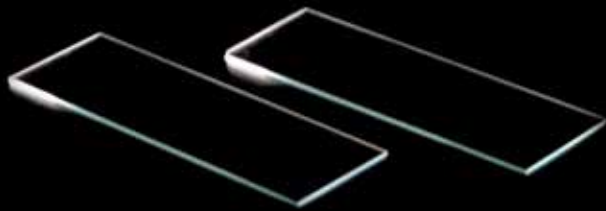

MER 8888

MER 7800

MER 9999

MER 7515

PLAIN SLIDES

- Clear, precleaned, premium-quality, water-white glass
- Corrosion resistant glass with smoothly polished edges
- Cost-effective slides for general-purpose applications
- Unmatched transparency and absence of glass color tint

MER 7500	45° Edge	1,440/Case
MER 7515	90° Edge	1,440/Case

MER 7550

TWIN FROST SLIDES

- Non-corrosive, non-fog, precleaned, water-white glass
- For blood smears or routine microscopy applications
- Brilliant white opaque coating retains pen markings
- Superior readability for easier slide identification

MER 7550	45° Edge	1,440/Case
MER 7760	90° Edge	1,440/Case

CIRCLE SLIDES

- Standard diagnostic slides with 1 or 2 printed white rings serve as a microscope to find centrifuged cells easier
- Suitable for use with cytocentrifuges

WHITE, 90°

MERCEDES SCIENTIFIC® ADVANCED ADHESIVE SLIDES

- Hydrophilic, coated slides were specially developed for use in immunohistochemistry and harsher applications
- Stronger adherence means no tissue falls off anymore
- Improved light transmission, no autofluorescence
- Made to a new low iron, soda-lime glass formulation

MER 8888 90°, White, Adhesive 1,440/Case

MERCEDES SCIENTIFIC® IHC+ MICROSCOPE SLIDES

- **Dimensions:** 12 x 75 x 1mm
- Fortified adhesion brought about by new coat material
- High transmittance for fluorescence observation
- Designed to be compatible with immunohistostainers

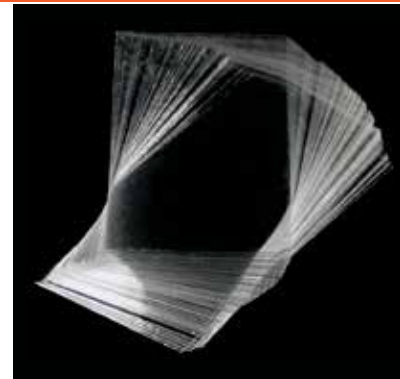

MER 1111 45° Adhesive 100/Box

TOMO® HYDROPHILIC ADHESION SLIDES

- Superior tissue adhesion, staining performance, and slide surface fluidics
- Manufactured using optically clear, exceptionally flat, low fluorescence glass
- Slides are finished with clipped
- Proprietary slide coating ensures consistent performance, even after exposure to heat stress and humid environmental conditions
- Recommended for use on Ventana Benchmark staining platform and automated IHC platforms

TOM 11	45° White, 12 mm x 75 mm	Thickness 1.0mm	1,000/Case

TANNER SCIENTIFIC® COVERGLASS

- Suitable for a host of laboratory applications: cytology, histopathology, microbiology and life sciences
- High-quality, thin, disposable coverglass provides the perfect clarity techs want and need while their non-stick treatment makes them easy to handle
- Packaged 1oz per box, 10oz per case
- **Thickness: #1 = 0.13-0.17mm, #1.5 = 0.16-0.19mm**
- **Note: 2oz per box, 20 boxes per case***

TNR 2222	22 x 22, #1	10oz/Case

TNR 24601.5	24 x 60, #1.5	10oz/Case

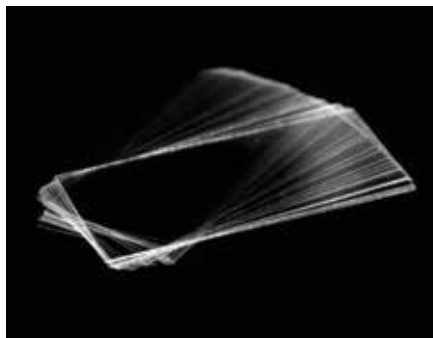

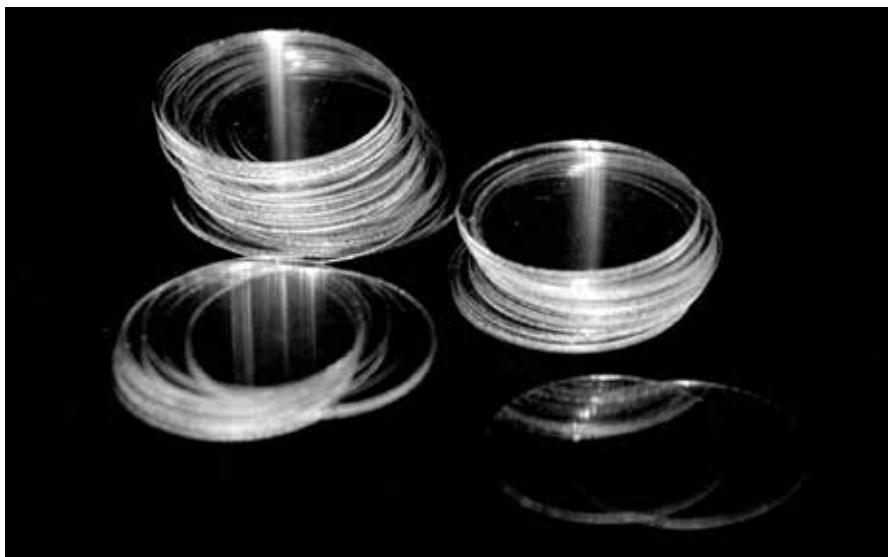

TANNER SCIENTIFIC® COVERSLIPPING FILM

- **Length:** 75 Meters, **Width:** 24mm
- Usable in all automatic film coverslippers
- Free of aromatic solvents like Xylol and Benzol
- "Vario Texture" surface structure allows for a better distribution of solvent drops without any effects on the high transparency of the film after coverslipping
- Can use for a minimum of 12 months after manufacturing

TNR TAPE Coverslipping Film Each

MERCEDES SCIENTIFIC® COVERGLASS

- Made of a water-white colorless borosilicate glass with an optimum hydrolytic resistance
- Ultra thin coverglass - German manufactured
- Performs exceptionally well on all automated glass coverslippers and is Leica® recommended
- Very fine glass particles powder the surface to prevent sticking caused by stacking flat coverglass
- **Thickness: #1 = 0.13-0.17mm, #1.5 = 0.16-0.19mm**

UNIMAILER™

SINGLE PLASTIC SLIDE MAILERS

- Accommodates slides with or without cover glass
- Secured stacking by an innovative locking mechanism
- Attach an ID label or tamper-evident tie through holes
- Avoids any vibrations or breakage during transport
- Available in pastel colors for easy identification

SIM M800100B	Blue	200/Case
SIM M800100G	Green	200/Case
SIM M800100P	Pink	200/Case
SIM M800100W	White	200/Case
SIM M800100Y	Yellow	200/Case

LOCKMAILER™

MAGENTA MICROSCOPE SLIDE JARS

- Tamper evident multi purpose container for mailing, staining or storing microscope slides
- Constructed of extra-strong, clear polypropylene
- Holds up to 4 standard (1" x 3") slides vertically
- Inside channels slotted to keep slides safely separated
- Unique tamper evident leakproof screw cap prevents someone from manipulating your slides during transport or storage situations without your knowledge
- Can use without the tamperproof locking mechanism
- Perfect also for slide conveyors and specimen slide transport between the doctor's office and the lab
- Designed for maximum stability on a bench top while having an internal volume of only 12mL
- CapInsert™ (**SIM T345 Series**) may be inserted on top of closure for color coding purposes (**10 Colors Available**)

SIM M9504MA	Holds 4 Slides	500/Case
--------------------	----------------	----------

CAPINSERT™

The Capinsert™ is used to color-code a multitude of Simport® products according to your specific needs. It is inserted on top of the closure and has a write-on frosted area for sample identification.

- Made of polypropylene
- Write-on frosted area for sample identification
- **COLORS AVAILABLE:** Blue, Gray, Green, Lilac, Orange, Pink, Red, Violet, White, Yellow, Assorted

SIM T345	CapInsert™	500/Case
-----------------	------------	----------

HEA HD15983A

2-PLACE PLASTIC SLIDE MAILERS

- Ideal for secure shipping and storing of slides
- Polypropylene protectors hold 2 standard (1" x 3") slides
- Large, easy-to-secure snaps for safe storage
- Array of colors brings some fun to the laboratory and is useful for color coding
- **ASSORTED COLORS:** Red, Yellow, Blue, Purple, Orange

HEA HD15983A	Assorted	25/Pack

CARDBOARD SLIDE FOLDERS

- Convenient solution for safely working, transporting and short-term storing of slides
- Easily organize slides with the index on the front cover that corresponds with the number grid inside
- Recessed horizontal compartments and inside covers protect specimens when closed to reduce contamination
- Front protection flaps attached by tape for repeated use
- Thumb cut in slide compartments enables easy removal of slides with slight pressure at one end
- Fold flaps flat under the slide holder to save space
- Multiple colors for increased coding and organization

20-PLACE SLIDE TRAY RACKS

- Holds up to (5) 20-place slide folders (**NOT INCLUDED**)
- Ideal for microbiology, histology and pathology fields
- Eliminates the worry of breakage during retrieval
- Matching clasps provide area for identification labels and doubles as a handle (**EACH RACK INCLUDES 5 CLASPS**)
- Portable and refrigerator safe for cold sample storage
- Stack multiple units to create your very own library
- **Dimensions:** 226mm x 340mm x 125mm

VIEW-PACK™ SLIDE HOLDER

- Standard (9" x 12") 3-ring binder with ten (8½" x 10½") vinyl microscope slide holder pages (160 slides total)
- Each page holds (16) 1" x 3" slides in individual pockets with a white back and clear front
- Center flap holds slides securely
- Fold the page at the center crease to retrieve slides

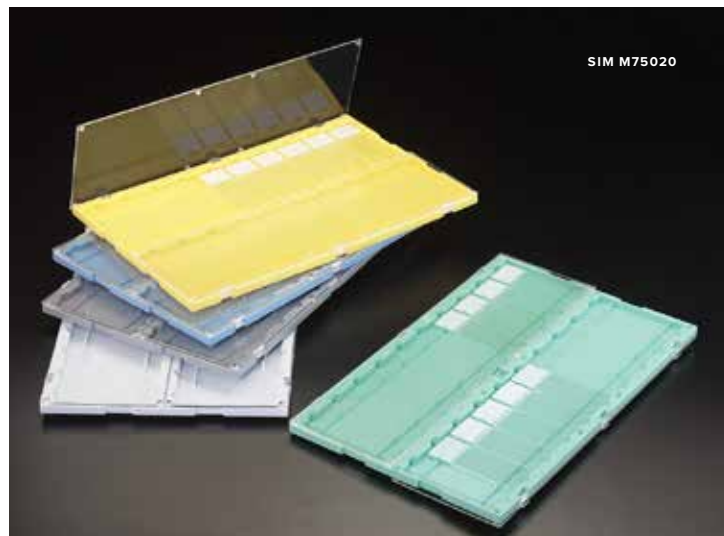

BEL 441700000	Slide Holder Binder	Each
BEL 441710000	Slide Holder Pages	10/Pack

SLIDE HOLDERS

- Hold slides during evaluation, cleaning and drying
- Made from chemical-resistant polyethylene
- Solid, strong construction with rubber feet for stability

HEA HD15981A	Holds 40 Slides	Each
HEA HD15981B	Holds 78 Slides	Each
HEA HD15981C	Holds 15 Slides	Each

20-PLACE PLASTIC SLIDE FOLDERS

- Base holds slides horizontally with numbered spaces
- Transparent hinged covers allows easy reading of ID labels with or without an optical bar code reader
- Removal of slides is made easy simply by pressing on one end, which will automatically lift the other end
- Stackable units take minimum space on tables or shelves
- Resist temperatures between -80°C and +80°C

SPONGE BLOCK SPACER IN SLIDE CABINET DRAWER

BLK 901-0007

TANNER SCIENTIFIC® 6-DRAWER SLIDE CABINET

THE PERFECT SOLUTION TO A LABORATORY'S MICROSCOPE SLIDES ORGANIZATIONAL NEEDS

- Holds up to 5,000 (1" x 3") slides
- Solid steel construction and chemical resistant finish ensure many years of safe and secure slide storage
- Features black pull knob drawers and metal dividers
- Stackable up to 10 cabinets high
- All six drawers slide smoothly and easily
- **BASE OPTION AVAILABLE**
- **Dimensions:** 15¾"W x 19"D x 5"H

TNR 2000	6-Drawer Cabinet	Each
TNR 2001	Base for TNR 2000	Each

EBERBACH® 2800 SERIES MICROSCOPE SLIDE CABINETS

- Safe, short-term and long-term storage of prepared slides can easily be indexed for retrieval
- Hinged doors ensure long operation and a close fit
- Sturdy aluminum slide trays, numbered in sets of 25, are removable and interchangeable between cabinet systems
- Individual compartments for laying slides flat, maintain cover glasses in place, preserving your work year round
- Nominal capacity can be doubled, as two micro slides can be stacked in each compartment
- Flat sides and disappearing door of the unit system provide for easy stacking and/or banking
- Cabinet system will initially handle a larger number of slides with drawer space at the bottom for a card index
- Replacement slide trays sold separately

EBE 2800	Holds 500 Slides	Each

TALL PREMIUM SLIDE BOX

- Sturdy ABS material for rugged use
- Grooved slots hold individual slides in place
- Soft cork lining ensures slides will not slip
- Numbered identification card, lining and grooved slots
- Additional space for larger (2" x 3") microscope slides

HEA HD15979A Blue, Holds 100 Slides Each

TRUE NORTH® SLIDE BOX

- Durable polycarbonate and stainless steel clasp
- Store in ultra-low temperature ranges down to -80°C
- Uniform grooved slots separate slides to stop contact
- Includes temperature-resistant numbered foam lining and identification sheet

HEA HD15988H Purple, Holds 100 Slides Each

STANDARD SLIDE BOXES

- Constructed of durable polypropylene with no liner
- Hinged lids held securely closed by latch lock
- Stacking feet maximize stability
- Includes identification card

MERCEDES SCIENTIFIC® QUIK-DIP® STAIN

The Quik-Dip® Stain is a high-quality, quick-time staining kit that serves numerous purposes in today's cost-conscious lab setting. It can be used for fine needle aspirations, cytology, blood smears, bone marrow biopsies as well as bone marrow smears, touch preps, and can be used to detect H.Pylori. The kit contains a fixative for air-dried cell suspensions and/or touch prep slides.

F50

NON-GYN SLIDE PROCESSOR

ITEM # CES CS50F

This liquid-based non-gyn cytology system features more cells per slide and does not need duplicate preps.

DUAL FILTRATION TECHNOLOGY

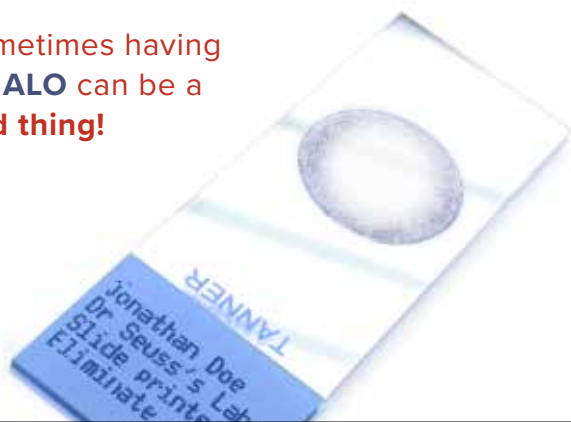

- Disposable filter designed to remove non-diagnostic material to optimize cell presentation
- Cells of interest are transferred to the slide in a homogeneous thin-layer cell deposit
- Filters are available in 20mm and 14mm diameters, thereby improving cell yield and presentation

CELLSOLUTIONS® F50 SPECIFICATIONS

- **Throughput:** 50 samples/hr. Semi-automated
- **Dimensions:** 11"W x 15"D x 8.5"H; **Weight:** 31 lbs

The CellSolutions® double membrane technology yields cellular preparations with increased cellularity, presentation, and stain quality on 93.75% of the specimens tested when compared to other liquid based methods.¹

Sometimes having
a **HALO** can be a
bad thing!

FINALLY

Something New
After 20 Years!

FASTER

Slide is ready to stain in 20 seconds.

CHEAPER

Less expensive to acquire and operate. Costs a fraction of the others.

BETTER

Slides will be better looking and easier to read.

¹ Smith D., Espinoza, A., Vega, I. "Comparison Study of Traditional Cytology Non-Gyn Processing Techniques to Specimens Processed with CellSolutions Method".
2017 American Society of CytoPathology Meeting; Poster Publication

The **CellSolutions®** preservatives and the **CellSolutions® F50** provide a high quality and efficient method for liquid-based non-gyn cytology processing.

We Have Enhanced Preservatives:

- Effectively lyses red blood cells and removes hemoglobin and proteins in solution
- Maintains cellular morphology
- Offers ability to perform ancillary molecular testing
- Classified as non-hazmat; no additional shipping charges, processing or specimen transport fees

Red Lytic Preservative

- Preservative fluid formulated for the preservation of non-cervicovaginal (non-gyn) cells in suspension
- Thin-layer cytology slides are processed from these cell suspensions using the CellSolutions® Automated and GluCyte™ Manual Methods for cytology slide preparation
- Slide preparations are evaluated for the presence of cancer or its precursor lesions by cytotechnologists and pathologists trained to evaluate CellSolutions® prepared slides.

- Antioxidant included to prevent the fading of standard hematoxylin and eosin stains
- Miscible with all routine clearing reagents
- Optimum refractive index for viewing and photo microscopy, and will not yellow with age

MER 7722	4oz Bottle	Each
MER 7723	500mL Bottle	Each

SHUR/MOUNT®

- Xylene based routine coverslipping medium for histology and cytology slides
- Acrylic medium provides superior optical clarity and has a refractive index of 1.4
- Recommended for automated coverslipping instruments that use both glass and tape coverslips
- Contains an antioxidant to prevent fading and an UV absorbent to prevent yellowing with long term storage
- Low-viscosity coverslipping medium dries quickly for viewing, storage and filing

TRX LCA	16oz Bottle	4/Case
----------------	-------------	--------

CYTOSEAL® XYL

- Xylene-based rapid drying allows microscopic examination of slides soon after application
- Inhibit the fading or yellowing of stained specimens

FIS 83124	4oz Bottle	Each
------------------	------------	------

BALSAM BOTTLE

- Ideal for applying media used in mounting slides
- Soda-lime glass bottle is sealed by a ground-glass cap fitted to ground-glass neck of the bottle
- **Includes:** Glass Applicator Rod, Glass Cap

FIS 030821	100mL Bottle	6/Case
-------------------	--------------	--------

SHANDON CONSUL-MOUNT™

- Permanent, organic, xylene-based mountant
- Clear liquid with medium viscosity and refractive index
- For Thermo Scientific® Shandon Consul™ Coverslipper

FIS 9990440	Histology Media, 4oz	4/Case
--------------------	----------------------	--------

FIS 9990441	Cytology Media, 4oz	4/Case

MERCEDES SCIENTIFIC® OPTIC·MOUNT I™ (TOLUENE)

- Mounting medium designed to be used with staining procedures using xylene as a clearing agent
- Miscible with all routine clearing reagents
- Formulated with antioxidant to prevent fading of standard hematoxylin and eosin stains
- Optimum refractive index for photo microscopy

MER 7720	4oz Bottle	Each
-----------------	------------	------

MER 7724	500mL Bottle	Each
-----------------	--------------	------

CYTOSEAL® 60

- Low viscosity medium dries quickly and allows for rapid, even spreading to virtually eliminate air bubbles
- Prevent cracking, fading and discoloration of specimens

FIS 83104	4oz Bottle	Each
------------------	------------	------

FIS 831016	16oz Bottle	Each
-------------------	-------------	------

PERMOUNT®

- Gives a thinner adhesive layer for better optical quality
- Refractive index near that of fixed protein keeps image free of optical imperfections such as diffraction halos
- Suitable for mounting cover slips to slides with thick or thin specimens for long-term storage
- Won't shift the colors of biological dyes, or lose adhesive quality, cohesiveness or color with age
- Preserves most biological dyes with little or no fading when slides are stored in darkness

FIS SP15100	100mL Bottle	Each
--------------------	--------------	------

FIS SP15500	500mL Bottle	Each
--------------------	--------------	------

SHANDON-MOUNT™

SIG C9368

THS 41799008

SIG F4680

TRX LCW

AME MMC0226

AME MMC0243

AQUASLIP™ AQUEOUS

- Aqueous mounting medium prevents stained tissue chromogens from fading, while allowing permanent storage of stained slides
- Doesn't require coverslipping
- Compatible with chromogens such as AEC, DAB, Fast Red, BCIP/NBT, and BCIP/INT

AME MMC0619 30mL Bottle Each

CC/MOUNT™

- Aqueous mounting medium with high refractive index
- Permanent preservation of tissue sections stained with peroxidase and alkaline phosphatase based systems as well as with various fluorescent dyes
- Permits the long-term storage of antigens localized using organic insoluble chromogen substrates

SIG C9368 30mL Bottle Each

AQUA-MOUNT™

- Formulated for immunostaining and other techniques
- Non-fluorescing medium with low viscosity for maximum specimen absorption
- Resists fading and polymerizes quickly for slide handling

THS 41799008 20mL Bottle Each

FLUOROMOUNT™ AQUEOUS

- Preserves fluorescence labeling in tissue sections
- Aqueous based mounting medium for cover slipping tissues stained with various fluorescent dyes

SIG F4680 25mL Bottle Each

SHUR/MOUNT®

- Water soluble, non-fluorescing formulation for mounting sections from aqueous solutions
- Use for frozen sections and special procedures that will not tolerate alcohols or solvents
- Coverslip directly from water or buffer using standard methods

TRX LCW 16oz Bottle 4/Case

COVERSAFE™

- Fast-drying, non-toxic, low-hazard and optically clear
- Works well with all clearing agents
- Non-volatility prevents problems with bubbles, solvent evaporation spaces or mounting medium flow
- Retains excellent refractivity indefinitely
- Used in automatic coverslipping machines
- Does **NOT** contain xylene, toluene, dioxane or benzene

AME MMC0243 1PT Bottle Each

AME MMC0226 100mL Bottle Each

MERCEDES SCIENTIFIC® BOND-IT ADHESIVE

- Blended solution promotes a strong adhesive bond between tissue sections and microscopic slides
- Use as an additive to waterbaths or as a slide coating application to reduce the loss of tissue sections
- Suited to all immunohistochemical procedures

MER 3225500ML 16oz Bottle Each

MER 32251GL 1GL Bottle Each

MERCEDES SCIENTIFIC® 10% FORMALIN FIXATIVE (NBF)

- Neutral buffered formalin solution is used in proper tissue fixation for accurate histopathologic evaluation
- No dilution or addition of other agents is necessary
- Penetrates quickly, but fixes slowly

MER 44991GL 1GL Bottle Each

MER 449920L 20L Cube Each

FORMALIN WITH EOSIN TINT

- Intended for use as a general histology fixative
- Addition of eosin to the formulation allows more easy visuals of small fragments of tissue during the transfer of the tissue from the fixative to the tissue cassette
- **AVAILABLE SIZES:** 1GL, 2.5GL Cube, 5GL Cube

CAN FX10 Formalin w/Eosin Tint Each

MERCEDES SCIENTIFIC® LIQUIMOUNT™ (ALCOHOL BASED)

- Simultaneously clears and mounts coverslips in one step
- Eliminate the need to use hazardous xylene as a clearing agent with a xylene-free formulation
- No more final step required of clearing and coverslip directly from absolute isopropyl alcohol
- Suited to manual and automated coverslipping processes

MER 77344OZ 4oz Bottle Each

FORM-C™ FORMALIN

- Pre-buffered formalin concentrate
- **MIX IN 30 SECONDS:** simply add 1GL of Form-C to 4GL of water to make 5GL of 10% neutral buffered formalin
- High purity, true neutral pH and non-clogging
- Reduces tissue processor maintenance
- Stable in freezing temperatures

ABS FORM04 1GL Bottle 4/Case

GROSSING-AID™

- Alcoholic formalin fixative with enhancing additives renders tissues with high DNA content white or a lighter color than the surrounding tissues
- Rapidly fixes adipose tissue and connective tissues
- Causes lymph nodes to appear white against a darker background of connective tissues and adipose tissues

MERCEDES SCIENTIFIC® XYLENE SUBSTITUTE

- Nonhazardous, nonflammable, odorless with low toxicity
- Clearing and deparaffinization agent for processing and staining histological or cytological specimens

MER 3310 1GL Bottle Each

AMERICLEAR™

- Citrus clearing solvent and non-flammable solution
- Ideal for processing, staining and removing paraffin
- Replaces xylene for automated or manual systems
- Low-toxicity, all-organic compound
- Higher flash point that removes the necessity of being stored in a flammable safety cabinet

ANX 72060044 1GL Bottle Each

CITRA-CLEAR™ XYLENE SUBSTITUTE

- 100% d-Limonene for processing and staining
- Mild citrus odor
- Exceptionally high purity
- Flash point 122°F

BBC 64001GL 1GL Bottle 4/Case

HISTO-CLEAR™

HISTO-CLEAR I

- Directly substitute for xylene and yields excellent results in automated tissue processing
- Superior results with low citrus odor
- Compatible with most popular mounting media
- Leaves tissue less hard and brittle than xylene for cutting thin sections and prolonging microtome blade life
- Enhances clarity and vibrance of acidophilic stains

HISTO-CLEAR II

- Used in dry mounting procedures and aqueous mounting
- Greatly reduced citrus odor compared to other citrus-based histological clearing agents
- Completely biodegradable to reduce disposal costs

NAT HS200 Histo-Clear™ I, 1GL Bottle Each

NAT HS202 Histo-Clear™ II, 1GL Bottle Each

SLIDEBRITE™

- Xylene substitute for fast slide drying time
- Gentle, yet very effective deparaffinization
- Non-flammable, non-toxic, biodegradable, odorless
- No vapor masking or disguising additives
- Enhances nuclear detail
- No tissue shrinkage or morphology change

ABS SB04 SlideBrite™, 1GL Bottle 4/Case

ABS SMM04 S-Mount®, 4oz Bottle 12/Case

DEX 23012	1L Bottle	12/Pack

RDO DECALCIFERS

RAPID

- Gently decalcifies specimens in a fraction of the time
- Offers crisp nuclear staining and definition
- Gives distinguishable chromatin
- Shows great surface decalcification
- Safe enough to be disposed down lab sinks and drains

GOLD

- Use when biopsies contain minimal amounts of calcium
- Less aggressive decalcification on large and small tissue samples so the nucleic acids within cells are not altered
- Superb, sharp and crisp nuclear hematoxylin staining
- No filtration required since it's clear and nonprecipitate
- Stellar morphological representation of bone biopsies

APX RDO	RDO Rapid, 1GL	Each
APX RDOGOLD	RDO Gold, 1GL	Each

RAPID•CAL™

- Specially formulated to decalcify bone rapidly
- Gentle enough to be used as a routine decalcifying solution for bone marrow biopsies
- Usual biopsy obtained from an 11-gauge needle requires about 45-60 minutes to decalcify; biopsies from a larger 8-gauge needle require approximately 60-90 minutes
- Compatible with mercury-containing fixatives such as B-5, Zenker's, Helley's and 10% neutral buffered formalin

BBC 6029	1PT Bottle	Each
BBC 6030	1QT Bottle	Each
BBC 6040	1GL Bottle	Each

MERCEDES SCIENTIFIC® HEMATOXYLIN STAINS

- Progressive nuclear stain available in **THREE** different strengths for cytology and histology applications
- **GILLS I:** Ideal for both gynecological and non-gynecological cytology preparations
- **GILLS II:** Used as a counterstain in IHC procedures, a frozen section nuclear stain, a routine hematoxylin and eosin (H&E) stain, and for more intense cytology staining
- **GILLS III:** Primarily for tissue sections when a darker nuclear stain is preferred with shorter staining time

GILLS HEMATOXYLIN

MODIFIED HARRIS HEMATOXYLIN

- Regressive nuclear stain for both histology and cytology
- More stable than conventional Harris Hematoxylin

FIS 22050206	1GL Bottle	Each
--------------	------------	------

EPREDIA™ SIGNATURE SERIES™ CLARIFIER™ 1, 2

- Enhance the nuclear definition and clarity of Signature Series hematoxylin with Epredia™ Clarifier™ 1, 2
- Improves contrast between Nuclei and Cytoplasm
- Removes background staining caused by excessive tissue adhesive
- Removes unwanted hematoxylin staining from adhesive without affecting nuclear staining
- Clarifier 1 is recommended with Hematoxylin 7211 and Hematoxylin 1, Clarifier 2 is recommended with Hematoxylin 7212 and Hematoxylin 2

FIS 22050116	Clarifier 1™, 1GL Bottle	Each
FIS 22050117	Clarifier 2™, 1GL Bottle	Each

MERCEDES SCIENTIFIC® EOSIN Y (1%, W/V IN ALCOHOL)

- Key component of an Eosin Y Working Solution in the routine hematoxylin and eosin stain and can be used in either manual or automated staining platforms
- Distinguishes between the cytoplasm of different types of cells by staining cytoplasmic components differing shades and intensities of pink to red

MER 4131500ML	16oz Bottle	Each
MER 41311L	1L Bottle	Each
MER 41311GL	1GL Bottle	Each

EOSIN

- Alcoholic eosin allows for exceptional differentiation and contrast between cytoplasmic components and nuclei
- Rinse tissue sections in alcohol prior to staining

MER MA1015	500mL Bottle	4/Case
-------------------	--------------	--------

EOSIN Y ALCOHOLIC (WITH PHLOXINE B)

- Appropriate amount of acid for proper counterstaining
- Excellent differentiation of cell cytoplasm and other non-nuclear tissue components from bright visuals
- Ideal 3-color spectrum is seen - erythrocytes (red), smooth muscle (dull pink), connective tissue (bright pink) - with proper dehydration and differentiation

BBC 3630	1GL Bottle	Each
-----------------	------------	------

PROTOCOL® DEFINE® CLARIFIER

- Removes residual stain that may bind to slide adhesives
- Use after staining with hematoxylin
- Use only with progressive staining

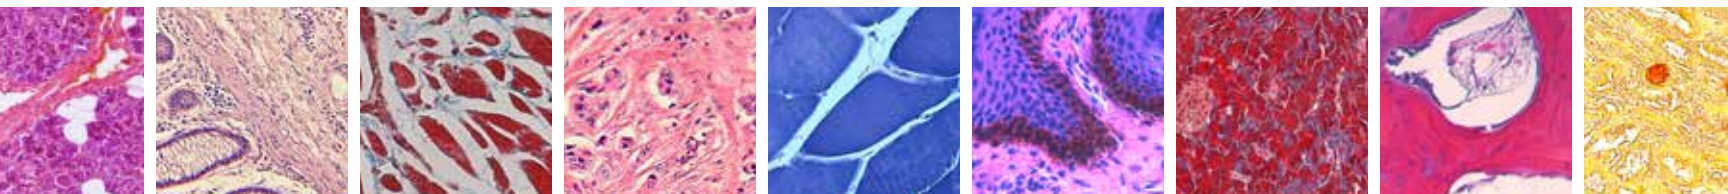

FIS 310350	1GL Bottle	Each
-------------------	------------	------

RICHARD-ALLAN SCIENTIFIC®

SIGNATURE SERIES EOSIN-Y

- Bright, vivid cytoplasmic staining
- Offers excellent delineation of cytoplasmic components
- Unmatched color contrast between nuclei and cytoplasm
- Various shades of red and pink differentiate between muscle, red blood cells and connective tissue

CAN CL2525

BBC NP500

RAPID-FIX™

- Fast-acting, specially buffered, formaldehyde based fixative for use at the grossing (cutting) station
- Fixes fatty tissues approximately 50% faster than 10% Neutral Buffered Formalin, and is still safe enough for use on all tissue specimens
- Compatible with all other primary fixatives and does not interfere with any special stain or immunohistochemical procedures
- Improves overall fixation, dehydration, clearing and wax infiltration when used routinely

BBC 0172 1GL Bottle Each

FINEFIX FORMALIN-FREE FIXATIVE

- Molecular fixative for optimum H&E, HC and IHC staining as well as fully recovery of nucleic acids
- Removes formalin from laboratories
- Storage and transport of specimens in cold climate

FIS 22310293 1GL Bottle Each

PARA/GARD® PARAFFIN REPELLENT

- Xylene-free and non-toxic paraffin repellent
- Quickly and easily removes paraffin from adhering to laboratory surfaces and equipment
- Creates a protective coating to prevent paraffin buildup
- Safe for use on wood, metal and plastic

TRX PG 4oz Bottle Each

TRX PG16 16oz Bottle Each

CLEANEROL™ SPRAY

- Stain and tissue dye remover, paraffin cleaner and repellent for microtomes, countertops and more
- Biodegradable, earth-friendly, non-toxic, pleasant smell
- Removes wax, ink, blood, grease, mold, adhesives, etc

CAN CL2525 4oz Bottle 4/Case

SOFT BLOCK

- Softens bone, uterus, nails and other difficult-to-cut tissues without the need for acids
- Odorless, technician- and environment-friendly formula won't destroy antigen sites and won't interfere with IHC or In-Situ, special stains, or routine H&E stains
- **CAN BE Poured DOWN DRAIN**
- **WON'T DAMAGE MICROTOME**
- Works in 5-15 minutes depending on tissue size and type

MKL ML7052 500mL Bottle Each

NAIL PREP NAIL SOFTENER

- Exclusive formulation designed for pre-processing nail preparation
- Fast, efficient, and ready to use, with two concentrations
- Softens brittle nail clippings
- Makes specimens easier to cut and process
- Helps to keep tissue from washing off the slide

BBC NP500 500mL Bottle Each

EKI 4476	Glutaraldehyde, 50%	16oz, 4L
EKI 4500	Glycerin	16oz, 4L
EKI 4560	Gold Chloride, Trihydrate	1g
EKI 4561	Gold Chloride Solution, 1%	100mL
EKI 4563	Gold Chloride Solution, 0.2%	100mL, 8oz
EKI 6593	Gomori Trichrome Decolorizer	8oz, 16oz
EKI 4647	Gomori Trichrome Stain	4oz, 16oz
EKI 1185	Gram Decolorizer	16oz, 1L, 1GL
EKI 4633	Gram Gentian Violet Stain	16oz, 1L, 1GL
EKI 6050	Gram Iodine Stain	4oz, 16oz, 1L, 1GL
EKI 11120	Gram Safranin Stain	16oz, 1L, 1GL
EKI 6053	Gram Stain Kit	8oz

H

ITEM #	DESCRIPTION	VOLUME(S)
EKI 4877	Haupt Gelatin Adhesive	16oz
EKI 4711	Hayem Diluent	4oz, 16oz, 1L
EKI 4794	Hematoxylin, Mayer Modified	16oz, 1L, 1GL
EKI 4880	Hematoxylin, Powder	10g, 25g, 100g
EKI 4791	Hematoxylin, Weigert Stain	16oz
EKI 4642	Hollande Fixative	1L, 1GL
EKI 4653	Hyaluronidase Buffer	1L
EKI 4660	Hydrochloric Acid, 36.5-38%	16oz, 2.3L
EKI 5101	Hydrochloric Acid, 2%	16oz
EKI 5102	Hydrochloric Acid, 10%	1L, 1GL

I

ITEM #	DESCRIPTION	VOLUME(S)
EKI 4815	Immersion Oil, Microscopy, Type A (Low Viscosity)	1oz, 4oz, 16oz
EKI 4816	Immersion Oil, Microscopy, Type A-B (Medium Viscosity)	1oz, 4oz, 16oz
EKI 4817	Immersion Oil, Microscopy, Type B (High Viscosity)	1oz, 4oz, 16oz
EKI 6055	Iodine, D'Antoni	4oz, 16oz
EKI 6057	Iodine, Masson Trichrome	8oz
EKI 6054	Iodine, Lugol Dilute	16oz, 1L, 4L

J

ITEM #	DESCRIPTION	VOLUME(S)
EKI 6404	Jenner Stain, Powder	10g, 25g
EKI 6405	Jenner Blood Stain	16oz, 1L

K

ITEM #	DESCRIPTION	VOLUME(S)
EKI 4922	Karnovsky Fixative	1L
EKI 4915	Kovac Aldehyde Reagent	4oz, 16oz

L

ITEM #	DESCRIPTION	VOLUME(S)
EKI 4953	Lactophenol-Cotton Blue Stain	4oz, 16oz
EKI 5114	Leishman Stain, Powder	25g, 100g
EKI 5115	Leishman Stock Blood Stain	16oz, 1L
EKI 6720	Light Green SF Yellowish Powder	10g, 25g
EKI 6721	Light Green SF Yellowish Stain	16oz
EKI 5137	Lithium Carbonate, Saturated	1L, 1GL

M

ITEM #	DESCRIPTION	VOLUME(S)
EKI 5345	Magnesium Carbonate	500g, 2.5kg
EKI 5559	Malachite Green Oxalate, Powder	25g
EKI 5560	Malachite Green Stain, 1%	16oz
EKI 6955	Mayer Egg Albumin Adhesive	4oz, 8oz
EKI 5830	Metanil Yellow, Powder	25g
EKI 5831	Metanil Yellow Stain, 0.25%	16oz
EKI 5875	Methylene Blue, Powder	10g, 25g, 100g
EKI 5876	Methylene Blue Stock Solution	8oz, 16oz, 1L
EKI 5868	Methyl Green Stain, 2%	8oz, 16oz
EKI 7310	Methyl Violet 2B, Powder	25g, 100g
EKI 5870	Michel Transport Medium	16oz, 1L, 1GL
EKI 5871	Michel Wash Solution	16oz, 1L, 1GL
EKI 5877	Millonig Buffer Solution	16oz, 1L
EKI 7391	Mucicarmine Stock, Southgate	4oz, 16oz, 1L

N

ITEM #	DESCRIPTION	VOLUME(S)
EKI 7436	Neutral Red, Powder	25g
EKI 7439	Neutral Red Indicator, 0.1%	16oz
EKI 7437	Neutral Red Stain, 1%	16oz
EKI 7441	New Methylene Blue N, Powder	5g, 10g
EKI 7443	New Methylene Blue N Stain	4oz, 8oz, 16oz, 1L
EKI 6205	Nitric Acid, 70%	16oz, 2.3L
EKI 7709	Nuclear Fast Red, Powder	5g
EKI 7710	Nuclear Fast Red Stain	8oz, 1L

O

ITEM #	DESCRIPTION	VOLUME(S)
EKI 6218	Oil Red O, Powder	25g
EKI 6219	Oil Red O Stain in Isopropanol	16oz, 1L
EKI 6209	Oil Red O Stain in Propylene Glycol	16oz
EKI 6220	Orange G, Powder	10g, 25g, 100g
EKI 7695	Orange G Stain, 1%	16oz, 1L

P

ITEM #	DESCRIPTION	VOLUME(S)
EKI 8031	Papanicolaou Stain, EA-36	16oz, 1GL, 10L
EKI 8033	Papanicolaou Stain, EA-50	16oz, 1GL, 10L
EKI 8035	Papanicolaou Stain, EA-65	16oz, 1GL, 10L
EKI 8037	Papanicolaou Stain, OG-6	16oz, 1GL, 10L
EKI 6329	Pararosaniline Hydrochloride, Powder	10g, 25g
EKI 6330	Periodic Acid	25g, 100g
EKI 6315	Periodic Acid Solution, 0.5%	8oz, 16oz
EKI 6316	Periodic Acid Solution, 1%	4oz, 16oz
EKI 6466	Phenol, 88-90%, Liquified, Purified	16oz
EKI 6464	Phenol, 88-90%, Liquified, Reagent	16oz
EKI 6499	Phloxine B, Powder	5g, 25g
EKI 6501	Phosphomolybdic Acid	25g, 100g, 500g
EKI 6503	Phosphomolybdic Acid, 10%	8oz, 16oz
EKI 6510	Phosphomolybdic Phosphotungstic Acid Solution	16oz
EKI 6592	Phosphotungstic Acid, Reagent	25g, 100g, 500g
EKI 8544	Picric Acid, 0.05% in Acetone	16oz
EKI 8540	Picric Acid, 0.1% in Acetone	16oz
EKI 8541	Picric Acid, 1% in Acetone	16oz
EKI 8539	Picric Acid, Saturated, Aqueous	16oz, 1L, 1GL
EKI 6612	Poly L-Lysine Slide Adhesive	8oz, 16oz
EKI 6828	Potassium Bromide	500g
EKI 6845	Potassium Bromide, Purified	500g
EKI 7143	Potassium Ferricyanide, 1%	8oz, 16oz
EKI 7144	Potassium Ferricyanide, 10%	16oz
EKI 7181	Potassium Ferrocyanide	500g, 2.5kg
EKI 7182	Potassium Ferrocyanide, 10%	16oz, 1GL
EKI 7225	Potassium Hydroxide, Pellets	500g
EKI 10080	Potassium Hydroxide, 10%	4oz, 16oz, 1L, 1GL
EKI 10090	Potassium Hydroxide, 20%	4oz, 16oz, 1GL
EKI 7305	Potassium Iodide	125g, 500g
EKI 7422	Potassium Permanganate	125g, 500g
EKI 10745	Potassium Permanganate, 1%	16oz
EKI 7729	Propylene Glycol	16oz, 4L

R

ITEM #	DESCRIPTION	VOLUME(S)
EKI 7996	Rhodanine, Powder	5g
EKI 7997	Rhodanine Stock, 0.2% in Alcohol	8oz, 16oz

S

ITEM #	DESCRIPTION	VOLUME(S)
EKI 3299	Saccomanno Fixative	1GL, 5GL
EKI 7755	Safranin O, Powder	10g, 25g, 100g
EKI 11121	Safranin O Stain, 0.25%	16oz
EKI 11115	Safranin O Stain, 1%	4oz, 16oz
EKI 11157	Schiff Stain Solution, McManus	4oz, 16oz, 1L
EKI 11160	Scott Tap Water Substitute	16oz, 1L, 1GL
EKI 7844	Silver Nitrate	25g, 100g, 500g
EKI 11450	Silver Nitrate Solution, 5%	16oz
EKI 11452	Silver Nitrate Solution, 10%	16oz
EKI 7940	Sodium Bicarbonate	500g, 2.5kg
EKI 7943	Sodium Bicarbonate Solution, 5%	16oz
EKI 7974	Sodium Borate Solution, 0.5%	16oz
EKI 8087	Sodium Carbonate Solution, 0.1%	16oz, 1L, 1GL
EKI 8165	Sodium Chloride	500g, 2.5kg
EKI 12440	Bloodbank Saline, 0.85%, with Preservative	10L, 20L
EKI 8242	Sodium Citrate Solution, 3%	4oz, 16oz
EKI 8404	Sodium Hydroxide, Pellets	500g, 2.5kg
EKI 12940	Sodium Hydroxide, 10%	4oz, 16oz
EKI 12980	Sodium Hydroxide, 20%	16oz, 1L
EKI 13080	Sodium Hydroxide, 0.100 Normal	16oz, 1L, 1GL, 20L
EKI 13200	Sodium Hydroxide, 1.00 Normal	16oz, 1L, 1GL
EKI 13210	Sodium Hydroxide, 10.00 Normal	1L, 1GL, 10L
EKI 8765	Sodium Phosphate, Dibasic, Heptahydrate	500g, 2.5kg, 12kg
EKI 8680	Sodium Phosphate, Monobasic, Monohydrate	125g, 500g, 2.5kg, 12kg
EKI 8848	Sodium Sulfate Solution, 1%	16oz
EKI 9040	Sodium Thiosulfate, Pentahydrate	500g, 2.5kg
EKI 14007	Sodium Thiosulfate Solution, 2.5%	16oz
EKI 14006	Sodium Thiosulfate Solution, 5%	16oz, 1L
EKI 9330	Sudan Black B, Powder	25g
EKI 9331	Sudan III, Powder	25g, 100g
EKI 14210	Sudan III, Saturated in Alcohol	16oz
EKI 9332	Sudan IV, Powder	25g, 100g
EKI 14286	Sudan IV Stain, Herxheimer	4oz, 16oz
EKI 14300	Sulfosalicylic Acid Solution, 3%	4oz, 16oz, 1L, 1GL
EKI 14302	Sulfosalicylic Acid Solution, 5%	4oz, 16oz, 1L
EKI 14320	Sulfosalicylic Acid Solution, 20%	4oz, 16oz, 1L, 1GL
EKI 9401	Sulfuric Acid	16oz, 2.3L
EKI 14746	Sulfuric Acid Solution, 1%	16oz

T

ITEM #	DESCRIPTION	VOLUME(S)
EKI 14946	Toluidine Blue O, Powder	25g
EKI 14949	Toluidine Blue Stain, 0.1%	8oz, 16oz
EKI 14950	Trichloroacetic Acid, 3%	16oz, 1L
EKI 14951	Trichloroacetic Acid, 5%	16oz, 1L
EKI 14952	Trichloroacetic Acid, 10%	16oz, 1L
EKI 14953	Trichloroacetic Acid, 20%	4oz, 16oz
EKI 14955	Trichloroacetic Acid, 100%	4oz, 16oz
EKI 9670	Trichrome Fecal Stain	16oz

V

ITEM #	DESCRIPTION	VOLUME(S)
EKI 9744	Van Giesen Counterstain	16oz, 1L
EKI 9745	Verhoeff-Van Gieson Elastic Tissue Stain Kit	16oz

W

ITEM #	DESCRIPTION	VOLUME(S)
EKI 15335	Water, Deionized, High Purity	1GL, 10L, 20L
EKI 9800	Wright Stain, Powder	10g, 25g, 100g
EKI 15385	Wright Stain Solution	16oz, 1L, 1GL
EKI 15388	Wright Stain, Buffered	4oz, 16oz, 1L, 1GL
EKI 15384	Wright Stain Buffer Solution, pH 6.4, Giordano	16oz, 1L, 1GL
EKI 15386	Wright Stain Buffer, pH 6.8	16oz, 1L, 1GL

X

ITEM #	DESCRIPTION	VOLUME(S)
EKI 9835	Xylenes-Peanut Oil, 2+1	8oz

Z

ITEM #	DESCRIPTION	VOLUME(S)
EKI 15395	Zamboni Fixative	1L
EKI 15404	Zenker Fixative	1L, 1GL
EKI 4496	Zinc Formalin Fixative	1L, 1GL, 10L, 20L

ACID FAST BACTERIA (AFB)

Kit	MER FAB1 (400 SLIDES) OR MER FAB2 (100 SLIDES)		
Component	MER AAL500	Acid Alcohol (0.5%) Solution	500mL
	MER CFZ125	Carbol Fuchsin Solution	125mL
	MER LGA125	Light Green Solution	125mL

ALCIAN BLUE (PH 1.0)

Kit	MER AFT1 (800 SLIDES) OR MER AFT2 (100 SLIDES)		
Component	MER AAG500	Acetic Acid Solution	500mL
	MER ANA250	Alcian Blue (pH 1.0) Solution	250mL
	MER NSF250	Nuclear Fast Red (Enhanced Stability)	250mL

ALCIAN BLUE (PH 2.5)

Kit	MER AFR1 (800 SLIDES) OR MER AFR2 (100 SLIDES)		
Component	MER AAG500	Acetic Acid Solution	500mL
	MER ANC250	Alcian Blue (pH 2.5) Solution	250mL
	MER NSF250	Nuclear Fast Red (Enhanced Stability)	250mL

ALCIAN BLUE (PAS)

Kit	MER APS1 (800 SLIDES) OR MER APS2 (100 SLIDES)		
Component	MER AAG125	Acetic Acid (3%) Solution	2 x 125mL
	MER ANC250	Alcian Blue (pH 2.5) Solution	250mL
	MER HMM125	Hematoxylin, Mayer's (Lillie's)	2 x 125mL
	MER PAQ250	Periodic Acid (1%) Solution	250mL
	MER SRF250	Schiff's Solution	250mL

AMYLOID (CONGO RED)

Kit	MER AMY1 (1,600 SLIDES) OR MER AMY2 (100 SLIDES)		
Component	MER BRT500	Bluing Reagent	500mL
	MER CRA500	Congo Red Solution	500mL
	MER HMM500	Hematoxylin, Mayer's (Lillie's Modification)	500mL

BIELSCHOWSKY'S STAIN KIT (MODIFIED)

Kit	MER BSK1 (400 SLIDES)		
Component	MER CAS008	Citric Acid Solution (Bielschowsky's)	8mL Dropper
	MER FRL008	Formalin (20%) Solution	8mL Dropper
	MER NAS008	Nitric Acid Solution (Bielschowsky's)	8mL Dropper
	MER SNZ500	Silver Nitrate (20%) Solution	500mL
	MER STB125	Sodium Thiosulfate (5%) Solution	125mL

CALCIUM (MODIFIED VON KOSSA)

Kit	MER CVK1 (400 SLIDES) OR MER CVK2 (100 SLIDES)		
Component	MER NFS125	Nuclear Fast Red Solution	125mL
	MER SNV125	Silver Nitrate (5%) Solution	125mL
	MER STB125	Sodium Thiosulfate (5%) Solution	125mL

COLLOIDAL IRON

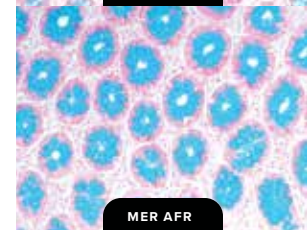

Kit	MER CIK1 (400 SLIDES) OR MER CIK2 (100 SLIDES)		
Component	MER AAK500	Acetic Acid (12%) Solution	500mL
	MER CIS125	Colloidal Iron Stock Solution	125mL
	MER HQA125	Hydrochloric Acid (1N) Solution	125mL
	MER PFD125	Potassium Ferrocyanide (3%) Solution	125mL
	MER VGS125	Van Gieson's Solution	125mL

MER FAB

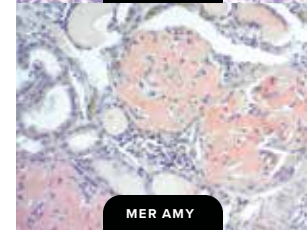

MER AFT

MER AFR

MER APS

MER AMY

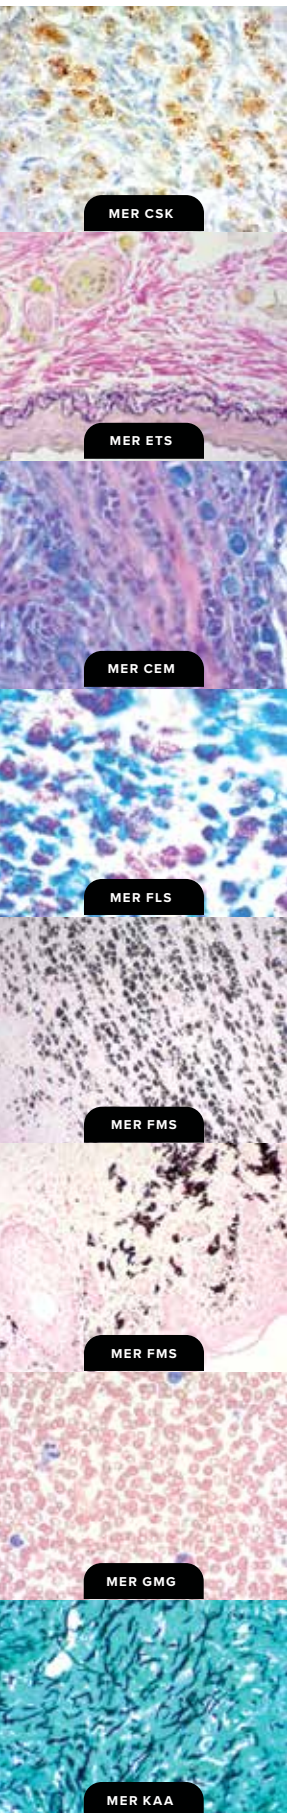

MER BSK

MER CVK

MER CIK

COPPER

Kit	MER CSK1 (400 SLIDES) OR MER CSK2 (100 SLIDES)		
Component	MER SAB500	Acetate Buffer (pH 8.0) Solution	2 x 500mL
	MER HMM125	Hematoxylin, Mayer's (Lillie's)	125mL
	MER RSS030	Rhodanine (Stock) Solution	30mL

ELASTIC (MODIFIED VERHOFF'S)

Kit	MER ETS1 (400 SLIDES) OR MER ETS2 (100 SLIDES)		
Component	MER FCC125	Ferric Chloride (10%, Aqueous) Solution	125mL
	MER FCB125	Ferric Chloride (2%) Differentiating Solution	125mL
	MER HSV250	Hematoxylin (5%) Solution	250mL
	MER LIS125	Lugol's Iodine Solution	125mL
	MER STB125	Sodium Thiosulfate (5%) Solution	125mL
	MER VGS125	Van Gieson's Solution	125mL

EOSINOPHIL - MAST CELL

Kit	MER CEM1 (400 SLIDES) OR MER CEM2 (100 SLIDES)		
Component	MER AST125	Astra Blue Solution	125mL
	MER HMM125	Hematoxylin, Mayer's (Lillie's)	125mL
	MER VRN125	Vital New Red Solution	125mL

FITE'S (LEPROSY & NOCARDIA PROCEDURES)

Kit	MER FLS1 (400 SLIDES) OR MER FLS2 (100 SLIDES)		
Component	MER AAM500	Acid Alcohol (1%) Solution	500mL
	MER CFZ125	Carbol Fuchsin Solution	125mL
	MER MBS125	Methylene Blue Solution	125mL
	MER XPO125	Xylene-Peanut Oil Solution	125mL

FONTANA-MASSON (FOR ARGENTAFFIN CELLS & MELANIN)

Kit	MER FMS1 (5 ASSAYS/35ML)		
Component	MER GCB125	Gold Chloride (0.2%) Solution	125mL
	MER NFS125	Nuclear Fast Red Solution	125mL
	MER SNX009	Silver Nitrate (10%) Solution	5 x 9mL
	MER STB125	Sodium Thiosulfate (5%) Solution	125mL

GIEMSA (MAY-GRUNWALD)

Kit	MER GMG1 (1,600 SLIDES) OR MER GMG2 (100 SLIDES)		
Component	MER GGS500	Giemsa Stock Solution	500mL
	MER MAY500	May-Grunwald Stock Solution	500mL
	MER PBM500	Phosphate Buffer (pH 6.8) Solution	500mL

GMS

Kit	MER KAA1 (400 SLIDES) OR MER KAA2 (100 SLIDES)		
Component	MER BOR015	Borax Solution	15mL
	MER CHR125	Chromic Acid Solution	125mL
	MER GCB125	Gold Chloride (0.2%) Solution	125mL
	MER LGA125	Light Green Solution	125mL
	MER MET125	Methenamine Solution	125mL
	MER SNS125	Silver Nitrate (0.2%) Solution	125mL
	MER SBC125	Sodium Bisulfite Solution	125mL
	MER STB125	Sodium Thiosulfate (5%) Solution	125mL

GRAM

Kit	MER GSK1 (400 SLIDES) OR MER GSK2 (100 SLIDES)		
Component	MER CFX125	Carbol Fuchsin Counterstain	125mL
	MER GVS125	Gentian Violet Solution	125mL
	MER GDS125	Gram's Decolorizer Solution	125mL
	MER LIS125	Lugol's Iodine Solution	125mL
	MER TZQ125	Tartrazine Solution	125mL

GRAM (MODIFIED BROWN & BRENN)

Kit	MER BBS1 (400 SLIDES) OR MER BBS2 (100 SLIDES)		
Component	MER GVS125	Gentian Violet Solution	125mL
	MER GDS125	Gram's Decolorizer Solution	125mL
	MER LIS125	Lugol's Iodine Solution	125mL
	MER PAB125	Picric Acid - Acetone (0.1%) Solution	125mL
	MER SOH125	Safranin O Solution	125mL

H. PYLORI

Kit	MER AYH1 (400 SLIDES) OR MER AYH2 (100 SLIDES)		
Component	MER ANY125	Alcian Yellow Solution	125mL
	MER PAQ500	Periodic Acid Solution	500mL
	MER SHC008	Sodium Hydroxide (3%) Solution	8mL
	MER SME125	Sodium Metabisulfite Solution	125mL
	MER TQF006	Toluidine Blue Solution	2 x 6mL

H. PYLORI RAPID (1-STEP)

Kit	MER HPS999 (10,000 SLIDES) OR MER HPS500 (5,000 SLIDES)		
Component	MER HPS999 (1,000ML), MER HPS500 (500ML)		

HEMATOXYLIN & EOSIN

Kit	MER HAE1 (1,600 SLIDES) OR MER HAE2 (100 SLIDES)		
Component	MER BRT500	Bluing Reagent	500mL
	MER EYB500	Eosin Y (Modified Alcohol) Solution	500mL
	MER HMM500	Hematoxylin, Mayer's (Lillie's Modification)	500mL

IRON

Kit	MER IRN1 (400 SLIDES) OR MER IRN2 (100 SLIDES)		
Component	MER HQB500	Hydrochloric Acid (2%) Solution	500mL
	MER NFS125	Nuclear Fast Red Solution	125mL
	MER PFB500	Potassium Ferrocyanide Solution	500mL

JONES (FOR BASEMENT MEMBRANE)

Kit	MER JSK1 (11 ASSAYS/55ML)		
Component	MER BOR125	Borax Solution	125mL
	MER GCB125	Gold Chloride (0.2%) Solution	125mL
	MER MET250	Methenamine Solution (2 Bottles)	250mL
	MER NFS125	Nuclear Fast Red Solution (Enhanced)	125mL
	MER PAQ250	Periodic Acid Solution	250mL
	MER SNV030	Silver Nitrate (5%) Solution	30mL
	MER STB125	Sodium Thiosulfate (5%) Solution	125mL

LUXOL FAST BLUE

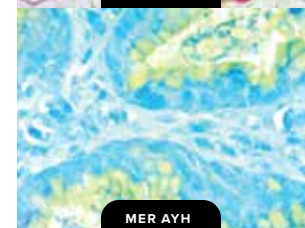

Kit	MER LBC1 (400 SLIDES) OR MER LBC2 (100 SLIDES)		
Component	MER EAS500	Alcohol (70%) Reagent	500mL
	MER CEA125	Cresyl Echt Violet Solution	125mL
	MER LCQ500	Lithium Carbonate (0.05%) Solution	500mL

METHYLENE BLUE SOLUTION (LOEFFLER'S)

Kit **MER MBS125 (125ML), MER MBS500 (500ML) OR MER MBS999 (1,000ML)**

MOVAT PENTACHROME (MODIFIED MOVAT)

Kit **MER MPS1 (400 SLIDES) OR MER MPS2 (100 SLIDES)**

Component	MER AAE250	Acetic Acid (1%) Solution	250mL
	MER AAG125	Acetic Acid (3%) Solution	125mL
	MER ANC125	Alcian Blue (pH 2.5) Solution	125mL
	MER BSU125	Biebrich Scarlet - Acid Fuchsin Solution	125mL
	MER FCB125	Ferric Chloride (2%) Differentiating Solution	125mL
	MER FCC125	Ferric Chloride (10%) Aqueous Solution	125mL
	MER HSV250	Hematoxylin (5%) Solution	250mL
	MER LIS125	Lugol's Iodine Solution	125mL
	MER MYQ125	Metanil Yellow Solution	125mL
	MER PGC250	Phosphotungstic Acid (5%) Solution	250mL
	MER STB125	Sodium Thiosulfate (5%) Solution	125mL

MUCICARMINE (MODIFIED SOUTHGATE'S)

Kit **MER SMS1 (400 SLIDES) OR MER SMS2 (100 SLIDES)**

Component	MER BRT125	Bluing Reagent	125mL
	MER HMM125	Hematoxylin, Mayer's (Lillie's)	125mL
	MER SMG125	Mucicarmine Solution	125mL
	MER TZQ125	Tartrazine Solution	125mL

NUCLEAR FAST RED SOLUTION (ENHANCED SOLUTION)

Kit **MER NFS125 (125ML), MER NFS500 (500ML) OR MER NFS999 (1,000ML)**

OIL RED O (FOR FAT)

Kit **MER ORK1 (400 SLIDES) OR MER ORK2 (100 SLIDES)**

Component	MER HMM125	Hematoxylin, Mayer's (Lillie's)	125mL
	MER ORG125	Oil Red O Solution	125mL
	MER PRG500	Propylene Glycol	500mL

ORCEIN (FOR HEPATITIS B & ELASTIC FIBERS)

Kit **MER HBK1 (400 SLIDES) OR MER HBK2 (100 SLIDES)**

Component	MER DSA125	Differentiating Solution	125mL
	MER OAA125	Orcein Solution	125mL
	MER OQB125	Oxalic Acid (2%) Solution	125mL
	MER PPG030	Potassium Permanganate (5%) Solution	30mL
	MER SAQ030	Sulfuric Acid (3%) Solution	30mL

PAPANICOLAOU (PAP)

Kit **MER PAP1 (1,600 SLIDES) OR MER PAP2 (100 SLIDES)**

Component	MER EAC500	EA-50 Stain Solution	500mL
	MER HMM500	Hematoxylin, Mayer's (Lillie's Modification)	500mL
	MER OGA500	OG-6 Solution	500mL

PERIODIC ACID SCHIFF (PAS)

Kit **MER PAS1 (400 SLIDES) OR MER PAS2 (100 SLIDES)**

Component	MER BRT125	Bluing Reagent	125mL
	MER HMM125	Hematoxylin, Mayer's (Lillie's)	125mL
	MER PAQ250	Periodic Acid Solution	250mL
	MER SRF250	Schiff's Solution	250mL

PERIODIC ACID SCHIFF (PAS FOR FUNGUS)

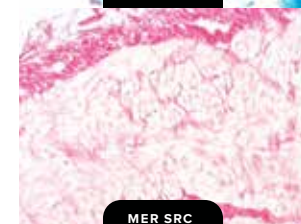

Kit	MER PASF1 (400 SLIDES) OR MER PASF2 (100 SLIDES)		
Component	MER LGA125	Light Green Solution	125mL
	MER PAQ250	Periodic Acid Solution	250mL
	MER SRF250	Schiff's Solution	250mL

**PICRO-SIRIUS RED (FOR CARDIAC MUSCLE)**

Kit	MER SRC1 (800 SLIDES) OR MER SRC2 (100 SLIDES)		
Component	MER AAD250	Acetic Acid (0.5%) Solution	250mL
	MER PQA250	Phosphomolybdic Acid (0.2%) Solution	250mL
	MER SRS250	Picro-Sirius Red Solution	250mL

**PICRO-SIRIUS RED (FOR COLLAGEN)**

Kit	MER PSR1 (800 SLIDES) OR MER PSR2 (100 SLIDES)		
Component	MER AAD250	Acetic Acid (0.5%) Solution	2 x 250mL
	MER SRS250	Picro-Sirius Red Solution	250mL

**PNEUMOCYSTIS**

Kit	MER PCS1 (400 SLIDES) OR MER PCS2 (100 SLIDES)		
Component	MER CEA030	Cresyl Echt Violet (0.1%) Solution	125mL
	MER NYS030	Naphthol Yellow S Solution	125mL
		Staining Jar	60mL

**PTAH (PHOSPHOTUNGSTIC ACID HEMATOXYLIN)**

Kit	MER PTA1 (400 SLIDES) OR MER PTA2 (100 SLIDES)		
Component	MER FAS125	Ferric Ammonium Sulfate	125mL
	MER HPA125	PTAH Solution	125mL
	MER ZCS500	Zinc Chloride (10%) Solution	500mL

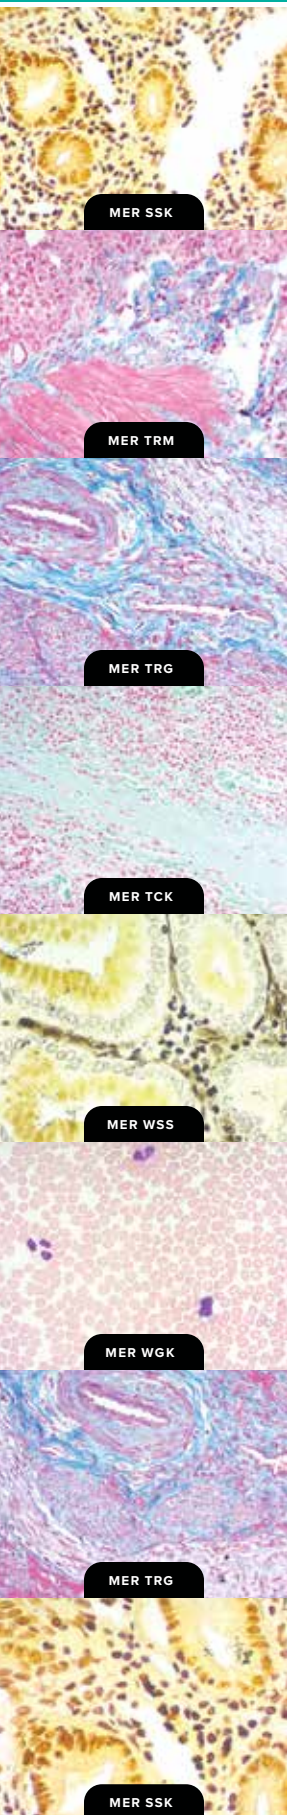

**RETICULUM**

Kit	MER GRT1 (5 ASSAYS/25ML)		
Component	MER FAT125	Ferric Ammonium Sulfate (3%) Solution	125mL
	MER FRL125	Formalin (20%) Solution	125mL
	MER GCS125	Gold Chloride (0.1%) Solution	125mL
	MER LGA125	Light Green Solution	125mL
	MER PMS125	Potassium Metabisulfite (3%) Solution	125mL
	MER PPE125	Potassium Permanganate (1%) Solution	125mL
	MER SNX010	Silver Nitrate (10%) Solution	5 Vials x 10mL
	MER SHC125	Sodium Hydroxide (3%) Solution	125mL
	MER STB125	Sodium Thiosulfate (5%) Solution	125mL

**RETICULUM (MODIFIED GOMORI'S)**

Kit	MER GRS1 (6 ASSAYS/25ML)		
Component	MER FAS125	Ferric Ammonium Sulfate Solution	125mL
	MER FRL125	Formalin (20%) Solution	125mL
	MER GCB125	Gold Chloride (0.2%) Solution	125mL
	MER NFS125	Nuclear Fast Red Solution	125mL
	MER PHC015	Potassium Hydroxide (10%) Solution	15mL
	MER PPD250	Potassium Permanganate Solution	250mL
	MER PMS125	Potassium Metabisulfite (3%) Solution	125mL
	MER SNX065	Silver Nitrate (10%) Solution	65mL
	MER STB125	Sodium Thiosulfate (5%) Solution	125mL
	MER SAQ015	Sulfuric Acid (1N) Solution	15mL

STEINER (FOR SPIROCHETES)

Kit	MER SSK1 (6 ASSAYS/40ML)		
Component	MER GUM125	Gum Mastic Solution	125mL
	MER HFS001.5	Hydroquinone	1.5gm
	MER SOS125	Oxidizer Solution	125mL
	MER SNS125	Silver Nitrate (0.2%) Solution	125mL
	MER SNY009	Silver Nitrate (1%) Solution	9mL
	MER ZFN125	Zinc Formalin Solution	125mL

TRICHOME (MODIFIED MASSON'S)

Kit	MER TRM1 (400 SLIDES) OR MER TRM2 (100 SLIDES)		
Component	MER AAE125	Acetic Acid (1%) Solution	125mL
	MER ABP125	Aniline Blue Solution	125mL
	MER BSU125	Biebrich Scarlet/Acid Fuchsin Solution	125mL
	MER BNF125	Bouin's Fluid	125mL
	MER PPA125	Phosphomolybdic/Phosphotungstic Acid Solution	125mL
	MER HWIA125	Weigert's Iron, Hematoxylin (A)	125mL
	MER HWIB125	Weigert's Iron, Hematoxylin (B)	125mL

TRICHOME (MODIFIED GOMORI'S)

Kit	MER TRG1 (400 SLIDES) OR MER TRG2 (100 SLIDES)		
Component	MER AAD250	Acetic Acid (0.5%) Solution	250mL
	MER AAL250	Acid Alcohol (0.5%) Solution	250mL
	MER BNF125	Bouin's Fluid	125mL
	MER TGB125	Trichrome Stain (Blue) Solution	125mL
	MER HWIA125	Weigert's Iron, Hematoxylin (A)	125mL
	MER HWIB125	Weigert's Iron, Hematoxylin (B)	125mL

TWORT'S COUNTERSTAIN

Kit	MER TCK1 (600 SLIDES)		
Component	MER AAF250	Acetic Alcohol (2%) Solution	250mL
	MER TCB030	Twort's Fast Green (Part B)	30mL
	MER TCA125	Twort's Neutral Red (Part A)	125mL

WARTHIN-STARRY

Kit	MER WSS1 (8 ASSAYS/20ML)		
Component	MER GSA065	Gelatin (4%), Acidulated	2 x 65mL
	MER HSA030	Hydroquinone (0.1%) Solution, Acidulated	2 x 30mL
	MER SNB125	Silver Nitrate (0.5%) Solution, Acidulated	125mL
	MER SNA030	Silver Nitrate (2%) Solution, Acidulated	30mL
	MER SSE125	SpiroPrep	125mL

WRIGHT-GIEMSA

Kit	MER WGK1 (1,600 SLIDES) OR MER WGK2 (100 SLIDES)		
Component	MER PBM500	Phosphate Buffer (pH 6.8) Solution	2 x 500mL
	MER WGS500	Wright-Giemsa Solution	500mL

LABWARE

TANNER SCIENTIFIC® PIPETS

- Disposable, unbreakable pipets for liquid handling procedures are great for all laboratory applications
- Draw and dispense liquids in controlled drop sizes

TNR 0003	4mL Bulb: Total Volume 5mL, Graduated up to 1mL	500/Box
TNR 0007	4mL Bulb: Total Volume 7mL, Graduated up to 3mL	500/Box

CARBOYS

- Produced from high density polyethylene (HDPE)
- Standardized industrial packaging design
- Store, mix and dispense bulk quantities of liquids, solvents and cleaning solutions
- Features comfortable handles and secure seal caps
- Larger sizes (5L, 10L, 20L) conform to UN regulations on transport of dangerous liquids

GLO 601780	2L Bottle	Each
GLO 601781	5L Bottle	Each
GLO 601782	10L Bottle	Each
GLO 601783	20L Bottle	Each

WITH SPIGOT

- Features very thick walls but retain transparency
- Can be used in sub-zero temperatures
- **DESIGNED FOR LIFETIME SERVICE**
- Included spigot (3/4") mates with 12mm deep thread in aspirator for total leak-proof performance

GLO 601660	5L Bottle	Each
GLO 601662	10L Bottle	Each
GLO 601664	25L Bottle	Each
GLO 601666	50L Bottle	Each

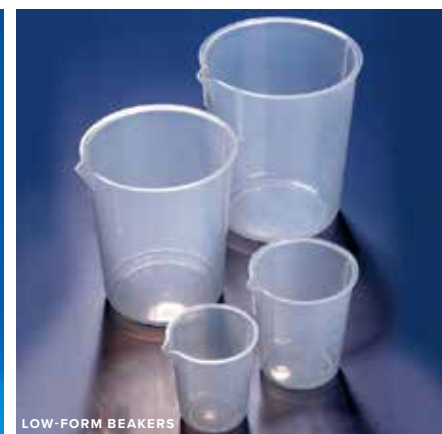

CARBOYS

CARBOY (SPIGOT)

CYLINDERS

LOW-FORM BEAKERS

PLASTIC GRADUATED CYLINDERS

- Made of superior quality translucent polypropylene
- Safe and accurate measurement of all types of liquids
- Wide rim and tapered pour spout for filling and pouring
- Chemically resistant to most acids, bases and solvents
- Non-wetting interior surface eliminates concave menisci
- Heavy-duty plastic withstands repeated autoclaving
- Pentagonal shaped base for stability and roll resistance
- Greatly reduce breakage and the potential for injury

ITEM #	CAPACITY	HEIGHT	QTY
GLO 601075	10mL	140mm	50/Case
GLO 601077	25mL	195mm	30/Case
GLO 601078	50mL	199mm	30/Case
GLO 601079	100mL	249mm	30/Case
GLO 601080	250mL	315mm	12/Case
GLO 601081	500mL	361mm	12/Case
GLO 601082	1000mL	439mm	6/Case
GLO 601094	2000mL	531mm	6/Case

LOW-FORM BEAKERS

- Produced from high clarity polypropylene (PP)
- Space saving design with molded graduations
- Stackable for convenient storage and will not stick together when stacked
- Chemically resistant to most acids, bases and solvents
- Tapered sides for easy handling
- Precise no-drip pour spout

DISPOSABLE FUNNELS

- Economical, disposable funnels are available in either transparent polystyrene or translucent polypropylene
- Lightweight with reinforced rims and inside fluting
- **Polypropylene Funnels:** Tolerate most strong acids, alkalis and organic solvents
- **Polystyrene Funnels:** Suitable for aqueous solutions, weak acids and alkalis
- Heat-resistant and withstand temperatures up to 121°C
- Polypropylene funnels are autoclavable
- Tapered at a 60° angle
- **PACKAGED 100/BOX (25/SLEEVE, 4 SLEEVES/BOX)**

ITEM #	FUNNEL SIZE	MATERIAL	TOP ID	HEIGHT	STEM LENGTH	STEM OPENING	FILTER PAPER SIZE
GLO 8301	55mm	Polystyrene (PS)	55mm	69mm	25mm	4.3mm	11cm
GLO 8302	65mm	Polystyrene (PS)	65mm	78mm	30mm	4.3mm	12.5cm
GLO 8303	55mm	Polypropylene (PP)	55mm	69mm	25mm	4.3mm	11cm
GLO 8304	65mm	Polypropylene (PP)	65mm	78mm	30mm	4.3mm	12.5cm

ANALYTICAL FUNNELS

- Heavy-duty, translucent polypropylene (PP) funnels are perfect for use in analytical chemistry applications
- Long, narrow stems are ideal for use with liquids
- Internal and external ribbing helps to prevent air lock
- Angled exactly at 60° for rapid filtration
- Excellent chemical resistance
- Can withstand temperatures up to 121°C
- Autoclavable at 121°C for 20 minutes
- Available in 9 different sizes
- Designed to accommodate standard filter paper sizes
- **PACKAGED 5 PER PACK, 2 PER PACK OR BY THE EACH DEPENDING ON WHICH SIZE FUNNEL**

DO-IT-YOURSELF

PLAIN

PRE-PRINTED WASH BOTTLES

- Produced for low density polyethylene (LDPE)
- GHS compliant wash bottle to be only printed in 3 languages (English, French and Spanish)
- Solvent labels include the NEW globally harmonized signal words and pictograms, NFPA diamond, risk phrases and safety information
- Specially designed jet-tip for precise dispensing control
- DripLok® vapor venting valve prevents solvent drips
- **ALL BOTTLES COME FULLY ASSEMBLED**
- Comply with the latest GHS and OSHA requirements
- Color coded for quick solvent recognition
- Wide mouth opening for easy filling

PLAIN WASH BOTTLES

- Produced from low density polyethylene (LDPE)
- Fitted with color-coded one-piece polypropylene (PP) closures that maintain their shape in use
- Square shoulders and wide mouth for spill-free filling
- Closures have precision jet-tip aperture for fine control
- **PACKAGED 5 PER BOX**

COREDISH® BIOPSY CONTAINERS

- Multi-compartment containers in the shape of a dish and half pre-filled with 10% Neutral Buffered Formalin (NBF), for holding and transporting biopsies
- Supplied with a leakproof closure with “o-ring” ensuring total protection of contents
- Measures only 15 x 95mm in diameter
- Each compartment is clearly identified to allow proper placement and visualization of the biopsy being inserted
- Label permits essential information to be written such as patient identification, doctor, date and time

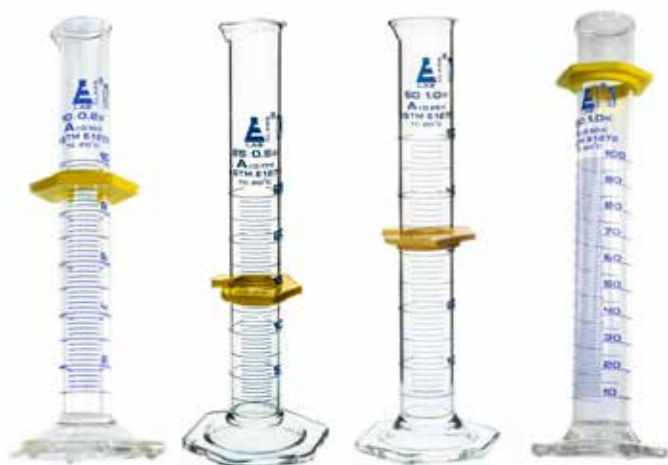

COREDISH® COMPONENTS

- 1) Well labeled, easy-to-read identification of biopsy origin
- 2) Each biopsy is isolated from each other by divider
- 3) Molded ridges around lid make it easy to open and close
- 4) Fast thread design allows lid removed with half turn
- 5) “O-Ring” provides secure and positive leakproof seal
- 6) Warning label has space for patient identification

WASTE CANS

- Step-on foot pedal opens lid
- Ideal for exam rooms, restrooms, and front office areas
- Meets OSHA standard on blood-borne pathogens
- Hazardous waste label included
- **AVAILABLE IN RED, WHITE, AND BEIGE**

RECTANGULAR PLASTIC SERIES

- Plastic can and lid
- **LARGE:** 52QT (13GL) Capacity, 12"D x 15"W x 26"H
- **SMALL:** 32QT (8GL) Capacity, 12"D x 15"W x 19"H

SQUARE STEEL SERIES:

- Steel outer can and lid with removable plastic inner liner
- **LARGE:** 32QT (8GL) Capacity, 11½"D x 12¼"W x 18¼"H
- **SMALL:** 20QT (5GL) Capacity, 11"D x 11¼"W x 17¼"H

ROUND STEEL SERIES:

- Steel outer can and lid with removable plastic inner liner
- **STAINLESS STEEL FINISH AVAILABLE**
- **SIZE:** 32QT (8GL) Capacity, 11½"D x 24"H

BRE 252XX	Rectangular Plastic	Each
BRE 352XX	Square Steel	Each
BRE 452XX	Round Steel	Each

CHAIRS & STOOLS

- Heavy duty steel, lightweight aluminum and upholstered components provide stability and strength
- Optional high resistance casters for free chair movement when weighted or occupied, but resist unnecessary chair movement when unweighted or exiting the chair
- Each stool or chair has a capacity of 250lbs

AVAILABLE IN 25+ VINYL COLORS

WIN 4450	Deluxe Gas-Lift Task Chair	Adjustable Back Height, Polished Aluminum 5-Star Base, Fingertip Height Adjustment	18¼" - 23¼"	21.5lbs
WIN 4380	Tall Gas-Lift Task Chair	Adjustable Back, Includes Foot Ring, 16" Diameter Seat Quickly Raises and Lowers with Fingertip Height Adjustment	23½" - 33¾"	22lbs

FLAMMABLE STORAGE CABINETS

- Sturdy, all-welded double wall steel construction
- 2" wide louvers support shelves, adjustable on 4" centers
- Safely contains hazardous chemicals to reduce fires
- Electrical ground on bottom right hand side aids in the elimination of an electrostatic discharge
- Improved security with recessed lockable paddle latch and 3-point locking system
- Bunged air vents with flame arrestors on each side of the cabinet allows for ventilation
- **SAFETY YELLOW POWDER COAT FINISH**

DHM 1004M50	4GL, Yellow, 1 Shelf, 17 $\frac{3}{8}$ "W x 18 $\frac{1}{8}$ "D x 22 $\frac{1}{8}$ "H	Each

GAUZE SPONGES

SUPER SANI-CLOTH® WIPES

- Ideal for daily use in fast-paced environments
- Test effective against 30 microorganisms
- Thick, strong, pliable material with high fluid capacity reaches crevices and difficult corners of equipment
- **2 MINUTE CONTACT TIME**

PDI Q55172	Large, 6" x 6¾"	160/Can
PDI Q86984	X-Large, 8" x 14"	65/Can
PDI H04082	Large, 5" x 8"	50/Box
PDI U87295	X-Large, 11½" x 11¾"	50/Box

SANI-CLOTH® HB WIPES

- Alcohol free disinfection formulation
- Test effective against 100 microorganisms
- **10 MINUTE CONTACT TIME**

PDI Q08472	Large, 6" x 6¾"	160/Can
PDI Q85484	X-Large, 8" x 14"	65/Can

SANI-CLOTH® PLUS WIPES

- Ideal for alternate care settings including physician offices on hard nonporous surfaces and equipment
- Low alcohol disinfection formulation
- Test effective against 16 microorganisms
- **3 MINUTE CONTACT TIME**

PDI Q89072	Large, 6" x 6¾"	160/Can
PDI Q85084	X-Large, 8" x 14"	65/Can

SANI-CLOTH® BLEACH WIPES

- Ideal for disinfecting high risk areas endemic with *Clostridium difficile* spores and Norovirus
- Sodium hypochlorite disinfection formulation
- Thick, strong wipes with high fluid capacity and pliable to get into crevices and corners of equipment
- Test effective against 50 microorganisms
- **4 MINUTE CONTACT TIME**

PDI P54072	X-Large, 6" x 10½"	75/Can

BIOHAZARD KEEPER™ - FLOOR

- Sturdy corrugated paperboard construction for strength with 2 mil red plastic liner for leak-resistance
- Marked with orange biohazard waste warnings printed in English and Spanish (**NOT A SHARPS CONTAINER**)
- Unique wide-mouth opening with reclosable, removable cover for disposing larger items and reducing odors
- Separate flap can be folded over the top to permanently close the container for final disposal

WHI BH2009 12"W x 12"D x 27"H 6/Case

BROKEN GLASS KEEPER™ - FLOOR

- Sturdy corrugated container lined with a clear, thick plastic bag and marked with broken glass symbols
- Unique wide-mouth opening with reclosable, removable cover for disposing larger glass or sharp items
- Inner flap seals contents for final disposal when full

WHI BH2008 12"W x 12"D x 27"H 6/Case

BIOHAZARD BENCHTOP KEEPER™

- Free standing paperboard container stores contaminated waste including petri dishes, test tubes, applicator sticks, pipets and other non-sharp items at your workstation
- Plastic lining holds moderate amounts of liquid
- Self-locking tops keep contents safely enclosed
- Autoclave contaminated materials then dispose of according to your local, state or federal regulations

WHI BH2002 4"L x 4"W x 7"H 100/Case

WHI BH2003 6"L x 6"W x 10"H 50/Case

BROKEN GLASS BENCHTOP KEEPER™

- Sturdy paperboard container has a plastic lining to contain moderate amounts of liquid
- Safely collect non-hazardous broken glass at workstation
- Securely close using the interlocking tabs on the lid and dispose of according to your facility's instructions

WHI BH2004 6"L x 6"W x 10"H 50/Case

Item # ALC 2001

CITRAJET®

- Low foaming, phosphate-free, concentrated, liquid cleaner and metal brightener for high performance removal of metal oxides, scales, salts and inorganic residues in power-spray systems, washers, and manual and ultrasonic cleaning
- Corrosion inhibited and free rinsing provides reliable results and eliminates interfering residues
- Ideal for acid washing and rinsing

Item # ALC 1715

DETERGENT 8®

- Nonionic, low-foaming, phosphate-free detergent for labware washers, PC board washers, power-spray systems, ultrasonic and manual cleaning
- Removes oils, resins, rosin, and fluxes from PC circuit boards, electronic parts, phosphate sensitive labware and nuclear contaminated equipment
- Excellent replacement for solvent cleaning

Item # ALC 1801

CITRANOX®

- Phosphate free, concentrated cleaner and metal brightener for high performance removal of metal oxides, scale, salts and inorganic residues in manual and ultrasonic cleaning
- Corrosion inhibited and free rinsing provides reliable results and eliminates interfering residues
- Ideal for trace metal analysis

Item # ALC 1201

LIQUI-NOX®

- Concentrated, anionic phosphate free, detergent for manual and ultrasonic cleaning
- Free rinsing provides reliable results and eliminates interfering residues
- Extremely mild and completely soluble in hard and soft water

Item # ALC 1104

ALCONOX®

- Concentrated, anionic detergent for manual and ultrasonic cleaning
- Free rinsing provides reliable results and eliminates interfering residues
- Ideal for cleaning contaminants from glassware, metals, plastics, ceramic, porcelain, rubber and fiberglass
- Excellent for corrosive acids and hazardous solvents

Item # FIS 16000141

LUMINOX®

- Low foaming, neutral pH detergent for use in manual, ultrasonic, and machine cleaning
- Safe-handling detergent used for non-corrosive cleaning without chelation or alkalinity waste treatment problems
- Recommended for aluminum and soft metal, medical devices, pharmaceutical equipment, alkaline sensitive labware, and medical instruments in aluminum trays

Item # ALC 21011

SOLUJET®

- Nonionic, low-foaming, phosphate-free liquid cleaner for use in labware washers, manual and ultrasonic cleaning
- Corrosion inhibited formula recommended for glassware, metals, plastic, ceramic, porcelain, rubber and fiberglass
- Free rinsing provides reliable results and eliminates interfering residues

Item # ALC 1500

ALCOTABS®

- Effervescent detergent tablet for maximum cleaning in syphon pipette washers to clean pipettes and tubes
- Slow release bubble action
- Free rinsing provides reliable results and eliminates interfering residues

CONTACT SALES REPRESENTATIVE FOR SIZES, QUANTITIES OR MORE INFO!

Item # ALC 1325

TERG-A-ZYME®

- Concentrated, anionic detergent with protease enzyme for manual and ultrasonic cleaning
- Excellent for removal of proteinaceous soils, tissue, blood and body fluids from glassware, metals, plastic, ceramic, porcelain, rubber and fiberglass
- Ideal as a cleaning agent in Reverse Osmosis and Ultra-Filtration Systems

Item # ALC 2001

TERGAJET®

- Low foaming, phosphate-free powdered cleaner for use in labware washers, manual and ultrasonic cleaning
- Corrosion inhibited formula recommended for glassware, metals, plastic, ceramic, porcelain, rubber and fiberglass
- Free rinsing provides reliable results and eliminates interfering residues

Item # ALC 1425

ALCOJET®

- Nonionic, low foaming powder cleaner for use in labware washers, parts washers, power-spray systems, manual and ultrasonic cleaning
- Corrosion inhibited formula recommended for glassware, metals, plastic, ceramic, porcelain, rubber and fiberglass
- Free rinsing provides reliable results and eliminates interfering residues

SPARKLEEN® 1 DETERGENT

- Universal detergent for manual or hand washing laboratory glassware and equipment
- Removes proteins, fats, oils, media, wax, dried blood and other organic-inorganic deposits from glassware

FIS 043204 3.25lb Carton Each

SPARKLEEN® 2 DETERGENT

- Effectively cleans the most tenacious soils such as grease, petrolatum, dried blood and organic deposits
- Used for mechanical spray washing of glassware, stainless steel and most plastics

FIS 043206 3.25lb Carton Each

CIDEX® DIALDEHYDE

CIDEX® OPA

ENVIROCIDÉ®

CAVICIDE®

CIDEX®

OPA SOLUTION

- Glutaraldehyde-free (0.55% ortho-phthalaldehyde) high-level disinfecting solution effective at room temperature
- Effective on various endoscopes and instruments
- Requires no activation or mixing
- Reusable for up to 14 days, 2-year shelf life

JOH 20390 1GL Bottle Each

ACTIVATED DIALDEHYDE SOLUTION

- 2.4% alkaline glutaraldehyde solution provides superior microbicidal and anticorrosion properties
- Works quickly to disinfect metal and plastic devices
- Reduces costs linked to instrument damage and repair
- Activated solution offers up to 14-day reuse life

JOH 2266 4.7L Bottle Each

HYDROGEN PEROXIDE 3%

- Topical solution USP, first aid antiseptic and oral debriding agent
- Treats and reduces risk of infection in minor cuts, scrapes, burns and abrasions
- Removes mucus, phlegm or other secretions associated with occasional sore mouth
- May be used as a gargle or a rinse
- Keep tightly closed at room temperature

HDX D0012 16oz Bottle Each

ENVIROCIDÉ®

- Convenient, ready-to-use, intermediate-level surface disinfectant and non-aerosol decontaminant
- Effective against TB, HCV, HBV, viruses, bacteria (including MRSA and VRE) and fungi
- Safe for all facility spaces including operating rooms, isolation rooms, patient care areas and laboratories

MET 133324 24oz Spray Bottle 12/Case

CAVICIDE®

- All-in-one disinfectant, cleaner and decontaminant
- Ideal for environmental and medical device surfaces
- Effective against TB, MRSA, HIV-1, HCV and HBV
- Safe for use on hard, non-porous surfaces

LYSOL®

CLOROX®

ACTIVATE® BLEACH SPRAY

- Dual-liquid sprayer automatically combines bleach and water to create a fresh 10:1 diluted solution to disinfect
- Special lemon-scented bleach formula cleans, spreads, and adheres to surfaces better than ordinary bleach
- Bleach formula is highly effective against a broad spectrum of pathogens, including C. difficile spores
- Use on nonporous surfaces in hospitals and laboratories
- Eliminates the hazards and hassle of daily bleach mixing and measuring as well as fumes and spills
- Install and lock cartridges easily
- Ergonomic trigger sprayer is comfortable for high use

TAK 77062	Includes: (2) Sprayer Heads, (6) 11oz Bleach Cartridges, (2) 11oz Water Cartridges	Kit
TAK 77012	11oz Bleach Cartridge Refills	12/Pack
TAK 77006	(6) Sprayers Heads, (6) 11oz Water Cartridges	6/Pack

LYSOL®

- Multipurpose, hospital-grade cleaner cleans, disinfects and deodorizes on hard, nonporous surfaces

LYSOL® QUARTERNARY DISINFECTANT CLEANER

- Concentrated formula with a neutral pH in dilution
- Effective against HIV-1, staph, strep, pseudomonas and salmonella bacteria
- For floors, walls, porcelain, plastic and metal surfaces

LYSOL® DISINFECTANT SPRAY

- Kills 99.99% of germs of viruses, bacteria and fungi
- Effective against over 50 microorganisms
- Control valve produces a wetter spray that enhances surface coverage
- Ideal for showers, sinks, door handles, waiting rooms, sick rooms, laboratories and around toilet areas

SUL 95029	19oz Spray Can	12/Case
SUL 74983	1GL Bottle	4/Case

CLOROX® GERMICIDAL BLEACH

- Pre-mixed formulated disinfectant kills a broad spectrum of microorganisms including norovirus and C. difficile
- Excellent in removing molds, mildews and stains
- Anti-corrosive ingredients are compatible with most hard, nonporous surfaces
- Meets OSHA bloodborne pathogen standards
- **EPA REGISTERED & CDC RECOMMENDED**

SPILL CLEAN UP

NEUTRA-FORM®

- Spill control agent quickly diminishes harmful vapors, and neutralizes hazardous aldehydes
- Absorbs large spill of 10% formalin or 2% glutaraldehyde

SCG 4304 1.4kg Bottle 2/Case

NEUTRA-WIPES®

- Rapidly absorbs and neutralizes small formalin spills
- Wipes (12" x 12½") come in convenient pop-up dispenser

SCG 4278 60 Wipes Each

DID YOU KNOW?

Neutra-Pads® neutralize 10% formalin while reducing vapors during grossing, keeping work areas clean and dry. The blue surface provides an excellent contrast to tissues.

NEUTRALEX®

- Neutralizes 4 liters (1GL) of 10% formalin or 8 liters (2GL) of 2% glutaraldehyde in 15 minutes
- Safe and effective drain disposal with no clogging solids
- Final neutralization is less than 1 ppm

STARTER PACK

- **Includes:** (4) Neutralex® Pouches, (1) Reaction Container, (10) 8" x 10" Neutra-Pads®, (1) Neutra-Form® Container, (60) Neutra-Wipes®, (1) Aldehyde Test Kit

REACTION CONTAINER

- Waste collection and formalin treatment container
- **Capacity:** 9.5L (2.5GL)

SCG 4046	Starter Pack	Each
SCG 4047	0.75kg Pouch	16/Case
SCG 4278	Reaction Container	Each

HYDEAWAY™

- Neutralizes formaldehydes, formalin and glutaraldehydes into a non-toxic, non-hazardous end product
- Liquid allows for drain disposal
- Crystals solidify waste for trash, excellent for spills
- Environmentally friendly, makes for a safer workspace
- **Highest Neutralization Ratios:** Liquid 1:15, Crystals 1:30

DEC 2201	1GL Bottle (Liquid)	Each
DEC 2224	32oz Bottle (Crystals)	Each

FORMALEX "GREEN"

ABS SCD100A

SASCO SOLIDIFIERS/NEUTRALIZERS

FORMALEX® "GREEN"

- Liquid control agent for safe drain disposal of formalin, glutaraldehyde and other aldehyde waste solutions
- Improved formula eliminates any sludgy residue and does not require any pH adjustments
- Neutralizes into a nonhazardous, non-toxic solution
- Contains no phosphates and is non-vapor forming
- Spray bottle cleans small countertop or bench spills
- Environmentally friendly to personnel and laboratories

ABS FXG32E	Spray Bottle, 32oz	Each
ABS FXG01	Cubi-Tainer, 1GL, Spigot	Each
ABS FXG250	Cubi-Tainer, 2.5GL, Spigot	Each
ABS FXG05	Cubi-Tainer, 5GL, Spigot	Each

SAFECUBE DISPENSER™

- 5-gallon cubitainer hangs over counter edge
- Control drips, drops and accidental spills
- Liquid detection alarm immediately signals working personnel of any accidental spills
- Dispenser tray balances container during filling
- Enhances regulatory compliance

ABS SCD100A	5GL Capacity	Each
--------------------	--------------	------

SASCO SOLIDIFIERS/NEUTRALIZERS

- **Acid Handler:** flowable powder designed to raise the pH of an acid solution and solidify the liquid providing for a safe non-hazardous clean up
- **Base Control:** flowable powder designed to lower the pH of a caustic solution and solidify the liquid providing for a safe non-hazardous clean up
- **Solvent Handler:** free flowing granular material reduces the flammability and solidify flammable hydrocarbon solutions providing a safe method of clean up
- **Polyform-F:** very unique granular material designed to destroy formaldehyde, formaldehyde-based fixatives, glutaraldehyde and other aldehyde solutions
- **Chlorine Control:** specially formulated powder designed for the destruction and control of various types of liquid chlorine spills and leaks

ABS AH32	Acid Handler™, 32oz	Each
ABS BC32	Base Control™, 32oz	Each
ABS PF32	Polyform-F™, 32oz	Each
ABS SH32	Solvent Handler™, 32oz	Each

FORM-ZERO® FORMALDEHYDE REDUCING AGENT

- Unique, powdered reagent blend safely and quickly neutralizes formaldehyde and glutaraldehyde waste
- From formalin to drain in 20 minutes
- Simply add one bottle of Form-Zero to each gallon of 10% formalin waste or 4% glutaraldehyde waste
- No pH adjustment required

SASCO SPILL CONTROL PRODUCTS

- A = ACID HANDLER**
- B = BASE CONTROL**
- P = POLYFORM-F**
- S = SOLVENT HANDLER**
- C = CHLORINE CONTROL**

SASCO ACID HANDLER™ | USE ON THE FOLLOWING ACIDS:

Acetic Acid • Acetic Anhydride • Acetyl Chloride • Sulfonic Acid
 Aluminum Chloride • Chlorosulfonic Acid • Citric Acid
 Formic Acid • Glacial Acetic Acid • Hydrochloric Acid
 Hydrofluosilic Acid • Muriatic Acid • Nitric Acid • Sulfuric Acid
 Perchloric Acid • Phosphoric Acid • Phosphoric Anhydride
 Phosphorous Pentoxide • Phosphorous Trichloride
 Dodecylbensylsulfonic Acid • 54% Hydrofluoric Acid Solution
 Chromic Acid Solutions - Chromium Waste Hazard

DO NOT USE ON THE FOLLOWING:

Chlorine • Oxidizers • Sodium Amide • Picric Acid
 Hydrogen Peroxide • Iodic Acid • Sulfurous Fluoride Antimony
 Pentafluoride ("Super-Acids") • Concentrated Hydrofluoric Acid

SASCO BASE CONTROL™ | USE ON THE FOLLOWING BASES:

Triethylamine • Monoethanolamine • Morpholine
 Most Alkali Detergents • Anhydrous Ammonia
 Sodium Metasilicate Solution
 Sodium Hydroxide = Caustic Soda
 Potassium Hydroxide = Caustic Potash
 Ammonium Hydroxide = Aqua Ammonia

DO NOT USE ON THE FOLLOWING:

Chlorine • Oxidizers • Sodium Hypochloride
 Hydrogen Peroxide • Sulfurous Fluoride • Sodium Amide

GENERAL SPILL RESPONSE KITS

- **Includes:** Safety Goggles, Gloves, Waste Bags, Broom and Pan for Safe Waste Collection

ABS SRKGP3204 Choose Any **FOUR** Spill Control Products from Product List Kit

ABS SRKGP3202 Choose Any **TWO** Spill Control Products Kit from Product List

Note: Limited to **ONE** Solvent Handler™ per kit.
 Each additional Solvent Handler™ per kit will be an additional charge.

SASCO POLYFORM-F™ | USE ON THE FOLLOWING:

Formaldehyde • Formaldehyde-Based Embalming Solution
 10% Neutral Buffered Formalin • Glutaraldehyde Solution; e.g. (Cidex®, Cidex-OPA®, Metracide®, Wavacide®, OmniCide®)

Bouins Fixative: Add Polyform-F™ to destroy formaldehyde. Neutralize pH with bicarbonate or caustic soda. This will convert picric acid to sodium picrate, which can be disposed of safely.

B-5 Fixative: Contains heavy metals, which constitutes a hazardous waste.

SASCO SOLVENT HANDLER™ | USE ON THE FOLLOWING:

Alcohols • Chloroform • Methyl Ethyl Ketone • 111 Trichlorethane
 N,N-Dimethylformamide • Most Hydrocarbons • Xylene
 Acetone • Ethyl Acetate • Gasoline • Diesel • Most Halogens

DO NOT USE in large volume in enclosed area.

BE EXTREMELY CAREFUL using **SOLVENT HANDLER™** on solvents with low auto-ignition temperature like "Nitromethane."

The lists given herein are general and do not necessarily include all the materials Acid Handler™, Polyform-F™, Base Control™, and Solvent Handler™ can or cannot be used on. If you would like an exotic species tested, or have questions as to application of the products, contact the S&S Company of Georgia, Inc. or American Bio-Safety, Inc. for further information. They will try applying their products to your substance and determine a suitable procedure for spill situations.

**MERCEDES SCIENTIFIC®
Q-SORB® FORMALDEHYDE
ABSORBENT PADS**

- Designed to absorb and neutralize formaldehyde vapors in a laboratory environment
- Light blue colored sheets provide excellent contrast for tissue grossing
- Reduce harmful vapors while transferring, dissecting, storing or transporting tissue in formalin containers
- Tear-resistant, durable and disposable
- Useful for areas prone to leakage

MER AP0811	8" x 11"	25/Pack
MER AP1115	11" x 15"	25/Pack
MER AP1520	15" x 20"	25/Pack

MER AP1520

TID 16650

ABSORBENT UNDERPADS

- 3-ply, highly absorbent tissue-filled or fluff-and-tissue-filled center with a waterproof polyethylene backing
- Soft, nonwoven material protects non-irritating skin from wetness for enhanced comfort

TID 16650	17" x 24"	300/Case
TID 16651	24" x 36"	150/Case
TID 16652	23" x 24"	200/Case
TID 16653	12" x 17"	500/Case

ABS FAN825

FORMALIN PADS

- Super absorbent pads neutralize and eliminate formalin, formaldehyde, glutaraldehyde and other aldehydes
- Convert the aldehydes to a nonhazardous polymer to neutralize harmful vapors once the solution is absorbed

ABS FAN55	Mini Pad, 11" x 11"	6/Case
ABS FAN614	Small Pad, 6" x 14"	48/Case
ABS FAN825	Large Pad, 8" x 25"	30/Case

QUANTOFIX® FORMALDEHYDE

Test sticks and reagents for the semi-quantitative determination of formaldehyde in solutions. Gradation of scale: 0-10-20-40-60-100-200 mg/l HCHO beige to blue-violet. Other aldehydes such as e. g. acetaldehyde or glutardialdehyde only react at higher concentrations, resulting in a discoloration which deviates from the colour scale. Acetone does not react. Strong oxidizing and reducing agents cause low results.

CSS 91328

100 Test Strips + Reagent

Kit

ACID-NEUTRAL-ALKALINE PH TEST PAPER

- Includes color comparison chart
- Simply immerse strip into solution under test and compare to chart
- Determines if a solution is acidic (red), neutral (yellow-green), basic (green) or alkaline (blue)

FIS S63129

100 Strips/Pack

12/Pack

MQANT® PH-INDICATOR STRIPS

- Different pH ranges from the universal range 0 to 14
- Contain special indicator dyes that are covalently bound to the cellulose of the indicator paper
- Suited for all media in environmental analysis and industrial in-process controls
- Non-bleeding and highly accurate even in weak buffers
- pH value is measured semiquantitatively by visual comparison of the reaction zone on the test strip with the fields of the color scale

OUTFRONT REVERSIBLE MAT

- Flexible scrapers and quick-dry drainage ports remove dirt and moisture in more moderate weather while stiff ridges scrape heavier debris and packed snow
- **MOST VERSATILE SCRAPER MAT AVAILABLE**
- Outdoor mat accommodates all weather conditions
- Provides an all-season line of defense for entry ways
- **UV RESISTANT**
- Overall Thickness: 7/16" (11mm)
- **SIZE AVAILABLE:** 3' x 6'
- **COLOR:** Black

TEN 227 Outdoor Reversible Mat Each

227 MAT SERIES

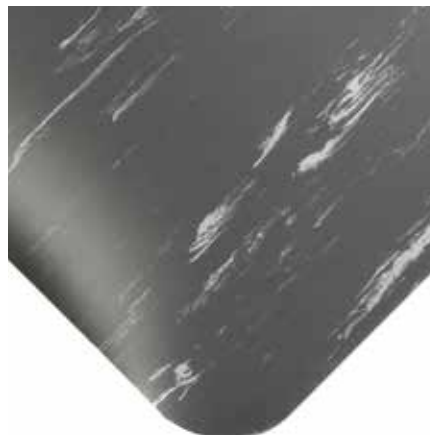

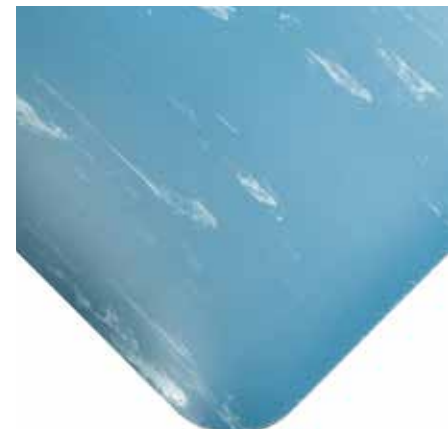

TILE-TOP AM SPONGECOAT MATS

- Doubles down on combating fatigue even while providing a top to bottom anti-microbial solution
- Ideal for laboratories, pharmacies, biotechnology and pharmaceutical manufacturing facilities
- Absorbs repeated compression and bounces back to its original form better than any PVC sponge alternative
- **THE ONLY FULLY CUSTOMIZABLE TILE-TOP MATTING PRODUCT AVAILABLE**
- Machine cut and beveled edges prevent tripping
- Tough but attractive abrasion and chemical resistant PVC surface
- Anti-microbial top surface provides top level defense and is backed with an anti-microbial Nitricell sponge
- Overall Thickness: 1/2" (Standard), 7/8" (UltraSoft)
- **SIZES AVAILABLE:** 2' x 3' | 2' x 60' | 3' x 5' | 3' x 10' | 3' x 60' | 4' x 60' | Custom
- **COLORS:** Black, Blue, Charcoal, Gray

TEN 419 UltraSoft Tile-Top Mats Each

TEN 420 Standard Tile-Top Mats Each

419/420 MAT SERIES

TILE-TOP SELECT MATS

- Mid-range offering within the popular family of marbled anti-fatigue mats
- Anti-microbial marble top surface is a chemical-resistant and durable PVC that is lightly textured, supple to the touch and easy-to-clean
- Special "Flex-Link" sponge base or closed-cell PVC foam provides solid, stable performance to combat fatigue
- Resistant to many common chemicals and cleaners
- Overall Thickness: 1/2" (Standard), 7/8" (UltraSoft)
- **SIZES AVAILABLE:** 2' x 3' | 2' x 60' | 3' x 5' | 3' x 60' | 4' x 60' | Custom
- **COLORS:** Black, Blue, Charcoal, Gray

TEN 494 Tile-Top Select Mats Each

494 MAT SERIES

433 MAT SERIES

COMFORTPRO MATS

- Special "Flex-Link" PVC sponge base is a budget friendly fatigue fighting solution and is easy-to-clean
- Wide corrugated pattern provides good traction
- Best solution when a corrugated surface is a must
- Overall Thickness: ½" (Standard), ¾" (UltraSoft)
- **SIZES AVAILABLE:** 2' x 3' | 3' x 4' | 3' x 5' | 2' x 75' | 3' x 75' | 4' x 75' | Custom
- **COLOR:** Black

TEN 433

ComfortPro Mats

Each

580 MAT SERIES

AUTOCLAVABLE MAT

- Ideal for sterile environments such as hospital operating rooms, surgery centers, laboratories, pharmaceutical and life sciences
- Features 100% latex-free, non-porous rubber compound
- Promotes health and wellness for professionals working in sterile applications
- Rubber surface domes (flexible and resilient underfoot) provide relief during long shifts and extended standing
- 100% anti-microbial and USP 797 compliant
- Overall Thickness: ½" (13mm)
- **SIZE AVAILABLE:** 2' x 3'
- **COLOR:** Gray

TEN 580

Autoclavable Mat

Each

480 MAT SERIES

ABRASIVE COATED KUSHION WALK SLOTTED MATS

- Industrial tough, and abrasion and highly cut resistant
- Durable textured surface guards against slipping
- Unique **GRITSHIELD** surface is specifically designed for high COF (coefficient of friction) in the slickest locations
- Effective standing solution in areas requiring high traction to combat slips and falls
- Combats the dangerous nuisance of slips and falls in today's workplace
- Excellent choice for covering grated walkways
- Overall Thickness: ¾" (9mm)
- **SIZES AVAILABLE:** 2' x 60' | 3' x 60' | Custom
- **COLOR:** Black

TEN 480

Abrasive Coated Kushion Mats

Roll

ULTRA-TRED ARMORCOTE MATS

- More durable urethane coating for greater abrasion resistance than standard blown PVC sponge products
- Tough outer skin increases service life, especially in applications where abrasion can cause the mat to fail
- Economic comfort for medium traffic areas
- Overall Thickness: 3/8" (9mm)
- **SIZES AVAILABLE:** 2' x 3' | 2' x 60' | 3' x 5' | 3' x 12' | 3' x 60' | 4' x 60' | Custom
- **COLOR:** Black w/Yellow Borders

TEN 440 Ultra-Tred ArmorCote Mats Each

REJUVENATOR MATS

- Large modular tiles interlock on all 4 sides to customize on-site virtually any flooring configuration
- Deep positive lock keeps seams secure
- 100% urethane with thick outer wear layer
- Ability to customize in ONE FOOT (30cm) increments
- Choose from beveled **BLACK** or **YELLOW** ramp edging
- Overall Thickness: 5/8" (16mm)
- **SIZES AVAILABLE:** 1' x 3' | 3' x 3'
- **COLOR:** Black

TEN 502 Rejuvenator Square Mats Each

CLEAN ROOM MATS

- Trap impurities from shoe soles for dust and dirt control
- Sheets of "tacky" film guards against contamination
- Tear-resistant sheets are numbered to indicate when a new mat is needed by simply peeling off the old sheet
- Use on low-pile carpet, tile or concrete surfaces
- Adhesive backing holds mat securely in place
- **SIZES AVAILABLE:** 18" x 36" | 18" x 45" | 24" x 45" | 36" x 45" | 2' x 3' | 3' x 5'
- **COLORS:** Blue, White

TEN 095 Clean Room Mats 4/Case

COMFORT2GO MAT

- Long-lasting, portable, versatile, anti-fatigue mat
- Provides standing and kneeling support
- Built-in handle for easy carrying and storing
- Double thick Nitricell® sponge base infused with nitrile rubber for exceptional comfort
- Overall Thickness: 7/8" (22mm)
- **SIZE AVAILABLE:** 17" x 30"
- **COLOR:** Black

TEN 518 Comfort2Go Mat Each

LARGE DIGIT - TRIPLE DISPLAY ALARM

Current-Min-Max Temperatures

The Triple Display Digital Thermometer simultaneously shows the current, minimum, and maximum temperatures and updates continuously. An audible alarm will sound when the temperature rises above or goes below the set temperatures. The minimum/maximum feature monitors critical temperature for any period of time, such as overnight or weekend. Reset buttons on front panel.

Each thermometer is certified and traceable to NIST. Each thermometer is serialized. The thermometer probe is housed in an unbreakable plastic bottle or vial filled with a Bio-Safe Glycol / Water or Sand buffering media which maintains the thermometer reading when the instrument door is opened.

The thermometer and the bottle housing the probe have dual magnets allowing attachment to doors or walls of the instrument.

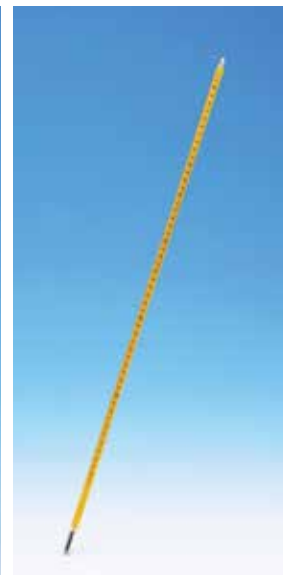

Other features include a flip-open stand, wall mounting key hole, and supplied with a AAA alkaline battery. The instrument is °C and °F switchable.

JUMBO BLACK TIMER

- Simultaneous programming of two different activities from 24 hours to 1 second with 0.01% accuracy
- Second display mode shows time of day and a stopwatch
- LCD display can be read up to 30 feet away

CCM 5022CC Jumbo Black Timer Each

MULTI-COLORED TIMER

- 3-bright colorful supplied frames permit personalization
- Unique memory returns channel to previously programmed setting at touch of a key
- Counts up during alarming indicating elapsed time since alarming, 12/24 hour clock
- 4 channels count up in stopwatch mode

CCM 5012CC Multi-Colored Timer Each

THREE-CHANNEL ALARM TIMER

- Triple display shows 3 different times at once, tests can be started independently or simultaneously
- Adjustable alarm volume can be set to sound for 60 seconds or to sound continuously until turned off
- Loud decibel for noisy areas and low for quiet areas
- **Features:** Count Up/Down, Time In/Out, Memories, Alarm, Clock, Adjustable Alarm Duration/Volume

CCM 5000CC 3-Channel Alarm Timer Each

MONITORING HYGROMETER

- Simultaneously displays time, temperature and humidity
- Internal sensors are ideal for use in hoods, storerooms, incubators, drying chambers and environmental cabinets
- Memory recalls temperature and humidity readings

CCM 4040 Monitoring Hygrometer Each

FOUR-CHANNEL ALARM TIMER

- Massive high display allows viewing from across the lab
- Remarkable memory returns display to previously programmed countdown time at the touch of a button
- Extra-loud alarm for 1 min or can be silenced manually
- **Features:** Count Up/Down, Time In/Out, Memories, Alarm, 12/24 Hour Clock

CCM 5004 4-Channel Alarm Timer Each

DIGITAL TIMER PLUS™

- Six-digit LCD display shows time remaining in hours, minutes, seconds with quartz-crystal accuracy
- Alarm sounds for 60 seconds or may be silenced manually when zero is reached
- Handiest timer designed to clip to any surface such as lab coat, belt, notebook or clipboard
- **Features:** Count Up/Down, Time In/Out, Keychain, Alarm

CCM 5045CC Digital Timer Plus Each

EACH UNIT INCLUDES TRACEABLE® CERTIFICATE SUPPORTED BY NIST

ANTISTATIC WEIGHING DISHES

- Made from a special grade of polystyrene
- Resist acids, aqueous solutions, alcohols and bases
- Safe, contaminant-free, biologically inert and economical
- Ideal for weighing, dispensing or storing
- Smooth surface for accurate pours with tiny sample loss
- Non-reactive with most substances
- Stackable for easy storage
- Excellent for handling solids or liquids during weighing
- Facilitate dispensing of powdered and liquid materials
- Suitable for weighing static affected samples
- Withstands temperatures up to 80°C

LABELS

SlideID

Microscope Slide Label Printer

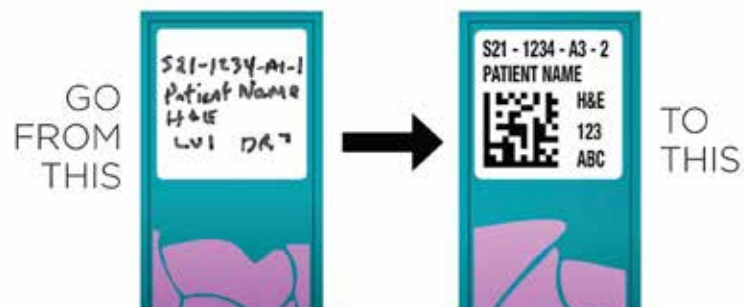

A complete, ready-to-print microscope slide label printer package that comes with everything you need to print histology grade slide labels — printer, software, labels, and ribbon.

The slide labels and thermal transfer ribbon are optimized for harsh chemicals and will not absorb eosin or hematoxylin coloring.

SlideID printers function with or without LIS. They can be set up for batch printing or with on-demand printing for “laboratory best practices.”

FEATURES:

- Ready-to-print
- Scalable
- Resistant to stains, solvents and xylene
- Will not absorb eosin or hematoxylin coloring
- Function with or without LIS
- Can be setup for batch printing or with on-demand printing

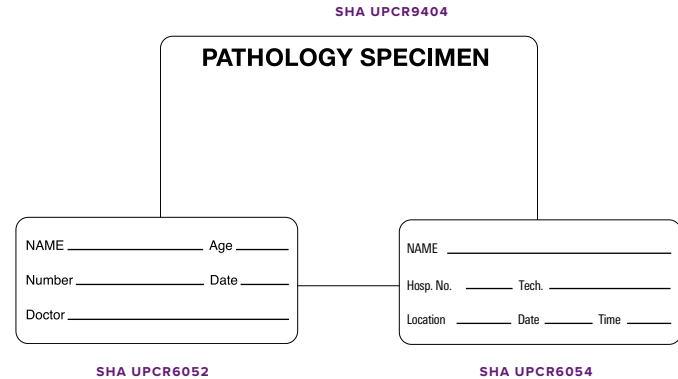

QRL SLIDEIDPRINTERPK	BASIC PACKAGE: SlideID CL-E331 Slide Label Printer, SlideID Slide Printing Software, SlideID Microscope Slide Labels, SlideID Thermal Transfer Ribbon	Each
QRL SLIDEIDPROPCK	PRO PACKAGE: Includes All Contents of the Basic Package Above Plus Denso AT30Q Barcode Scanner	Each
QRL SLIDEIDLABEL	SlideID Microscope Slide Labels, 0.875" x 0.875", 1" core (1,750 Per Roll)	Roll
QRL SLIDEIDRIBBON	SlideID Special Resin Ribbon, 1.57" W x 984' (prints 12,000 +/- Slide labels)	Each
QRL SLIDEIDRIBBONZ	SlideID Thermal Transfer Ribbon For ZEBRA® Style Printers, Xylene and solvent resistant, histology grade	Each

SPECIMEN & PATHOLOGY LABELS

- Pressure-sensitive, non-smudge labels accept written notations in pen, pencil or marker
- Adhere instantly to glass, plastic or waxed surfaces
- Identify specimens more easily
- Holds test requisitions to specimen containers

APPAREL

TANNER SCIENTIFIC® BLUTOUCH® NITRILE EXAM GLOVES

- Powder-Free, Latex-Free, Non-Sterile
- Made of Synthetic Rubber
- Disposable (Single Use Only)
- Comfortable Fit and Feel
- High Barrier Protection
- Superior Solvent Resistance
- Textured Fingertips for Better Grip
- Exceeds ASTM Standards

TNR 700S	Small (6.5-7)	100/Box
TNR 700M	Medium (7.5-8)	100/Box
TNR 700L	Large (8.5-9)	100/Box

NITRILE

Product was **FENTANYL TESTED**

NITRIDERM® ULTRA BLACK NITRILE EXAM GLOVES

- Powder-Free, Non-Latex, Non-Sterile
- Named a true medical grade exam glove
- #1 choice for law enforcement and corrections
- Medium modulus and high tensile strength
- Popular black color masks a variety of stains
- Textured for excellent grip

INN 187050	X-Small	100/Box
INN 187100	Small	100/Box
INN 187200	Medium	100/Box
INN 187300	Large	100/Box
INN 187350	X-Large	1,000/Case

NITRIDERM® ULTRA BLUE

- Powder-Free, Non-Latex, Non-Sterile
- Exceptionally soft
- Very comfortable for extended periods
- Low modulus formulation
- **COLOR: LIGHT BLUE**

INN 157050	X-Small	100/Box
INN 157100	Small	1,000/Case
INN 157200	Medium	100/Box
INN 157300	Large	100/Box
INN 157350	X-Large	100/Box

PRODERM™ XR

- Powder-Free, Non-Latex, Non-Sterile
- Thinner and lightweight
- Soft, comfortable, easy to don
- Extraordinary tactile sensitivity yet equally extraordinary strength
- **COLOR: BLUE**

INN 158050	X-Small	250/Box
INN 158100	Small	250/Box
INN 158200	Medium	250/Box
INN 158300	Large	250/Box

NITRILE

**NITRIDERM® ULTRA WHITE**

- Powder-Free, Non-Latex, Non-Sterile
- Exceptionally soft, thin-film is very comfortable for extended periods
- Slightly tacky, textured fingers provide excellent gripping properties
- **COLOR: WHITE**

**PULSE® NITRILE**

- Powder-Free, Non-Latex, Non-Sterile
- Thinner glove for incredible elasticity
- Finely textured fingertips for unequaled tactile sensitivity and excellent gripping
- Automated flat packing allows gloves to dispense easily
- **COLOR: DARK LAVENDER**

**NITRIDERM® ULTRA ORANGE**

- Powder-Free, Non-Sterile, Textured
- Ideal for EMS, police and fire, hazmat functions, spills, etc
- Extremely elastic and comfortable while providing the tensile strength
- **COLOR: ORANGE**

**KIMBERLY-CLARK® PURPLE**

- Powder-Free, Non-Latex, Non-Sterile
- Maximum coverage and protection
- Excellent dexterity and sensitivity
- Cleared for use in chemotherapy
- Textured fingertips
- Beaded cuff
- **COLOR: PURPLE**

LATEX

**PULSE® LATEX**

- Powder-Free, Non-Sterile, Textured
- Engineered to be slightly thinner for superior tactile sensitivity
- Online chlorination creates superior gripping ability for a very soft feel
- Excellent donning properties and a more comfortable fit
- **COLOR: WHITE**

**PRODERM™**

- Powder-Free, Non-Sterile, Textured
- Engineered to be slightly thinner for incredible tactile sensitivity
- Polymer bonded interior and lightly textured surface
- Unique polymer process creates a glove easy to don without using chlorination
- Very comfortable for extended wear
- **COLOR: WHITE**

LOOKING TO SET UP A NEW LAB?

Mercedes Scientific is here to help!

We currently provide a full line of **NEW and Refurbished Laboratory Equipment!**
On-site installation, training and extended warranties are available for most models.

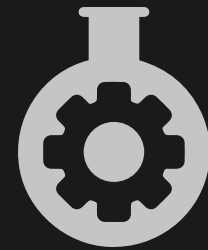

TYPES OF EQUIPMENT:

- Tissue Embedding Units
- Microtomes
- Cryostats
- Autostainers
- Manual Staining Systems
- Coverslippers
- Paraffin Dispensers
- Tissue Flotation Baths
- Slide Warmers/Dryers
- Microscopes
- Slide/Cassette Labelers
- Fume Hoods

AND MUCH MORE!

INCLUDES:

- Professional Packaging and Full-Value Insured Shipping
- Full Warranty on **ALL** Equipment*
- Extended Service Contracts
- Experienced Techs for Timely and Quality Repairs if needed
- Lease Options

**FOR MORE INFORMATION
